EXPANDED MARKET COVERAGE ADDS MS-65 PROOFLIKE MORGANS! "Year Of The BU Rolls"—Part One Of A Review

The Market in Depth ALLEN HARRIMAN

With this first issue of 1979, the CDN is very pleased to announce a major expansion of our silver dollar market coverage. The page six charts now include a BID RANGE for MS-65 PROOFLIKE Morgan Dollars--an addition that we feel will be of invaluable help to those many dealers, investors and collectors who are involved in this area of numismatics! It must be stressed that the bid ranges listed are for fully prooflike and strictly MS-65 specimens. To qualify for this category, the coin must be sharply struck and relatively free of major bag marks. Softly struck or heavily bag marked pieces are worth considerably less than the listed prices. Conversely, superb specimens (MS-65+) usually sell for considerably more. Also, to be considered true prooflikes, both sides of the coin must have highly reflective (almost like a mirror) fields. Beware of semi-reflective or one-sided prooflikes offered at full prooflike prices!

"The year of the BU rolls" is certainly an appropriate term for 1978! After several year's of taking a definite "back seat" to numerous other areas of the market, BU roll exploded into action during '78---with the various series "taking off" at differing intervals during the year. All of the series from Buffalo nickels thru Franklin halves participated in the often frantic activity---leaving only the Lincoln cents basically unaffected. In this and next week's issue we will examine the frequently extraordinary advances registered by the BU roll market during the past twelve months.

The Buffalo nickels were rather late entrants into the action but, nonetheless, gains made during the last months of '78 were very impressive indeed. Beginning with this 1934-38 group, we will also take a look this week at the Mercury dimes and Walking Liberty halves; next week's issue will examine the remaining series. First, the Buffalos:

	Bid Jan. 6 '78	Bid Jan. 5 '79	% Gain		Bid Jan. 6 '78	Bid Jan. 5 '79	% Gain
1934-P	\$ 825	\$1350	64%	1936-D	\$ 375	\$ 700	87%

1936-P	325	665	105%	1938-D	255	665	161%

Leading the year's action in BU rolls, of course, were the 1934-45 Mercury dimes. The majority of advances in this series have been truly phenomenal! The following chart covers each issue in this group:

	Bid Jan. 6 '78	Bid Jan. 5 '79	% Gain		Bid Jan. 6 '78	Bid Jan. 5 '79	% Gain

The 1934-47 Walking Liberties, for the most part, also fared extremely well during 1978! Bidders placed particular emphasis upon the twenty issues in the 1941-47 "short set"---but all of the previously overlooked pre-1941 P-mints (along with 1938-D and 1939-D & S) did enjoy a substantial measure of the activity. It is interesting to note that 1934-37 mintmarked singles continue to lag behind the remainder of the Walking Liberties. It will be equally interesting to see if these eight dates begin to "catch up" during 1979. The chart below covers the year's gains for all issues in this group; numerous important comparisons can be made from these figures:

	Bid Jan. 6 '78	Bid Jan. 5 '79	% Gain		Bid Jan. 6 '78	Bid Jan. 5 '79	% Gain

(* The 1940-S roll more or less falls into a "special" category since even moderately well struck rolls are quite difficult to locate. As reported in the December MONTHLY SUMMARY, strictly MS-65 singles are now bid at \$150---while the typical weak strike MS-60 trades in the much lower \$35-\$38 range.)

U.S. GOLD (Prices are for the most common date of each type.) Bullion related gold coins in this issue are figured on a basis of gold at \$221.20 per ounce.

MS-60 coins are "average UNC"—they may have bag marks or handling marks (but no wear) and may not have full luster;
MS-65 coins are choice fully struck specimens without detracting marks—they may be brilliant or have original toning.

STRONG BU ROLL MARKET CONTINUES INTO NEW YEAR "Year of the BU Rolls" Analysis Covers Roosevelts, Washingtons and Franklins

The Market in Depth

ALLEN HARRIMAN

Last week's initial '79 issue began an analysis of "1978, Year of the BU Rolls"—reporting the many truly phenomenal advances recorded by the Buffalo nickels, the Mercury dimes and the Walking Liberty halves. This week we will look at the equally often tremendous gains registered by the Roosevelt dimes, the Washington quarters and the Franklin halves during the past twelve months.

First, the Roosevelts. The thirty-two earlier issues listed below were bid at a total of \$2951 at the beginning of last year; this week's total for the same rolls is \$5161! These figures represent a gain of 74% for the group! Individual increases are as follow:

	Bid Jan. 6 '78	Bid Jan. 12 '79	% Gain		Bid Jan. 6 '78	Bid Jan. 12 '79	% Gain
1946-P	\$ 20	\$ 28	40%	1951-D	\$ 34	\$ 64	88%
1946-D	25	88	252%	1951-S	250	435	74%
1946-S	37	72	95%	1952-P	24	53	121%
1947-P	33	77	133%	1952-D	35	86	146%
1947-D	70	210	200%	1952-S	72	225	213%
1947-S	46	82	78%	1953-P	34	52	53%
1948-P	56	140	150%	1953-D	19	26	37%
1948-D	145	215	48%	1953-S	24	33	38%
1948-S	55	200	264%	1954-P	18	25	39%
1949-P	350	560	60%	1954-D	18	25	39%
1949-D	200	245	23%	1954-S	20	33	65%
1949-S	665	1000	50%	1955-P	36	53	47%
1950-P	58	82	41%	1955-D	22	39	77%
1950-D	58	77	33%	1955-S	19	27	42%
1950-S	435	775	78%	1957-D	18	45	150%
1951-P	36	62	72%	1958-P	19	27	42%

Gains for the pre-1941 Washingtons ranged from a low 12% for the 1937-P to a high of 140% for the 1939-D. The majority of these twenty-two dates, it should be noted, advanced at least 30%—and many posted much stronger gains. Here are the date-by-date figures:

	Bid Jan. 6 '78	Bid Jan. 12 '79	% Gain		Bid Jan. 6 '78	Bid Jan. 12 '79	% Gain
1932-P(sgl)	\$ 23	\$ 30	30%	1937-P	\$760	\$850	12%
1932-D(sgl)	700	950	36%	1937-D(sgl)	31	55	77%
1932-S(sgl)	230	360	57%	1937-S(sgl)	77	160	108%
1934-P	535	725	36%	1938-P(sgl)	36	58	61%
1934-D(sgl)	95	128	35%	1938-S(sgl)	43	90	109%
1935-P	430	675	57%	1939-P	280	525	88%
1935-D(sgl)	95	128	35%	1939-D(sgl)	20	48	140%
1935-S(sgl)	66	75	14%	1939-S(sgl)	37	58	57%
1936-P	460	725	58%	1940-P	320	525	64%
1936-D(sgl)	250	365	46%	1940-D(sgl)	35	58	66%
1936-S(sgl)	60	115	92%	1940-S	325	775	138%

In general, the 1941-64 "short set" Washingtons had been neglected by most roll enthusiasts for the past several years—but 1978 witnessed advances that were previously unimagined by nearly everyone! Only two dates (1950-S & 1955-D) failed to register more than nominal gains at 18% each; led by the 1943-S with an overwhelming 375%, all of the other dates in the following chart fared extremely well during the year just past:

	Bid Jan. 6 '78	Bid Jan. 12 '79	% Gain		Bid Jan. 6 '78	Bid Jan. 12 '79	% Gain

The Franklins, too, enjoyed a substantial share of the '78 BU roll active! The thirty-five dates in the complete roll set were bid at a total of \$5194 just a year ago; this week's total is \$8976—representing the same 74% advance that was registered by the Roosevelt dimes! The following is a recap of the performances turned in by the individual issues:

Next week's issue will examine the past year's activity in the Morgan and Peace dollar series as well as taking a look at those late entrants into the roll action—the Jefferson nickels.

U.S. GOLD: (Prices are for the most common date of each type.) Bullion related gold coins in this issue are figured on a basis of gold at \$222.00 per ounce.

THE COIN DEALER NEWSLETTER

reports the national coin market on a weekly basis. Under the present system, it is impossible to monitor all transactions of offers to buy and sell, but the broad information sources of the Newsletter make it a very accurate reflection of the market.

INVESTORS NOTE: the prices in the Newsletter are from dealer-to-dealer transactions. As an investor, you may place your buy and sell orders through a dealer for a fee, as you would buy stock through a broker.

ADVERTISING RATES:

\$12.00 per column inch; four consecutive ads (no changes) - 10% discount.

Advertising space is limited; ads will be placed in first possible edition.

COMMEMORATIVES

MS-60 coins are "average UNC"—they may have bag marks or handling marks (but no wear) and may not have full luster; MS-65 coins are choice fully struck specimens without detracting marks—they may be brilliant or have original toning.

A LOOK AT THE '78 SILVER DOLLAR ADVANCES BU Roll Gains Continue—Commems & Proof Sets Mixed—Some Dollar Rolls Lower

The Market in Depth

ALLEN HARRIMAN

The first two CDN issues of the new year examined the often tremendous gains posted during 1978 by BU rolls in the various series from the Buffalo nickels thru the Franklin halves. And, even as this past year's activity was being analyzed, prices continued to escalate across a broad front—with record-breaking bid levels still being set by numerous issues. However, though '78 was termed "The Year of the BU Rolls", the following charts will show that silver dollars were by no means overlooked during the year just concluded! Advances for both the Morgan and Peace dollars in MS-65 condition were at least equally as impressive as those turned in by the BU roll market. First, let's take a look at the 1878-1885 Morgan singles—a group which was led by the scarce (when fully struck) 1879-O at 217%:

	Bid Jan.6 '78	Bid Jan.19 '79	% Gain		Bid Jan.6 '78	Bid Jan.19 '79	% Gain

1881-S	9	19	111%				

The 1886-1894 issues were topped by the extremely impressive advances scored by the MS-65 1887-O (up 314%) and the 1891-P (up 309%)—the remainder of the gains varied considerably—but virtually all can certainly be considered noteworthy:

	Bid Jan.6 '78	Bid Jan.19 '79	% Gain		Bid Jan.6 '78	Bid Jan.19 '79	% Gain

The final group of Morgans was led by the surprisingly tough fully struck MS-65 1921-S at 329% and a close runner-up was the popular 1904-P at 310%. The others fared as follows:

The biggest winner of all silver dollars during the past year was the truly elusive (again, fully struck MS-65) 1923-S at an incredible 471%—with the almost as tough 1922-S posting an also very substantial 350%. Actually, all of the Peace dollars performed extremely well during 1978:

	Bid Jan.6 '78	Bid Jan.12 '79	% Gain		Bid Jan.6 '78	Bid Jan.12 '79	% Gain

Next week—in addition to regular market coverage—we will take a look at the still strongly advancing Jefferson nickel series.

THE COIN DEALER NEWSLETTER

reports the national coin market on a weekly basis. Under the present system, it is impossible to monitor all transactions of offers to buy and sell, but the broad information sources of the Newsletter make it a very accurate reflection of the market.

INVESTORS NOTE: the prices in the Newsletter are from dealer to dealer transactions. As an investor, you may place your buy and sell orders through a dealer for a fee, as you would buy stock through a broker.

ADVERTISING RATES:

\$1200 per column inch, four consecutive ads (no changes) - 10% discount

Advertising space is limited: ads will be placed in first possible edition.

ROOSEVELTS, WASHINGTONS & LATE FRANKLINS TOP BUYING LISTS Analysis Of Recent Jefferson Gains Reveals Numerous Phenomenal Increases

The Market in Depth

ALLEN HARRIMAN

Our final segment of the "Year of the BU Rolls" analysis covers the advances registered in the Jefferson nickel series during the past year. The complete 1938-64 BU roll set was bid at \$3600 in early January of last year; the current bid is \$5750. These figures represent a healthy overall increase of an even 60%—not bad for a series which had been in the doldrums for so many years!

The major advances in the Jeffersons, as most readers know, occurred during the latter part of '78—and, although prices are somewhat mixed this week, major gains continue to be recorded. First, let's take a look at the performances of the early pre-war time issues:

	Bid Jan.6 '78	Current Bid	% Gain
1938-P	\$ 24	\$ 46	92%
1938-D	113	195	72%
1938-S	152	200	31%
1939-P	21	26	24%
1939-D(sgl)	30	70	133%
1939-S	335	500	49%
1940-P	11	26	136%

Advances in the eleven issue wartime group ranged from a surprisingly low 7% for the "sometimes popular" low mintage 1943-D to an impressive 142% for the tough 1945-P; individual gains posted were:

1942-P(II)	\$290	\$415	43%
1942-S	135	250	85%
1943-P	40	65	63%
1943-D	72	77	7%
1943-S	43	82	91%
1944-P	46	70	52%
1944-D	\$ 79	\$145	84%
1944-S	88	145	65%
1945-P	53	128	142%
1945-D	53	110	108%
1945-S	37	67	81%

Led by an incredible 520% gain for the 1952-P roll (the largest increase of any BU roll), numerous extremely impressive percentage advances were registered by the post-war time issues—with the average gain for the twenty-eight dates between 1946 and 1955 being 191%! The separate figures are:

1946-P	\$ 3.85	\$ 18.00	368%
1946-D	7.50	37.00	393%
1946-S	11.50	39.00	239%
1947-P	4.00	15.00	275%
1947-D	9.00	36.00	300%
1947-S	19.50	42.00	115%
1948-P	4.50	16.00	256%
1948-D	11.50	37.00	222%
1948-S	25.00	46.00	84%
1949-P	8.50	30.00	253%
1949-D	16.50	37.00	124%
1949-S	45.00	84.00	87%
1950-P	34.00	80.00	135%
1950-D	250.00	360.00	44%
1951-P	\$ 7.25	\$24.00	231%
1951-D	20.00	42.00	110%
1951-S	45.00	85.00	89%
1952-P	5.00	31.00	520%
1952-D	37.00	68.00	84%
1952-S	9.25	30.00	224%
1953-P	2.75	7.75	182%
1953-D	3.25	7.75	138%
1953-S	6.85	13.00	90%

This Week's Market

CENTS: The Lincoln series still fails to excite much buyer interest—price changes are slight and sales remain minimal. There are attempts to locate the 1970-S "small date" roll—with bid now pegged at \$105.

NICKELS: The 1934-38 Buffalo nickel rolls are unchanged so far this year—after the major advances registered during the last weeks of '78. However, very few rolls are being listed for sale and the occasional teletype bargain-hunter goes empty-handed. The Jeffersons, in general, remain quite strong—see "The Market in Depth".

DIMES: A number of Mercury dime rolls have been offered on the teletype circuits during the past couple of weeks. Most are still priced within the bid-ask ranges although a few (39-D, 43-S, 44-S, 45-S) have edged a bit lower this week in not unexpected profit taking. The Roosevelt, on the otherhand, are still perking merrily along. The complete 1946-64 BU roll set is now unsuccessfully bid at \$5500—with individual roll gains being led by the very scarce 1949-S at a record-breaking \$1200!

QUARTERS: And yet another very strong round of gains has been registered by the still soaring Washingtons! From the 1932-40 singles thru even the most common date silver rolls, demand remains well ahead of supply—with the early mintmarked singles setting records week after week. Check pages two and three thoroughly—particularly the new bid levels for the singles!

HALVES: Increased interest for the pre-1940 single Walking Liberties is now evident on the teletype circuits—with advances recorded this week for 1936-D & S, 1937-S and 1938-P. In the "short set" group (1941-47), prices are firm—with an advance to \$760 bid noted for the 1944-D.

The Franklins are still quite active even though a few dates are a bit lower in obvious profit-taking. Bidder emphasis is on the lower priced issues from 1954 thru 1961—with most of these showing gains in quantity bidding.

DOLLARS: After a few weeks of lower ask levels (again, not unexpected profit-taking), common pre-1921 Morgan rolls have edged back up to \$270 bid; quantities are wanted. And in both the Morgan and Peace series, the MS-60, MS-65 and MS-65 prooflike columns are again peppered with plus signs as demand for properly graded singles continues unabated—see page six!

PROOF SETS and MINT SETS: Prices are lightly mixed in this area; the number of sellers of most issues is at least equal to the number of bidders. The 1965-67 "special mint sets" are in demand; quantities are wanted (obviously to assemble rolls of the Kennedy halves).

COMMEMORATIVES: Two major commem dealers are in the selling mood—and, as a result, bid levels have been lowered again this week for many silver issues. On the otherhand, there are several buyers of specific issues—thus the scattered plus signs. The complete set of gold commems is now bid at a strong \$9250—which is over the \$8955 currently being offered for the eleven coins individually. Few gold commems in any grade are available at this time.

U.S. GOLD (Prices are for the most common date of each type.) Bullion related gold coins in this issue are figured on a basis of gold at \$237.90 per ounce.

THE COIN DEALER NEWSLETTER

reports the national coin market on a weekly basis. Under the present system, it is impossible to monitor all transactions of offers to buy and sell, but the broad information sources of the Newsletter make it a very accurate reflection of the market.

INVESTORS NOTE: the prices in the Newsletter are from dealer-to-dealer transactions. As an investor, you may place your buy and sell orders through a dealer for a fee, as you would buy stock through a broker.

ADVERTISING RATES:

\$12.00 per column inch; four consecutive ads (no changes) - 10% discount.

Advertising space is limited; ads will be placed in first possible edition.

EARLY WASHINGTON SINGLES SOAR TO NEW HEIGHTS 1970-D Roll Paces Interest In Kennedy Halves—Bid Moves To \$460

The Market in Depth

ALLEN HARRIMAN

During the first four weeks of 1979 the 1932-40 Washington quarters certainly must have set some sort of a record for impressive short-term bid level advances! Only a month ago bids for the fifteen singles listed at the top of the page two chart advanced strongly to a total of \$2666. This week—after still another major round of gains—the same fifteen coins in choice condition are receiving bids that total \$3524! This is a gain of 32% in a single month—and there is no indication that bidder needs have been diminished to any extent by the scattered purchases made during this short time.

The key 1932-D, of course, is the coin which is giving dealers "a run for their money". Never easy to locate, it seems that nearly all of the extant examples are now firmly at home in collections. Locating a truly choice 32-D is now quite a task—as this week's new bid of \$1350 will indicate. And it appears that the 1932-S and 1936-D are also gaining the respect due them when located in the same strictly choice condition—this week's bids are \$450 and \$440 respectively. Having lagged behind the popular 1938-S, the three other issues which for many years were priced similarly—1938-P, 1939-S and 1940-D—are also finally beginning to enjoy bidder recognition with higher respective bids of \$77, \$85 and \$85.

Needless to say, buyers of this apparently scarce material are quite fussy about quality—as well they may be considering the prices they are now willing to pay. It should be added that there are perhaps three major bidders in this area at the moment—each trying to keep up with the other's advancing bids. There are, in addition, several other dealers who have need of specific dates to fill clients' needs or to replenish store stock.

The "key" of the Kennedy half dollar series—the 1970-D—continues to pace activity in this series with an impressive bid this week of \$460 per roll! (This is an advance of \$50 since last week.) It is very interesting to note that bid for the complete 1964-78 roll set of Kennedy halves is now \$2200—with at least one transaction being registered as high as \$2300. The interesting point is that the thirty-eight rolls included are bid individually at a total of only \$1793—which means that a very substantial premium (of \$407) is currently being placed on the already assembled roll set! On past occasions, such a large premium for complete roll sets was the forerunner of increasing prices for the various rolls included. The next few weeks could well decide whether such will be the case in the instance of the Kennedy half dollar series!

This Week's Market

CENTS: Other than an occasional attempt to locate a roll or two of the still elusive 1970-S "small date" (this week at \$107.50), bidding in the Lincoln series remain uninspired at best; a few dates have again edged lower.

Choice proof Indian head cents are wanted in quantity at \$135 or so—but, unfortunately, most specimens encountered have problems of one sort or another.

NICKELS: The complete 1938-64 BU Jefferson roll set is bid this week at a higher \$6000; none have been listed for sale. Some potential buyers of individual rolls are simply asking for "quotes" on the dates needed (particularly for the 1938-42 pre-war issues) while others have raised bid levels substantially for many rolls—see pages two and three.

Strictly MS-65 "common date" Liberty nickels are now wanted at a higher \$140—with few if any sellers being located.

DIMES: Three tough Mercury rolls are again receiving even higher bids: 1935-S \$4000, 1937-S \$3500 and 1942-S \$2200. On the other hand, the more easily located 1942-45 P-mint rolls are pegged in a slightly lower \$280-\$300 range this week. Numerous dates in the still advancing Roosevelt series are sporting their latest plus signs—with an emphasis on "quantities wanted" of the less expensive 1953-58 issues. Bids of \$110 fail to produce many sales of 1946-64 single BU sets and the frequently offered \$5500 doesn't pry loose any BU roll sets.

QUARTERS: The 1932-40 singles continue their extremely strong forward surge—see "The Market in Depth". Even though profit-taking seems to have affected a few dates (1943-P, 1945-P, 1948-P), bid levels for numerous "short set" rolls have once again advanced to record levels—with the very elusive 1943-S now bid at a very impressive \$2100! The complete 1941-64 BU roll set, by the way, is now wanted at an even \$18,000—choice single sets at \$450. (Occasional offerings of single sets at "below bid" could well indicate that a few "sliders" are included.)

HALVES: Attempts to locate strictly MS-65 examples of several pre-1940 Walking Liberty singles continue to be monitored. Led by a substantially higher bid of \$550 for the 1938-D (up \$75!); the 1937-D & S and 1939-S have also registered gains this week in largely unsuccessful bidding.

A few sellers have lowered ask levels for some of the Franklin issues—with scattered gains also noted. For comments on the Kennedy half dollar series, see "The Market in Depth".

DOLLARS: Even though some obvious bargain-hunting is still evident on the teletype circuits, the minimum bid for pre-1921 Morgan rolls is \$280 this week—up \$10 over last week's level. Plus signs are, as usual, liberally scattered across the singles charts—with the very tough (in strictly MS-65) 1886-O reaching \$1850 (one dealer will pay as much as \$2000 for a single truly choice specimen).

The Eisenhower series seems to have "bottomed" as bidders now seem to find current prices attractive; small gains have been noted for several issues this week.

PROOF SETS and MINT SETS: A bit of not unexpected profit-taking has lowered prices for the 1936-39 sets; bidders, however, are still definitely in the market for choice sets at this week's slightly reduced levels. The 1968-74 as well as the 1977-78 S-mint sets have all edged higher in quantity bidding—with the 1975-76 versions edging lower. The "most wanted" 1970 mint set is now bid at a record \$24 while the 1973 version is pegged in a lower \$22-\$24 range.

COMMEMORATIVES: Changes in the silver series have been minimal this week in very light trading. Bidder attention is focused on the gold series and, even though price levels remained undisturbed this week, there are numerous teletype dealers who need these eleven issues in all grades from XF/AU thru strictly choice MS-65.

U.S. GOLD: (Prices are for the most common date of each type.) Bullion related gold coins in this issue are figured on a basis of gold at \$232.50 per ounce.

GOLD & SILVER BULLION REACH RECORD LEVELS

Trading Active And Volatile Across Market As Bidders Dominate Teletype

The Market in Depth

ALLEN HARRIMAN

Readers will note that prices for a number of 1934-38 Mercury issues (along with the 1942-S and 1943-S Washington quarters) are now recorded as "singles" rather than full rolls. This change is in line with the manner in which the earlier Washingtons and Walking Liberties have been reported for some time now. As the various issues become more and more elusive--and thus rarely encountered in roll quantities--price levels for singles become more pertinent to current trading. It should be noted, of course, that bid-ask prices are not for "full bands" specimens--but for strictly MS-65 singles. ("Full bands" prices for all of the 1934-45 dates are included as part of the Mercury dime chart in each MONTHLY SUMMARY issue.) As most of those interested in Mercury dimes are aware, the relationship between MS-65 and MS-65 "full bands" pieces varies greatly from date to date--the most dramatic example being the pro-rated \$5.60 being offered for "typical strike" 1945-P's and the \$350 which dealers will pay for the same date with "full bands". (By the way, since the January MONTHLY SUMMARY was published, bid for "full bands" 1939-S's has reached \$200!) It might be added that one major bidder in the BU roll area is still in the market for some "choice original rolls" at the following advanced price levels--dimes: 1935-S \$4500, 1937-D \$3750, 1937-S \$4000 in addition to 1943-S quarters at \$2250!

Interest in the "blue" and "brown" Eisenhower dollars (the 40% silver BU's and proofs) seems to again be on the upswing! After last autumn's major advances, prices subsequently began to tumble drastically as profit-taking became the order of the day. Now, however, once again attractive price levels--along with the approaching release date of the new Anthony dollar coin--have brought forth a number of quantity bidders. The key 1973-S 40% proof has jumped \$5 this week (to \$54) and the recently rather easily located sellers of this and other "Ikes" have suddenly more or less disappeared from the teletype circuits (or they have raised selling prices considerably--no more "bargain lots").

There are thirty-two issues in the complete 1971-78 Eisenhower group--this short-lived series including more variations than any other U.S. series of whatever duration! Included are general circulation strikes, "mint set only" BU's, 40% silver BU's and proofs as well as clad proofs--all with both the regular and Bicentennial reverses plus the "type one" and "type two" varieties in both circulation strike and clad proof. As one dealer recently remarked, you almost need a score-card to figure out what's what in the Eisenhower series! Bid for the complete roll set moved to \$4500 this week--up \$3000; the few sellers seen on the tapes now want \$4800 or so. However, bid for the thirty-two rolls individually totals only \$3993 this week--indicating a premium of over \$500 for the already assembled roll set!!

As the BU roll market in general continues to move along rather briskly, a few bidders are asking for "gem" rolls of various issues which are not often seen in this ultimate condition. These bids are of interest to readers, of course--but it must be stressed that it takes strictly top quality material to fill these rather exacting requirements. Among the rolls in the Jefferson series which are currently commanding premiums when located in "gem" condition are: 1942-P (1) \$68, 1946-P \$24.50, 1952-P \$40--and in the quarter series: 1946-D \$340 and 1946-S \$285. (It might be a good idea for readers to again note the comments at the top of the page two BU roll chart.)

With both gold and silver registering all-time highs, trading in bullion related material is extremely volatile; last minute checks before making commitments are urged.

This Week's Market

CENTS: Minor losses are scattered across the Lincoln chart this week; trading remains minimal and unexciting--with two or three bargain-hunters offering to take "quantities" of most issues in choice condition at discounted prices. (The 1970-S "small date" roll is a bit higher again this week at \$110 bid.)

NICKELS: Prices are mixed this week for the Jeffersons. Those dealers who are interested in specific issues have raised several prices--while a bit of profit-taking is now being seen for some of the dates which are not presently on buying lists. The complete 1938-64 BU roll set is still unavailable at \$6000 bid; a few single sets have changed hands around \$155-\$160.

DIMES: Strongly advancing bullion prices have directly affected the late date common Roosevelt rolls--the minimum bid this week being \$27! The earlier issues, too, are enjoying even higher bid levels--with the complete 1946-64 BU roll set now wanted at \$5700 (bid for the forty-eight rolls individually now totals \$6151.) The Mercuries have been rather quiet this week except for higher bids for 1938-S (\$1350) and 1942-S (\$225)--in addition to those dates mentioned in "The Market in Depth" column.

QUARTERS: As with the Roosevelts, bullion prices have substantially affected the late common date Washingtons--the minimum bid pegged at the moment at \$53.50. Numerous better dates from 1942 through 1955 have also posted gains--check page three. (No complete 1941-64 BU roll sets are yet available to bidders at \$18,000.)

HALVES: With a minimum bid of \$65 now in force for the late Franklins, bidders also want quantities of: 1952-D (\$130), 1954-D (\$108.50), 1958-D (\$90) and 1959-D (\$89). All higher priced issues are steady at current levels. The complete 1948-63 BU roll set is bid at a slightly higher \$9100 this week--with single sets now pegged in the \$465-\$500 range.

DOLLARS: Naturally, as a result of soaring bullion prices, common date dollars in all grades are advancing accordingly--with bidders "feeling their way" during this volatile trading week. Bid for VG/better circ bags range from \$6350 to as much as \$6500; singles are at a minimum of \$6.35 bid with varying premiums often offered for bag quantities. Pre-1921 Morgan rolls are now bid at a minimum of \$300--1921-P's at \$200 and 1922-P's & 1923-P's at \$195. Again, premiums are available for bags. Numerous gains have again been registered by the better dates--check page six!

PROOF SETS and MINT SETS: Sales of the still elusive 1978-S set have been recorded this week for as much as \$19.50 (!)--with a considerable amount of bidder interest noted for the 1964-74 sets at slightly higher levels. (It is from these S-mint issues, of course, that rolls of the clad proof Kennedy halves and Eisenhower dollars are made up for the respective roll sets.) Activity in the mint set area has been moderate--at current levels except for minor gains caused by advancing bullion prices.

COMMEMORATIVES: Only scattered changes have been registered by the silver issues this week. Some of the "choice MS-65" pieces offered on the teletype circuits turn out to be only MS-60+ at best--which is why bidders and sellers sometimes fail to get together even though their buy and sell prices are similar if not identical. Bid for the complete MS-65 set of the gold issues has moved up to \$9500 this week; the eleven issues separately are bid at a higher total of \$9085.

U.S. GOLD: (Prices are for the most common date of each type.) Bullion related gold coins in this issue are figured on a basis of gold at \$254.20 per ounce.

THE COIN DEALER NEWSLETTER

reports the national coin market on a weekly basis. Under the present system, it is impossible to monitor all transactions of offers to buy and sell, but the broad information sources of the Newsletter make it a very accurate reflection of the market.

INVESTORS NOTE: the prices in the Newsletter are from dealer-to-dealer transactions. As an investor, you may place your buy and sell orders through a dealer for a fee, as you would buy stock through a broker.

ADVERTISING RATES:

\$12.00 per column inch; four consecutive ads (no changes) - 10% discount.

Advertising space is limited; ads will be placed in first possible edition.

CHOICE BU & PROOF TYPE REGISTERS GAINS

Eisenhower Dollars Move Ahead Strongly; Early Washingtons Continue To Soar

The Market in Depth

ALLEN HARRIMAN

Teletype bid levels suddenly began to escalate this week for both BU and Proof type coins in the strictly MS-65 category. Widespread gains have been registered in all areas from copper-nickel and Indian head cents thru the various gold issues—with an emphasis on the “basic” silver types. Dealer stocks of choice material are, in general, exceedingly low—and they have been for quite a while. During recent months when choice type coins have been offered at auction dealers have had strong competition from collector/investors—with all but the strongest “ahead of the market” buyers going more or less empty-handed. Thus properly graded type material in the full MS-65 or MS-65+ range often have been bringing prices considerably in excess of the levels at which many dealers were willing to admit (on the teletype circuits) that they would pay. This week could well mark a change in all of this!

Take a look not only at the gold type coin chart on this page but also at the page four BU and Proof charts; these higher bids have resulted in decidedly minimal success and, from the present state of dealer stocks, it is almost certainly going to take even higher bids to pry loose from collector/investor hands the quantity of choice coins now desperately needed by virtually all dealers.

With another higher bid (now \$4650) for the complete roll set in force, the Eisenhower series has “taken off” in earnest! The 40% silver “blue” and “brown” issues are still pacing the action and, as a result of this week’s scramble by several anxious bidders, advances for all eight have been quite substantial. (The key 1973-S is up a strong \$10—with quantity bids at \$64.) The 1973-S, 1974-S and the elusive 1978-S clad proof rolls have also registered gains along with the somewhat overlooked 1976-P (I) roll. This latter roll, by the way, boasts a mintage of only about four million and it should be mentioned that approximately 1.9 million of these were included in the 1975 mint sets—leaving only about 2.1 million for “circulation”. (The mint set is bid at \$5.40 this week—obviously on the strength of the “type one” dollars which are included).

The thirty-two rolls in the complete 1971-78 Ike roll set are bid individually this week at a total \$4356; bid for the already assembled roll set has moved to \$4650. The “premium” of less than \$300—it was over \$500 last week—indicates that the roll bids are “catching up” to some extent with the roll set bid.

As most readers know, bidder interest in circulated examples of the scarce low mintage 1879-89 three-cent nickels (less the common date 1881) has been strongly evident for some time now. In addition, bidders have frequently asked for circ specimens of the 1877 and 1878 “proof only” issues. Bid level increases, however, have usually been quite nominal as potential buyers hoped to locate a few pieces at “reasonable” prices. But this week, in contrast, two teletype bidders have “jumped in” with considerably higher buying prices—new bids which, interestingly, have still resulted in very few coins changing hands. These new bids are as follow:

	Good	VG	Fine	VF	XF
1877	\$300	\$400	\$500	\$550	\$600
1878	150	175	200	230	250
1879	25	28	33	45	55
1880	31	36	41	51	61
1882	25	30	38	50	60
1883	50	60	70	80	90
1884	60	70	80	90	110
1885	75	85	100	120	135
1886	90	105	120	140	160
1887	70	80	90	100	115
1888	26	30	33	36	40
1889	33	37	42	48	54

This Week's Market

CENTS: Further small losses have been recorded for a number of Lincoln issues as most dealers continue to show little interest in the rolls listed for sale. An exception is the tough 1934-D—which is bid this week at a slightly higher \$625.

NICKELS: Prices are again thoroughly mixed across the Jefferson charts. The truly scarce 1939-S roll is still “impossible” at this week’s higher bid of \$525 and the wanted BU roll sets of wartime issues haven’t been located at the new bid of \$1550 (bid for the eleven rolls now totals \$1564). In the Buffalo series, the scarce 1936-S roll is higher at \$720 bid; both the 1937-P and 1938-D rolls are lower in the \$600-\$650 range.

DIMES: A couple of dealers are now listing several Mercury dime rolls for sale—priced mostly within current price ranges (usually closer to “ask”); buyers in this area are now somewhat cautious and thus most dates remain on selling lists. (An exception is the 1934-P roll which is now bid at a higher \$1500.) In contrast, plus signs abound across the Roosevelt chart—the key 1949-S roll leading the way with a record bid of \$1300. By the way, the total of the bids for the forty-eight individual rolls comes to \$6329 this week—the assembled roll set is still bid at only \$5700.

QUARTERS: The complete 1932-64 set of Washington quarters in strictly “no question” MS-65/better condition is now bid at an impressive \$4500! This record price, of course, is mostly a result of the rapidly escalating bids for the scarce pre-1941 mintmarked issues—see the page two chart for this week’s new levels! Advances (and a few small losses) are also quite liberally scattered across the page three roll chart as the Washington series remains among the most active.

HALVES: Further indications of a “stirring” among the relatively long dormant 1934-40 Walking Liberties are again evident on the tapes—with small gains noted for several issues this week (1934-D, 1936-PDS, 1937-P, 1938-P & 1939-S). Most of the activity in the Franklin series remains centered around the lower priced later issues; the 1956-P and 1959-D rolls are wanted in quantity at \$112 and \$91 respectively and the minimum bid for common dates (now limited to 1962 and 1963) is now \$66.

Small advances are scattered across the Kennedy rolls—with complete single sets changing hands for as much as \$130.

DOLLARS: Circulated bags of VG/better dollars are enjoying strong demand—with the volatile bids ranging from \$6400 to as much as \$6625! Several transactions have been recorded within this rather wide range as bidders continue to outnumber sellers. Minimum bid for pre-1921 BU rolls is again \$310 and the 1922/23-P rolls are now wanted in quantity at \$195. Advances for the MS-65 and MS-65 Prooflike singles are far to numerous to summarize here—take a thorough look at page six!

PROOF SETS and MINT SETS: The still elusive 1978-S set has reached \$20 bid and yet dealers are still having a tough time locating the quantities they need! Advances for other issues range from the 1941 and 1942 sets thru the later “variety sets”—with an emphasis this week on the 1961-64 issues. The 1970 and 1973 mint sets remain strong due to the “mint set only” coins included.

COMMEMORATIVES: The big news in this area concerns the much sought after eleven gold commems—the MS-65 column sporting eleven strong plus signs! Bid for the complete set (in top condition) has reached \$9750—with bids for the pieces separately now totalling \$9695. Considerable interest, by the way, is noted for defect-free XF/AU specimens—several at higher levels again this week. In the silver group, the BTW and W-C sets are appearing regularly on one quantity “want list”—all at slightly higher prices.

U.S. GOLD: (Prices are for the most common date of each type.) Bullion related gold coins in this issue are figured on a basis of gold at \$245.90 per ounce.

THE COIN DEALER NEWSLETTER

reports the national coin market on a weekly basis. Under the present system, it is impossible to monitor all transactions of offers to buy and sell, but the broad information sources of the Newsletter make it a very accurate reflection of the market.

INVESTORS NOTE: the prices in the Newsletter are from dealer-to-dealer transactions. As an investor, you may place your buy and sell orders through a dealer for a fee, as you would buy stock through a broker.

ADVERTISING RATES:

\$12.00 per column inch; four consecutive ads (no changes) - 10% discount.

Advertising space is limited; ads will be placed in first possible edition.

COMMEMORATIVES

MS-60 coins are "average UNC"—they may have bag marks or handling marks (but no wear) and may not have full luster; MS-65 coins are choice fully struck specimens without detracting marks—they may be brilliant or have original toning.

ROLLS STRONG AS TYPE GATHERS STEAM Bullion Related Material Advances In Line With Record Gold & Silver Prices

The Market in Depth

ALLEN HARRIMAN

Take a look at page four! Both the proof and uncirculated type coin charts are peppered with plus signs again this week as more hopeful bidders join in attempts to locate quantities of almost any properly graded issues. Dealers want MS-60 specimens as well as MS-65's--in fact, the MS-60 proof columns are now sporting a complete run of gains for every nickel and silver "type" listed! Thus far those who have this material in stock haven't seemed very impressed with advancing bid levels of the past two weeks--transactions have remained at a minimum and those few pieces on teletype selling lists almost invariably carry "next week's" price tags (or perhaps, next month's). The type coin area is obviously one to keep an eye on!

None of this activity in "type" seems to have diminished buyer interest in the BU roll market--prices continue to advance from a scattering of gains for the Lincolns thru the further gains registered by Morgan, Peace and Eisenhower dollars. At the moment, the Roosevelt and Washington series are perhaps at the forefront of this demand--with fewer issues being listed for sale and a more general interest noted. However, with the lone exception of the Lincolns, all of the series are enjoying bidding from several directions at once. The BU roll set chart (page five) reflects advances this week for the wartime Jefferson group, the almost totally unavailable 1934-45 Mercury dimes, the still elusive Roosevelt, the tough Washingtons and the still moving Eisenhower dollars.

Soaring silver bullion prices are directly affecting the late "common date" silver rolls. Just as some evidences of relative scarcity between the various date issues begin to become apparent, the minimum bid for any silver roll advances to new record highs--and, once again, nearly all of the late dates are bid at the same level. A period of calm in the bullion market tends to break up this "log jam"--pointing out which of the later dates are the most difficult to locate. (especially in quantity). There is no question that some dates in the 1959-64 group are far more scarce than others--but, as stated, while silver bullion continues to move forward at the current rapid pace, bid levels for these later rolls will almost certainly move together.

Please note that due to the volatility of the current market--and to our standard policy of up-to-the-minute price adjustments--prices for bullion-related material as well as several "common date" type coins are already higher than those reported in the enclosed February MONTHLY SUMMARY. Numerous anxious buyers have been raising many bid levels on a daily basis (or sometimes even more frequently)--hence the necessity of such last-minute changes. Last minute checks before making commitments are always strongly advised--particularly in the bullion-related areas!

This Week's Market

CENTS: Bid for both the Flying Eagle cent and the one-year-of-type 1859 Indian Head cent in strictly full MS-65 has moved to \$475 (up \$25). Neither of these coins is easy to locate in truly Choice condition--however,

MS-60/60+ examples are relatively plentiful and thus the nicest of these specimens are sometimes offered as "full 65's". One dealer is in the market for quantities of several Lincoln rolls in choice condition (which accounts for the gains); sellers of other dates have lowered a few prices. A few MS-65 1972/72 singles have changed hands this week at \$175.

NICKELS: Three-cent nickel pieces along with Shield and Liberty nickels are enjoying higher bids in uncirculated and proof condition--with the MS-60's and MS-65's in both categories sharing this week's plus signs. See page four for the important changes in these and other "type" denominations. The 1936-S Buffalo roll is higher at \$740 bid--the 1937-S is lower at \$740 ask. Prices are thoroughly mixed for the still very active Jefferson series; the BU roll set of wartime issues is wanted now at \$1575.

DIMES: Proof Seated Liberty half-dimes and Barber dimes are also now appearing on frequent teletype buying lists--with the often overlooked MS-60 column reflecting a complete run of advances this week; sellers are few and far between. The Roosevelt series remains popular with a number of bidders. This week's gainers include: 1946-D (\$95), 1947-D (\$250), 1948-S (\$245), 1949-P (\$640), 1950-S (\$850) and 1951-S (\$485). Bid for the complete 1946-64 BU roll set has moved to an as yet unsuccessful \$5900.

QUARTERS: Choice (MS-65) Barber quarters are now bid at a higher \$350 and F.H. "type 1" Standing Liberties are all now wanted at \$340. Needless to say, virtually all sellers of properly graded pieces remain on the sidelines. The "strictly AU" early Washingtons are finally receiving some attention--advances cover the entire page two 1932-40 group. Among the rolls, gains have been recorded this week for: 1939-P & 1940-P (both at \$560), 1942-D (\$700), 1945-S (\$375), 1946-D (\$355), 1946-S (\$275), 1950-S (\$285), 1951-D (\$125), 1951-S (\$580), 1952-S (\$325), 1953-S (\$265) and 1955-D (\$113).

HALVES: A few small advances have again been registered by some of the pre-1941 Walking Liberty singles. (The pervasive feeling is that potential buyers are hesitating to raise bid levels to any great extent--experience having taught that this tactic often keeps possible sellers in the "wait and see" mood.) Prices are extensively mixed across the Franklin series and the Kennedy series has recorded a few small increases--with at least one 1970-D roll being traded at a record \$500!

DOLLARS: As usual, the plus signs are quite liberally scattered across all of the dollar charts--from the MS-60's thru the MS-65 prooflikes and BU rolls. Again a thorough examination of page six is important! The "likes" are still on the move--with sales of the key 1973-S 40% silver proof noted at \$70 or so. The complete 1971-78 roll set is now wanted at an even \$5000; single set are in the \$265-\$285 range.

PROOF SETS and MINT SETS: The 1970-S "small date" proof set is still eluding bidders--at \$85 this week; nor are attempts to buy the 1978-S at a higher \$21 proving very successful! Small advances have been registered by a number of other issues--including the 1973 and 1975 mint sets (these sets, of course, include the 1973-P & D and 1976 (1) dollars).

COMMEMORATIVES: A few silver issues have slipped a bit lower in the face of current rather restricted bidding in this area; a few issues (Boone & Texas "types" and the Vermont) are slightly higher. Demand for the gold issues continues--but, again, bidders are keeping prices at recently established levels.

U.S. GOLD: (Prices are for the most common date of each type.) Bullion related gold coins in this issue are figured on a basis of gold at \$249.80 per ounce.

ROOSEVELT AND WASHINGTON ROLLS REACH NEW HEIGHTS Type Coins Register Further Gains; Scarce Circ Morgans Elude Bidders

The Market in Depth

ALLEN HARRIMAN

The BU roll market continues to soar and, at the same time, uncirculated and proof type coins are registering additional strong advances in active bidding. Needless to add, silver dollars in any grade are in great demand—and even the proof set market shows definite signs of awakening. Gold commems are "hot" and, once again, the silver commems are at least "warm" (those which can honestly be called MS-65 or better). Actually, it would be difficult to pinpoint any area of the market in which there is no interest at all—from circ Lincoln rolls to the 1978-S proof set!

Along with the continued phenomenal demand for top quality silver dollars, interest in circulated specimens remains strongly evident across the tletype circuits. Perhaps the single most elusive circ Morgan is the 1885-CC. Regular and frequent bidding by at least two dealers—coupled with scattered attempts by several others—seldom nets even one example. It is quite apparent that only a tiny percentage of the original mintage (228,000) reached general circulation and current ever-hopeful bidders will already pay considerably over the 1979 "Redbook" listings. Prices for this circ scarcity, however, have a definite upper limit due to the rather easy availability of BU specimens. One dealer recently remarked, that it seems easier to locate a roll of circ 1893-S's than just a couple circ 1885-CC's—only a lot more expensive! And one need only check the mintage figure for the 1894-P to understand why this issue is so elusive in circulated condition—only 110,000 pieces were minted for circulation. (This figure compares very interestingly with the 100,000 mintage of the key 1893-S.) The price of MS-60 and MS-65 examples indicates that the vast majority of this issue did reach circulation but even so this second lowest mintage date still remains one of the most sought after—and most elusive—of the circ Morgan dollars.

When the 1963 "Redbook" was published, the 1903-O Morgan was listed at \$400 in XF condition (along with the \$1500 unc listing). The Treasury's subsequent release of BU silver dollar bags, of course, included 1903-O's—which accounts for the 1964 "Redbook" price of a mere \$30 for uncirculated and \$15 for XF. The fact is, however, that circ specimens are as scarce as ever—again with the price level held down by the same BU ceiling that affects the 1885-CC. Those dealers who are presently willing to pay over the current "Redbook" prices are also finding that locating even one or two circ pieces can be quite a task. Other circ Morgans which continue to enjoy steady demand—and increasing bid levels—include 1893-P, the popular key 1893-S; 1893-O, 1895-O, 1895-S and, lately added to buying lists, all of the CC coins from 1878 thru 1893. Generally, quantities are wanted—but selling lists usually include only a few at best.

Readers will note that a number of Jefferson rolls are bid at higher prices. It should be stressed that only choice rolls are wanted at these advancing levels. Attention should be directed specifically to those Philly rolls which very often come in less than choice condition—particularly 1942-P (I) and the rolls from 1946 on. Cloudy, dark or streaked rolls will not "fill the bill". Naturally, this applies to all rolls—but these P-mint rolls (and to some extent the S-mints) often present more of a problem.

numerous issues are wanted (strictly choice only, of course). Top quality Indian proofs (MS-65/better) are now bid at a higher \$150—totally defect-free specimens and definitely few and far between.

NICKELS: Several further substantial increases for choice proofs have been monitored again this week—among them: Three-cent nickel pieces (\$265), Shield nickels (\$275) and Liberty nickels (\$200). The 1936-S Buffalo roll continues to stand out—with this week's bid moving to \$760. Numerous gains are scattered across the Jefferson chart—see page three.

DIMES: A few higher—and very impressive—bids for strictly MS-65 "full bands" Mercury singles have been noted this week: 1934-D (\$135), 1935-D (\$250), 1935-S (\$100), 1936-D (\$125), 1937-S (\$100), 1938-S (\$40), 1939-S (\$250) and 1945-Micro S (\$65).

Bid for the complete 1946-64 BU Roosevelt roll set has moved to \$6100—with plus signs once again covering the vast majority of the individual rolls. Still leading the way is the key 1949-S roll—at a record-setting \$1400—followed by the three semi-keys: 1949-P (\$665), 1950-S (\$860) and 1951-S (\$500). Total bid for the forty-eight separate rolls, by the way, is \$6693.

QUARTERS: Believe it or not, the Washington rolls are again enjoying another major round of advances—with gains recorded for thirty-two separate pre-1956 dates! The complete 1941-64 BU roll set is now unsuccessfully bid at an even \$19,000—with single sets in the \$475-\$510 range. (Beware of "sliders" in those occasional sets offered at "discount prices".) In "type", choice proof "with motto" Seated Liberty as well as Barber quarters are bid at a higher \$525.

HALVES: Small gains have been registered by the 1934-P & D, 1936-D & S and 1938-P single Walking Liberties—with very few available to current bidders. The W.L. rolls—along with most of the early Franklins—are firm at present levels. However, interest in the 1956-63 rolls is strong—with quantities needed by several dealers. Minimum bid for common date Franklins has edged to \$67.

DOLLARS: From VG/better circs to choice prooflikes and BU rolls advances are quite liberally scattered across the charts! Circulated bags are "hot"—with bids this week ranging from \$6750 to as much as \$6800 (a few have been listed for sale around \$6900). Numerous MS-65 Morgan singles—along with almost all of the Peace issues—remain elusive in spite of this week's new advanced bid levels. A few more gains have been recorded by the still active Eisenhower group.

PROOF SETS and MINT SETS: The 1970-S "small date" set has jumped \$25 (to \$110 bid)—and still sellers are few and far between. Bidders are numerous for many other proof sets in addition to several mint sets—see page six for this week's higher prices.

COMMEMORATIVES: Bid for the eleven-piece gold commem set (in MS-65 condition) is an even \$10,000 this week! Each of the individual coins is bid a higher level this week—and the total of the separate bids comes to \$9980. Several silver commems have moved a bit higher and sellers of choice MS-65's are difficult to locate.

This Week's Market

CENTS: Again a few plus signs are sprinkled across the Lincoln chart. Two or three bidders have now entered this area of the market and quantities of

U.S. GOLD: (Prices are for the most common date of each type.) Bullion related gold coins in this issue are figured on a basis of gold at \$250.70 per ounce.

THE COIN DEALER NEWSLETTER

reports the national coin market on a weekly basis. Under the present system, it is impossible to monitor all transactions of offers to buy and sell, but the broad information sources of the Newsletter make it a very accurate reflection of the market.

INVESTORS NOTE: the prices in the Newsletter are from dealer-to-dealer transactions. As an investor, you may place your buy and sell orders through a dealer for a fee, as you would buy stock through a broker.

ADVERTISING RATES:
\$12.00 per column inch; four consecutive ads
(no changes) - 10% discount.
Advertising space is limited; ads will be placed in
first possible edition.

COMMEMORATIVES

MS-60 coins are "average UNC"—they may have bag marks or handling marks (but no wear) and may not have full luster.
MS-65 coins are choice fully struck specimens without detracting marks—they may be brilliant or have original toning.

BIDDERS CROWD EXTREMELY ACTIVE TELETYPE CIRCUITS

Choice Proof Nickel Three-Cent Pieces Reach \$300 Bid—Quantities Are Wanted

The Market in Depth

ALLEN HARRIMAN

From silver commems thru late mint sets, the market continues to perk merrily along—with generally higher prices. The BU roll area (particularly the Roosevelts and Washingtons) is totally dominated by potential buyers—each trying to outbid the other in order to corner the quantities needed. The silver dollar market is extremely active—with anything from VG common dates to superb gem MS-65+'s wanted (again in quantity). Proof sets and mint sets are getting in on the act—and topping several recent new "want lists" are choice BU and proof type coins. Overall, the market has never been stronger and the available supply of most material has never seemed "thinner"!

Among those proof type coins which are enjoying recent strong attention—along with higher bid levels—are the nickel three-cent pieces. In fact, bid for choice specimens has moved from \$210 to this week's \$300 in less than a month—with only a minimum of sales noted as a result of this impressive 43% short-term increase. It should be added the large quantities are wanted at this record-setting level! Bidders, in general, do not specify any particular date when asking for these proofs; an exception was one dealer's recent (but already out-of-date) issue by issue "want list". Except for the known-scarce 1865, even this list placed at least equal emphasis on the 1879-89 issues—those dates which are particularly elusive in BU condition. However, when comparing the pre-1877 proofs with this later group (the 1877 and 1878 are "proof only"), an interesting fact comes to light! Though the "Redbook" does not list mintage figures for the earlier group (except 1873 at 1100), Scott's Comprehensive Catalog does list approximate figures for 1865 thru 1877. Most collectors and investors, therefore, are unaware that the pre-1878 mintage figures for proofs are considerably lower than those in the 1878-89 group.

Using Scott's figures, proof mintage figures for the entire series are as follow:

1865	400+	1878 (Pr. only)	2350
1866	725+	1879	3200
1867	625+	1880	3955
1868	600+	1881	3575
1869	600+	1882	3100
1870	1000+	1883	6609
1871	960+	1884	3942
1872	950+	1885	3790
1873 (Cl. 3 only)	1100+	1886	4290
1874	700+	1887/6	(?)
1875	700+	1887	2960
1876	1150+	1888	4582
1877 (Pr. only)	900+ (?)	1889	3336

It is also generally agreed that the "preservation rate" is probably somewhat higher for the overall low mintage late dates than for the earlier issues. At this point, however, the popularity of the low circulation mintage 1879-89 issues over-rides the actual scarcity of the 1866-76 proofs—placing such dates as 1868 and 1869 in the same category as, say, 1883—even though the ratio of coins minted is ten to one! (It is certainly not unheard of for late proofs to be offered as "gem BU" since the circulation strikes are scarcer than proofs.)

This Week's Market

CENTS: With two or three dealers now in the market for Lincoln rolls, one major bidder has stepped forward with numerous higher bids—covering

scattered issues from 1934 thru 1960-P (sm). As most always be stressed in this area, only choice, spot-free rolls are wanted. The 1972/72 has received bids this week as high as \$190—quantities are needed.

NICKELS: The 1936-S Buffalo roll continues to surge ahead with a new record bid of \$800; the always popular and usually very choice 1938-D roll has edged back to \$625. In the Jefferson series, advances overshadow the small occasional loss—with at least three strong bidders continuing to request from five or ten to as many as one hundred rolls of some issues. The complete BU roll set of wartime dates is now unsuccessfully bid at \$1600—see pages two and three for the many individual gains. In "type", the Shield nickel has moved to \$205 in MS-65 and \$300 in MS-65 proof condition!

DIMES: Bid for the forty-eight separate BU Roosevelt rolls totals \$6972 this week—no wonder this weeks higher bid of \$6250 for already assembled roll sets is completely ineffective! Advances are far too numerous to list here—with nearly every issue again sporting a plus sign (see page three)! In "type", gains cover virtually all of the Seated Liberty half-dime and dime issues along with the Barber dime; sellers remain very elusive as these bid levels move ahead.

QUARTERS: Those amazing Washingtons!!—from 1934 thru 1958 price records continue to fall as substantially higher bids become effective week after week. Thirty seven individual rolls have registered gains this week—and the complete 1941-64 BU roll set is bid at \$20,382 this week when figuring each roll separately! (Bid for the roll set as a group remains at \$19,000.) In "type", the "no motto" S.L. quarter is bid now at \$750, the 1854/55 "arrows" version at \$1150 and the Barber at \$360 (all in strict MS-65, of course).

HALVES: Bidders (and higher bids) are becoming more numerous for the 1934-38 Walking Liberty singles—with the tough 1938-D leading the way at \$625 (check page two). The 1941-47 rolls are firm—with noticeably more attention being directed toward the P-mints at the current \$650. The later Franklin rolls continue to dominate activity in this series as several bidders attempt to locate quantities—again at higher prices. Advances in "type" include: "no motto" S.L. halves at \$820, 1854/55 "arrows" at \$1225 and Barbers at \$640.

DOLLARS: Circ VG/better bags remain few and far between at \$6800 bid—and bid for numerous BU rolls has again edged forward (there are sellers, but price tags are generally kept just ahead of the advancing market). The MS-65 singles columns in both series are carrying a very impressive new and comprehensive run of plus signs—with potential buyers far outnumbering the scattered sellers (who also manage to keep price tags just ahead of most bid levels).

PROOF SETS and MINT SETS: The 1941 and 1942 sets have registered substantial gains at \$325 each—with the '42 six-piece set wanted at a record \$410. In addition, the 1955 set has surged forward—with quantities of the "flat pack" wanted at a strong \$28. In the mint set group, the 1967 (sms) is wanted at \$6, the 1970 is still moving at \$26, the 1973 is in demand at \$24 and the 1975 is bid at \$6 (on the strength of the 1976-P "type one" Ike dollar).

COMMEMORATIVES: Several advances have been noted for the silver issues as more bidders turn their attention toward this area of the market. Most of those dealers who need the gold issues are simply asking for "quotes" rather than disturb current bid levels; choice specimens are currently seldom encountered on the teletype circuits.

U.S. GOLD: (Prices are for the most common date of each type.) Bullion related gold coins in this issue are figured on a basis of gold at \$241.00 per ounce.

THE COIN DEALER NEWSLETTER

reports the national coin market on a weekly basis. Under the present system, it is impossible to monitor all transactions of offers to buy and sell, but the broad information sources of the Newsletter make it a very accurate reflection of the market.

INVESTORS NOTE: the prices in the Newsletter are from dealer-to-dealer transactions. As an investor, you may place your buy and sell orders through a dealer for a fee, as you would buy stock through a broker.

ADVERTISING RATES:

\$12.00 per column inch; four consecutive ads (no changes) - 10% discount.

Advertising space is limited; ads will be placed in first possible edition.

TYPE COINS ADVANCE; BU ROLLS ARE STILL "HOT" Bidders Unsuccessfully Seek Quantities Of "Original" 1947-58 Mint Sets

The Market in Depth

ALLEN HARRIMAN

Again it would be difficult to pinpoint the week's most active segment of the market. The still extremely strong BU roll market has suddenly seen a complete run of plus signs for Lincolns from 1934 thru 1958 (!)--added to further extensive increases for the Jeffersons, Roosevelts, Washingtons and Franklins. In addition, some of the earlier issues--Buffalo and Mercury rolls (a few minus signs for the Mercs also in long-expected profit-taking) along with virtually all of the pre-1941 Washington and many of the pre-1941 Walking Liberty singles--are advancing rapidly. The gold commems are "hot" and the silver commems are warm. Type material--choice BU's and proofs--are also strongly on the move as several bidders are now joining the buying parade. As mentioned last week, the supply of available coins is extremely thin and demand has never been greater!

A considerable amount of bidding time has been devoted during recent weeks to attempts to locate quantities of original early mint sets (1947-58). The word "original" is stressed in the various teletype messages--since potential buyers do not want sets which have simply been assembled by dealers from store stock or other sources. These early sets were "double sets" (two of each coin minted in the particular year concerned) and there were packaged by the Treasury Department in cardboard holders covered by a paper flap. It is relatively easy to tell if a set is "original" by the toning acquired by the coins in sets left undisturbed over the years. First, the toning is virtually always rather substantial due to the type of paper used--unless, of course, the coins have been removed and "dipped" somewhere along the way. Current bidders are generally looking for the normally toned examples. Second, the toning of the coins in each "original" set is matched (particularly on the silver coins) since the reaction of the sulphur content in the paper along with storage considerations are identical.

Figures for the number of mint sets sold by the Treasury are not listed in the "Redbook". Thus, many collectors (and dealers, as well) are unaware that, prior to 1959, the number of sets issued are quite small. The following are the official figures:

1947	12,600	1954	25,599
1948	17,000	1955	49,656
1949	20,739	1956	45,475
1951	8,654	1957	34,324
1952	11,499	1958	50,314
1953	15,538		

No sets were issued in 1950. Those seen--along with the occasional 1946--are "put together" as stated at the beginning of the page six price chart.

It is very interesting to note that, in spite of the small number of sets issued--and in spite of the fact that current bidders want only choice "original" sets--present bid levels are all a bit lower than the prorated roll prices for coins included! And, somewhat surprisingly, dealers do manage to buy an occasional set or two at these levels (which, by the way, have edged forward slightly this week).

The 1959-64 mint sets, of course--as well as those which came after the 1965-67 "special mint set" issues--are "single sets" (only one of each coin minted) packaged in the familiar polyethylene packets. The number of sets issues increased dramatically in 1959 (to 187,000) and the following years saw as many as 2.7 million sets issued (1972). Bid also remains just below the prorated roll value of the individual coins for the 1959-64 sets.

This Week's Market

CENTS: A complete run of plus signs has been registered by the 1934-58 Lincolns! Three or four major buyers have now added this long dormant series to the "active" group--obviously tiring of looking for below-market bargains. (Bargain priced Lincoln rolls are usually of inferior quality.) The 1972/72 double die is now wanted in quantity at \$200.

NICKELS: Except for scattered dates (1946-S, 1947-S, 1951-D, 1952-D), the Jeffersons continue their forward march--with bidders usually asking for quantities of the issues they need. The 1939-S roll, in particular, is still very elusive at this week's new bid of \$600. In "type", plus signs abound for three-cent pieces thru half-dimes--see page four!

DIMES: One or two sellers of choice original Mercury rolls are now being encountered on the teletype circuits; price tags are generally around "ask"--but a few have slipped a bit lower. There appears to be no stopping the Roosevelts! Led by the key 1949-S roll at an impressive and record-setting \$1600 bid, prices continue to soar across the entire series. The complete 1946-64 BU roll set is still unavailable at the higher bid of \$6350. Again, "type" in this area is on the move--check page four for the activity in dimes as well as all other denominations.

QUARTERS: Another strong round of gains has been registered by the early Washington singles--with the very elusive 1932-D bid at \$1600, the 1932-S at \$525, the 1936-D at \$500 and others following proportionately (all in strict MS-65, of course). Washington roll increases from 1934 thru the late common dates again cover virtually all issues--with the 1941-64 rolls bid now at a total of \$20,729 when figured individually! (Bid for a complete and choice 1932-64 single set has moved to an unsuccessful \$4650!)

HALVES: Led by a \$650 for the 1938-D half in full MS-65 condition, several of the pre-1941 Walking Liberty singles continue to move ahead. Buyers move bids a bit higher each week in their attempts to locate from "one to twenty" of each; sales, however, have remained limited at best! Plus signs also dominate the Franklin chart as many of the earlier issues join the later dates on buying lists. As usual, bidders request quantities--and, also as usual, potential sellers generally have a "wait and see" attitude. After all, why sell when prices are advancing so rapidly week after week?

DOLLARS: Advances for the tough Morgans in strict MS-65/better condition continue to be quite phenomenal! Among the many impressive bids this week are: 1884-S (\$7500), 1886-O (\$2300), 1889-CC (\$7600), 1891-O (\$650), 1893-O (\$3000), 1894-P (\$2400), 1894-O (\$4100), 1895-O (\$8000), 1896-O (\$2500), 1897-O (\$1850), 1901-P (\$4700), 1903-S (\$3000) and 1904-S (\$1500). The Peace dollars are following just as strongly--see page six! Circ VG/better bags, by the way, are still receiving bids in the \$6800 area in spite of lower silver bullion prices.

PROOF SETS and MINT SETS: The 1936-39 proof sets have enjoyed a new round of gains after a "rest" of several weeks; the 1950-53 sets are now wanted in quantity at higher prices and gains are again liberally scattered across the later issues (including the "variety" issues). Mint sets are also in demand--with prices edging forward (see "The Market in Depth").

COMMEMORATIVES: This week's bid of \$10,250 for "several" MS-65 gold commem sets isn't proving very effective; gains for the individual coins are nearly complete in both the MS-60 and MS-65 columns. More dealers are bidding for silver commems and again prices have been edged higher for scattered issues. Quantities are wanted and it appears that hopeful bidders would like to get them without disturbing present bid levels too drastically!

U.S. GOLD: (Prices are for the most common date of each type.) Bullion related gold coins in this issue are figured on a basis of gold at \$239.30 per ounce.

THE COIN DEALER NEWSLETTER

reports the national coin market on a weekly basis. Under the present system, it is impossible to monitor all transactions of offers to buy and sell, but the broad information sources of the Newsletter make it a very accurate reflection of the market.

INVESTORS NOTE: the prices in the Newsletter are from dealer to dealer transactions. As an investor, you may place your buy and sell orders through a dealer for a fee, as you would buy stock through a broker.

ADVERTISING RATES:

\$1200 per column inch; four consecutive ads
(no changes) - 10% discount
Advertising space is limited; ads will be placed in first possible edition.

MS-65 SILVER DOLLARS SOAR! Gold Commems Reach Record Heights—Sellers Remain Elusive

The Market in Depth

ALLEN HARRIMAN

And the current phenomenal market continues! From the ever-soaring BU rolls thru the silver and gold commems—from strictly choice type coins thru the “out of sight” MS-65 Morgan and Peace dollars—and virtually everywhere in between—bidders continue to crowd the teletype circuits and prices continue to advance across a broad and comprehensive front! Bidders outnumber sellers at least five to one!

Without any particular fanfare, the eleven gold commems have been registering very substantial gains during the past several months. In fact, advances have been so steady and orderly that many of those not directly involved with this beautiful short run of coins many not be aware of just how substantial the gains made during the past year really are. The following chart should prove very interesting:

	Bid Mar. '78	Current Bid	% Increase
La Pur/Jefferson	\$ 280	\$ 535	91%
La Pur/McKinley	280	535	91%
'04 Lewis & Clark	900	1700	89%
'05 Lewis & Clark	900	1700	89%
Pan-Pacific \$1.00	250	635	154%
Pan-Pacific \$2½	1100	1900	73%
'16 McKinley	310	530	71%
'17 McKinley	310	620	100%
Grant	715	1200	68%
Grant (with star)	715	1200	68%
Sesquicentennial \$2½	200	305	53%
Totals	\$5,960	\$10,860	= 82%

Current bidders are even more anxious to buy than were the bidders a year or so ago—and, naturally, sellers are now much difficult to locate. It is now not uncommon to monitor teletype buying attempts which simply state that the potential buyer will pay “well over bid” for strictly MS-65 specimens and, often, an additional “premium” is offered for complete sets in the same condition. (Such top quality sets have changed hands between dealers at recent shows for prices in excess of \$12,000.)

Mintage figures for these little gold beauties are tiny by most standards. Subtract from that, the number of circulated and MS-60 pieces extant, and it is obvious that the total quantity of MS-65/better examples available could number only in the hundreds! The large mintage coin in this group is the Sesqui \$2½ at 46,019; the lowest mintages are for the Grant (5,000), Grant star (5,016) and the Pan-Pac \$2½ (6,749)—with the remainder ranging from a mere 10,000 to 17,500!

In another area, the 1970 mint set also has been registering steady gains during recent months—with this week's bid pegged at \$26.50. Interest in this set, of course, is solely due to the “mint set only” 1970-D half dollar which included. This “key” of the Kennedy set boasts a mintage of only 2,150,000 and, for roll quantities, bid has now moved to \$515. An interesting comparison can be made between the 1970 and 1973 mint sets. The 1973 version contains the other two “mint set only” coins—the 1973-P and 1973-D Eisenhower dollars. Mintage figures for these two like “keys” are even smaller than for the 1970-D half; only 1,769,258 sets were sold (the remainder of the mintage having been destroyed at the mint—see page 159 of the Redbook). Bid for the '73 mint set has moved to \$25 in recent days and, of course, buyers get “two for one” with the dollar coins. Bid for the 73-P and 73-D Ike rolls has moved to \$240 this week—still less than half that of the higher mintage 70-D Kennedy!

This Week's Market

CENTS: Again this week bid levels have advanced for every Lincoln roll from 1934 thru 1960. Most of these gains are the result of one comprehensive buying list—but there are several other bidders who are interested in a number of specific dates. Could this be the start of something big?

NICKELS: Led by a very impressive bid of \$110 for the 1942-P (1) roll, numerous Jefferson issues continue to move ahead strongly. It should be pointed out that—except for the wartime issues—interest in this series seems to be more or less limited to just one or two major buyers. The 1942-45 silver rolls, on the other hand, are currently being sought by numerous dealers—with the eleven individual rolls now bid at a total of \$1661. The 1936-S Buffalo roll, by the way, has now moved to \$880 bid—with virtually no sellers in sight!

DIMES: Except for three minus signs (38-P, 39-D & 45-S), the Mercuries appear to have perked up a bit—see pages two and three. For the Roosevelts there is no question! With another record-setting bid for the key 1949-S roll (\$1750), this series continues to soar to new heights! Bid for the completed 1946-64 BU roll set is now \$6700—but the forty-eight rolls are bid at \$7599 when figured separately!

In “type”, half-dimes and dimes in strict MS-65 condition continue to register steady increases. Very, very little properly graded material is being located. Check page four for these and other important gains in this “awakening giant” type coin segment of the market!

QUARTERS: Without even the hint of a “breather”, the Washington series continues to forge steadily ahead. The 1934-40 P-mint rolls are proving to be more elusive than might have been expected and the 1941-64 BU roll set has reached an even \$20,000 bid! The complete 1932-64 single set, by the way, is nearly impossible to locate at this week's higher bid of \$4750. (Beware of “bargain priced” sets!)

HALVES: One dealer is now regularly offering “\$19,000 or quote” for a choice 1941-47 BU roll set of Walking Liberties; none have been located. The 1934-39 mintmarked singles continue to move higher—and, as usual in this advancing market, possible sellers remain mostly on the sidelines.

Plus signs are well represented across the Franklin chart—with large quantities of the later “common” issues still wanted by several bidders.

DOLLARS: Another truly phenomenal round of gains has been recorded for MS-65 Morgan and Peace dollars! Anxious teletype bidders continue to tumble over one another in their attempts to buy—but, it should be stressed, proper grading is all important and, at these levels, buyers are extremely “fussy”.

PROOF SETS and MINT SETS: With the common “silver proof sets” (1961-63) reaching \$6 bid, the late sets continue to edge forward in quantity bidding. One bidder, by the way, is offering \$8.75 or a bit more for truly “choice” 1957 sets—and apparently many of this issue do not fall into this category.

COMMEMORATIVES: Plus signs continue to multiply for the silver commems as bidders far outnumber sellers. “Quality” is becoming more and more important in this area as bidders seek top grade material for their clients. For comments on the gold series, see “The Market in Depth”.

U.S. GOLD: (Prices are for the most common date of each type.) Bullion related gold coins in this issue are figured on a basis of gold at \$242.50 per ounce.

THE COIN DEALER NEWSLETTER

reports the national coin market on a weekly basis. Under the present system, it is impossible to monitor all transactions of offers to buy and sell, but the broad information sources of the Newsletter make it a very accurate reflection of the market.

INVESTORS NOTE the prices in the Newsletter are from dealer to dealer transactions. As an investor, you may place your buy and sell orders through a dealer for a fee, as you would buy stock through a broker.

ADVERTISING RATES.

\$12.00 per column inch; four consecutive ads (no changes) - 10% discount.

Advertising space is limited; ads will be placed in first possible edition.

ANXIOUS BIDDERS CONTINUE TO CROWD TELETYPE CIRCUITS

Early Washington And Walking Liberty Singles Appear On Numerous "Want Lists"

The Market in Depth

ALLEN HARRIMAN

Type coins have scored another major round of gains--the most extensive, as a matter of fact, in a long long time! And it should come as no surprise that bidders are still going more or less empty-handed in spite of these higher bid levels--with only an occasional example of one of the more plentiful "types" changing hands. These advances, of course, are confined to the MS-65 column and it cannot be too often stressed that only top quality coins will be accepted at these prices. Hopeful sellers may anticipate that MS-60 or MS-60+ specimens will "stick"--but they will not! Today's dealers know the difference almost without exception--even though all collector/investors may not.

Bid levels for the 1934-40 Walking Liberty halves have been recording steady and orderly increases for the past several weeks. The "key" 1938-D is leading the pack with this week's record-breaking bid of \$660; however, numerous other issues are now vying for the spotlight. There are very few sellers in sight! Naturally, at current levels, potential buyers want sharply struck and strictly MS-65 specimens--and, with a few exclusions, the issues in this group can generally be located in choice condition.

Without exception the various P-mints are well struck and present no real problem to bidders--no problem, that is, except finding a seller! In addition, from 1935 thru 1939, the S-mints are also usually fully struck and thus available with "full head and hand". In this pre-1941 group it is only the 1940-S which is extremely elusive in even moderately well struck condition and, it should be noted, that a specimen with both a completely full head and hand is a rarity indeed (although pieces with one or the other are seen occasionally). The present bid of \$750 is for "typical" rolls (i.e. weak); bid for nicely struck MS-65 examples is now listed at \$175 in the most recent MONTHLY SUMMARY issue. Gem full strikes (at the head and hand area) are another story--and it would take the actual sale of such a rare example to determine an approximate price range.

The D-mints run just opposite to the San Francisco pieces--with the weaker strikes coming early and the better strikes later in the 1934-40 group. From 1937 on, buyers will have no trouble finding sharply struck coins. However, both the 1934-D and 1936-D are generally rather indifferently struck and the majority of even the most brilliant original MS-65 specimens will not carry full detail in either the head or hand area. The very seldom seen 34-D or 36-D with a gem full strike is certainly worth a premium. However, the 1935-D is the real problem coin for anyone who not only wants an MS-65 example but who wants one with a completely full head and hand. As a matter of fact, he may never locate such a piece! In his analysis of the Walking Liberty series (November, 1977) Mr. J.B. Pryor states that, in his many years of examination and searching he has never seen a 35-D that was fully struck! Those teletype dealers who are asking for "full strikes only" on the 1934-D, 1935-D, 1936-D and 1940-S actually should have little expectation in obtaining such ultimate quality pieces!

Along with the Walking Liberties in the 30's, the Washingtons from the same years are also enjoying continued strong demand. After several major surges in bid levels for the entire 1932-40 group during recent weeks, bidders seem to be trying the tactic of not increasing bids (at least for the moment). As has been stated in other instances, it is often more difficult to buy when prices advance each week--with potential sellers waiting to see just how high they will go.

This Week's Market

CENTS: Lincoln rolls are definitely on the move after long years of having been out of favor. Again every "wheat back" issue from 1934 thru 1958 has registered an advance--with "choice rolls only" the accompanying buying list stipulation. Locating the 1972/72 double die at \$200 (in MS-65 condition) isn't an easy task for current bidders.

NICKELS: Several gains have been noted for the Buffalo rolls this week. Led by the rapidly advancing 1936-S (now \$920), the 1934-P, 1935-D & S and 1936-D issues are all higher this week; few if any have been listed for sale. A few Jeffersons continue to move ahead--with the 1942-P (I) breaking records at \$130 bid and the 1951-S wanted in quantity at \$135 (up \$15). Check page three for additional changes.

DIMES: Quite a number of Mercury dime rolls are a bit lower as a result of some not unexpected profit taking. Affected mostly are the 1941-45 P-mints--but also on current selling lists are 1939-P, 1941-S, 1942-D and 1945-D & S. Although plus signs are not as numerous as last week, the Roosevelt series continues to chalk up further impressive advances. The key 1949-S roll has changed hands at a record-setting \$1800 and the 1950-S was traded as high as \$960 during the week. Several buyers remain interested in the 1951-P & D as well as the 1953-55 rolls--quantities of these lower priced issues are wanted.

QUARTERS: Incredible as it may seem, the Washingtons continue to surge ahead. The earlier P-mint rolls (1934-42) are all higher again this week--along with numerous rolls in the 1944-58 group. Among this week's top gainers are: 1942-P (sales at \$305), 1946-D (bid now at \$540), 1951-S (sales at \$700), 1951-D (sales at \$210) and 1953-S (bid now at \$400).

In "type", the following issues are all but unobtainable (in MS-65 condition) at these new higher bids:

Seated Liberty (no motto) \$850
Seated Liberty (arrows & rays) \$2500
Seated Liberty (with motto) \$580
Barber \$390
Standing Liberty - II (full head) \$340

See page four for other extensive changes!

HALVES: The 1934-40 Walking Liberties are on the move--see "The Market in Depth". Bid has now moved to \$19,500 for the complete 1941-47 BU roll set--this is well over the \$18,575 being offered for the twenty rolls individually! In the Franklin series scattered issues have again edged forward. Among the earlier dates wanted are 1948-P & D, 1950-P, 1951-D & S, 1953-P & S and 1954-S. All of the 1956-63 rolls remain on quantity "want lists"--mostly at last week's levels.

DOLLARS: The majority of those dates still frequently traded by the roll have recorded advances this week--as usual, bidders request quantities but seldom locate them. Further plus signs are quite thoroughly scattered across the MS-65 and MS-65 prooflike Morgan columns and, in addition, a virtually complete run of gains has again been registered by the "hot" MS-65 Peace dollars! See page six.

PROOF SETS and MINT SETS: Interest in quantities of the later proof sets (1959 to date) remains evident across the various teletype circuits. Numerous transactions have been noted--but many sellers manage to keep price tags just ahead of advancing bid levels. The popular 1970 and 1973 mint sets are both higher this week on the strength of the three "mint set only" coins contained.

COMMEMORATIVES: More and more bidding is being monitored for the silver commems--with several dealers moving their bid levels higher this week. Very few choice pieces are being listed for sale. This week's new bid of an even \$11,000 for complete (and choice) gold commems is still totally ineffective. The eleven individual issues remain at last week's levels simply because bidders are asking for quotes rather than raising their bids!

U.S. GOLD: (Prices are for the most common date of each type.) Bullion related gold coins in this issue are figured on a basis of gold at \$242.20 per ounce.

MARKET STILL SOARING "ACROSS THE BOARD"

Gold "Type" Registers Further Advances—Continues To Elude Hopeful Bidders!

The Market in Depth

ALLEN HARRIMAN

Nothing much has changed across the market this week—nothing much, that is, except PRICES! Again from the "common" late issues thru the toughest type coins, bid levels have advanced across a broad front as buyers continue to outnumber sellers by a very wide margin. There simply isn't enough material available to satisfy the current phenomenal demand.

During recent months gold "type" has been registering steady and orderly gains. Sales have remained severely limited in spite of week-after-week gains in both the MS-60 and MS-65 categories—and this week's new levels are no exception. Actually, it seems that no matter what a dealer is willing to pay, virtually no coins are offered to him. Even those who resort to asking for a "quote" seldom receive an answer to their teletype messages. At recent coin shows, of course, gold coins have been on the minds of most dealers—and the prices at which properly graded specimens have changed hands between dealers are still well in excess of current advancing bid-ask ranges!

Another area of recent orderly advances is the silver commemoratives. After a brief flurry of slightly lower prices several weeks back, serious bidders began somewhat selective attempts to locate quantities of their favorite issues. These attempts netted a rather limited number of coins at the outset, but the supply "dried up" quickly—and now hopeful bidders are finding that buying even a few (again, properly graded) specimens takes a tremendous amount of searching. At this point there are no comprehensive buying lists covering the entire silver commem lineup. As mentioned, specific commems are being singled out by the various interested dealers and current gains are being more or less limited to these several issues. Among them are the Isabella quarter, of course—along with the Alabama 2x2, Albany, Antietam, Bay Bridge, Bridgeport and California. In addition, dealers (and, obviously, investors) want quantities of the Delaware, Gettysburg, New Rochelle, Robinson, the two San Diegos, Spanish Trail, Stone Mountain, Vermont, Wisconsin and York issues. Also in demand are the four "type" issues—Arkansas, Boone, Oregon Trail and Texas. Selling lists are currently all but non-existent!

Recent interest in the 1967 "special mint set" has rather suddenly pushed bid to this week's record \$6.50—with quantities wanted and most of the current bidders going empty-handed. Not long ago, ask for this set was a mere \$3.50 or so—and very few dealers or investors could be enticed into buying more than an occasional small lot. In fact, an approximate \$3.25-\$3.50 bid-ask range was in effect for years without much interest being shown. However, the assembling of Kennedy half dollar sets and, particularly, roll sets, necessitated the locating of the "lowly" 1967 s.m.s. in quantity—and it is now apparent that the total mintage of 1,863,344 is rather widely distributed. There are also other "uses" for this set (along with the 1965 and 1966 versions); proof set collectors often include these sets in their collections since there is nothing else available from these years—and mint set collectors, of course, include these "special" issues in their holdings. Demand from these three "angles" has now gone quite a way toward drying up the floating supply. Although the mintages aren't especially low, they are substantially lower than those for the proof sets of the surrounding years. (Mintage of the 1965 set is 2,360,000 and of the 1966 is 2,261,583.)

most holders of these rolls are enjoying the action from the sidelines. Thus far, in this first real flurry of activity in this series for years, transactions have been very limited. The 1972/72 double die, by the way, is now receiving bids of \$220 (in MS-65 condition, of course).

NICKELS: Even though the bid level is advancing steadily week after week, few if any choice rolls of 1936-S buffalos have been located (bid is an impressive \$960 this week). Interest in all of the other "short set" rolls (1934-38) is strongly evident—but most potential buyers hesitate to disturb current price ranges.

Plus signs dominate the Jefferson chart again this week. Bid for the complete 1938-64 BU roll set has suddenly jumped to \$6400—with none offered; the separate BU roll set of wartime issues (1942-45) is also on several teletype "want lists" at a higher \$1700. Check pages two and three for the individual gainers.

DIMES: The key 1949-S Roosevelt roll is now wanted in quantity at a record-breaking \$1950! Led by this bid, the 1946-64 BU roll set has moved to \$7500 bid—with the one or two being offered tagged with prices still well ahead of this new level. Choice proof Mercury dimes are being sought in quantity—but this week's higher \$100 bid seems quite ineffective.

QUARTERS: Another strong round of gains has been registered by the pre-1941 Washingtons—with both the MS-60 and MS-65 columns reporting a virtually complete run of plus signs. With the extremely scarce 1932-D (MS-65) leading the way at \$1750 bid, the complete 1932-64 single set is now bid at an even \$5000! In the later group, the 1942-S single is very elusive at \$78 bid—and numerous individual rolls are still forging bravely ahead.

HALVES: Again a number of the pre-1941 Walking Liberty singles have recorded further substantial advances—with several teletype dealers interested in locating "quantities" before bid levels go higher. This will be a difficult task, since sellers are quite few and far between. Those dates which are very scarce to rare in MS-65 "full head and hand" condition (1934-D, 1935-D, 1936-D, 1940-S) are enjoying "premium" bids in this ultimate condition. (See last week's "The Market in Depth" column.) Although bid levels are unchanged, increased attention is being directed toward the 1941-47 rolls. The MS-65 proof Walking Liberty seems "impossible" at this week's higher bid of \$200.

Advances again cover a major share of the Franklin rolls—with quantities of the later issues still on the minds of numerous bidders. The 1948-63 BU roll set has advanced to \$9400 bid (up \$200)—with none available. Bid for common dates has moved to an all-time high of \$70.

DOLLARS: Simply keeping up with bid levels for silver dollars is a monumental task! From the advances in "circ" thru the MS-60 and MS-65 columns—not to mention the MS-65 prooflikes—gains this week continue to be numerous, substantial and widespread. Bidders crowd the tapes—each keeping an eye on the what the others are offering to pay. Sellers, on the other hand, seldom appear—particularly sellers of choice material. Price hikes are far too numerous to list here—see pages five and six!

PROOF SETS and MINT SETS: The 1936-39 group is apparently "on the move" again—with higher bids recorded for these four tough (in strictly choice condition) sets. Several gains have been noted for the later issues—including the S-less issues. Led by demand for the 1970 and 1973 issues, mint set advances are also rather numerous this week.

COMMEMORATIVES: Once again a major surge has been recorded by the MS-65 gold commems. Bid for the eleven separate issues now totals \$11,355; very few pieces in any grade are being listed for sale. Higher bid levels continue to be registered by numerous silver issues—with practically no sellers in sight!

This Week's Market

CENTS: At least three major bidders are now in the market for quantities of choice 1934-58 Lincoln rolls. Each is attempting to top the others' bids—while

GOLD TYPE COINS FAIL TO APPEAR AS BID LEVELS ESCALATE Phenomenal "Sellers Market" Continues; Luckless Bidders Crowd Teletype Circuits

The Market in Depth

ALLEN HARRIMAN

Choice gold type coins continue to elude virtually all potential buyers in spite of recent sharp increases in teletype bid levels. As was mentioned last week, those fortunate dealers who have a few properly graded strictly MS-65 specimens in stock have little or no trouble in selling to eager collectors and investors at prices which are well in advance of even today's rapidly escalating bid levels--and current phenomenal demand certainly far exceeds the extremely limited supply. Grading, of course, is all important. One knowledgeable dealer recently stated that an alarmingly high percentage of the gold coins now being offered for sale are overgraded by at least half a grade and that truly MS-65 or better pieces are actually extremely few and far between.

The following chart gives some interesting comparisons for this recently awakened area--contrasting MS-65 bid levels at the beginning of 1977 with those at the beginning of 1978 and 1979--and, in addition, with this week's levels. The strides made in the few short weeks since the first of this year are definitely impressive--and in all likelihood the attention being directed to this area will continue for some time to come.

Don't let this week's reduced number of plus signs on the BU and Proof type coin charts fool you! Demand is certainly as strong as ever. Perhaps some of the current bidders have recognized that increasing bid levels week after week results in more of a "wait and see" attitude on the part of possible sellers than it does in actual transactions. "Off the record" telephone confirmations often filter through the "grapevine" and in numerous instances buyers pay more than they are willing to admit on the teletype circuits. And at auction, of course, strictly graded choice coins usually bring "ask" or more and gems often bring runaway prices. Strictly is the key word here, naturally--catalog descriptions do not always agree with the strict grading standards of many serious collectors or investors (or dealers, for that matter) who are bidding in the auction. A surprisingly low "price realized" for a coin described as choice or gem could well indicate "optimistic" grading in the catalog!

This Week's Market

CENTS: Although price hikes have been considerably more selective this week, buying pressure in the Lincoln series remains strongly evident. Several dealers are now getting in on the act--most of them directing their attention to

"favorite dates" which they want in large quantities. Thus far, nearly all of the potential sellers are still unheard from in this first major upswing for this series in recent history.

NICKELS: Plus signs dominate the Jefferson chart--with numerous dates wanted in quantity. Leading the way is the still soaring 1942-P (I) roll at a very impressive \$160 bid (a few sales noted at this level); following closely is the scarce 1951-S at \$165 bid (also traded at this price). A few dates are a bit lower in profit-taking after recent rises--1946-S, 1952-S, 1953-P & S and 1954-S. The complete 1938-64 BU roll set is up another \$400 this week at \$6800 bid--with choice single sets now listed in the \$170-\$185 range. The wartime 1942 Jefferson proof in choice condition is now wanted at a higher \$90.

DIMES: Activity in the Mercury series remains in the light to moderate category--with advances noted for the scarce 1938-S, 1939-S and 1944-S rolls and small losses being registered by the 1939-P & D issues. Recent bids for strictly choice "full bands" singles include both the 1935-S and 1937-S at \$130 each, the really tough 1939-S at \$300 and the truly rare 1945-P at \$525! (The entire series will be covered in next week's April issue of the MONTHLY SUMMARY.) The Merc proof in choice condition is wanted at a higher \$110.

The very elusive 1949-P roll is now vying for the Roosevelt spotlight with a \$50 jump to \$815 bid this week. The "king" 1949-S roll, however, is still "champ" at this week's record bid of \$2100! The 1946-64 BU roll set is now wanted at \$7800. Other roll advances are numerous in this still very active series--see page three.

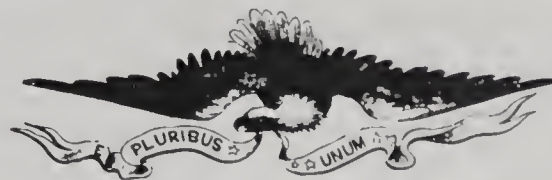

QUARTERS: Frequent offers of a higher \$1800 each for "several" 1932-D quarters in strictly MS-65 condition are, thus far, totally ineffective. In addition, another week of bidding for the remainder of the pre-1941 singles at last week's advanced levels has netted very few coins. Bid for the individual rolls in the complete 1941-64 BU roll set now totals \$21,872 (even though an even \$20,000 remains the bid level for the already assembled roll set). Roll advances are again quite numerous as several teletype bidders continue to concentrate on this series.

HALVES: The Walking Liberty series is receiving more and more attention. At this point, however, those wanting 1941-47 rolls and singles are apparently hoping to locate at or near bid levels and thus are leaving current price levels undisturbed. The W.L. proof in choice condition is higher again this week at \$220 bid. The Franklin series, on the other hand, has enjoyed a substantial round of gains this week--with most dates from 1948 thru 1963 participating. Bidders want from "one to three" of the more high powered rolls and "quantities" of the lower priced dates in the 1954-63 group.

DOLLARS: Take a look at the page six charts! Incredible as it may seem, bid levels have once again soared to record heights for virtually all of the Morgans and for a majority of the Peace dollars. Bidders attempt to top each other's offering prices on an almost daily basis--and sellers are all but non-existent.

PROOF SET and MINT SETS: All of the 1936-42 sets have moved ahead this week--with the very scarce 1936 bid now at an even \$3000, the tough 1937 at \$1800 and the 1938 and 1939 issues at \$750 and \$670 respectively. In the later group, the 1956 seems particularly elusive at this week's higher bid of \$13.25 (one dealer offered \$14 per for a fifty set lot). The 1973 mint set is now catching up with the 1970 issue with a new bid of \$27.50; quantities are wanted due to the "mint set only" P & D like dollars which are included. (These two dollars rolls are also higher at \$260 bid.)

COMMEMORATIVES: Bids of a record-setting \$12,000 for complete choice sets of the gold commems aren't yet producing the desired results--this bid, by the way, is considerably over the \$11,380 being offered for the eleven coins individually. Gains are again scattered across the silver commem chart--with the number of bidders on the increase and with practically no sellers in sight.

U.S. GOLD: (Prices are for the most common date of each type.) Bullion related gold coins in this issue are figured on a basis of gold at \$232.00 per ounce.

ADVANCES COVER ALL AREAS OF VERY ACTIVE MARKET

1934-40 Walking Liberty Singles Continue Upward Swing; 1941-47 Rolls Elude Bidders

The Market in Depth

ALLEN HARRIMAN

The recent setback in the price of gold bullion doesn't seem to have affected the U.S. gold coin market at all! In fact, this week's chart reflects perhaps as many advances as have ever been seen in a single week. Demand stretches from requests for quantities of all denominations in VF condition thru frequent (and mostly unsuccessful) attempts to locate even one or two strictly MS-65 specimens--with all of the grades in between appearing on regular "want lists". (The MS-65 column is boasting a record seventeen plus signs this week--out of a possible eighteen!)

Nor are the gold commems being left out of the action! Every one of the eleven issues has registered a substantial gain in both MS-60 and MS-65 condition--with extremely few specimens finding their way onto selling lists. Bid for the individual pieces in the set total \$11,875 this week (up \$495) and offers to pay "\$12,000 or quote" receive very little attention from the many teletype dealers.

Frequent attempts across the various teletype circuits to locate an already assembled BU roll set of 1941-47 Walking Liberty halves have thus far been totally ineffective. Even though bid for the twenty individual rolls involved currently totals \$18,575, offers to \$19,500 still produce no results! As a matter of fact, even regular requests for "quotes" go unanswered--indicating either that none of the teletype dealers have (or have access to) a complete roll set or that, if they do, there is no interest in selling at this time.

It should be noted that although the 1934-40 issues are definitely on the move, price levels for the 1941-47 "short set" dates have remained virtually unchanged since the beginning of the year--with only minor adjustments in both directions having been recorded. This is in direct contrast to most of the BU roll market. Of course, gains for these twenty rolls were truly phenomenal during 1978; the average advance during that twelve month period was a very impressive 121%! However, with present bid levels more or less "stalled" at last autumn's levels, sales of even single rolls are now quite few and far between. Often static bid levels tend to bring material into the marketplace--since rapidly advancing prices usually result on a "wait and see" attitude on the part of many possible sellers. But such has not been the case to any extent for the Walkers. There are practically no rolls being listed for sale at any price on today's teletype market. Thus the almost \$1000 premium currently being offered for the purchase of the twenty rolls in a single transaction!

Strong bidding has recently pushed prices considerably higher for the 1942-P Jefferson proof as well as both the Mercury dime and Walking Liberty half dollar in proof. Bidders for these late proof "types" want quantities of all three--in choice condition only, of course. The new respective bids of \$100, \$120 and \$230 are resulting in only minimal sales. This demand has also contributed to this week's substantially higher bids for the 1940-42 proof sets--the only source for the wartime Jefferson proof and the "common date" proof Merics and Walkers. Advances for these sets, however, have been greater than the increase in bid levels for the single proof coins needed--reflecting an additional demand for the proof sets as a unit. Recent very impressive gains for the 1936-39 sets had left the 1940-42 issues somewhat behind; they have in this one-week jump more or less readjusted to the "normal" price relationship.

PLEASE NOTE that numerous last-minute price changes have been made for some of those issues which appear in both the weekly CDN and the MONTHLY SUMMARY. Although the MS goes to press only one day earlier, bid levels for such "hot" areas as the 1934-40 Walking Liberty singles will be higher in this CDN issue due to final adjustments. Readers are advised to check both issues thoroughly since the market is monitored to within hours of our Thursday afternoon mailing deadline!

This Week's Market

CENTS: The 1934-58 Lincoln rolls are apparently taking a "breather"; several buyers are still trying to locate quantities--but mostly at the new recently established price levels. Bid for the choice 1972/72 double die has now moved to \$230--with very few sellers at this record level. In addition, higher bids of \$160 still fail to pry loose any copper-nickel cents in strictly MS-65 condition.

NICKELS: Led by a bid of "\$775 or quote" for the really tough 1939-S roll, the Jefferson series has enjoyed another strong round of gains this week (coupled with scattered losses for a few of the more easily located and/or recently "promoted" issues). The complete 1938-64 BU roll set is now wanted at a still higher \$7200; no sellers have been located. The 1936-S Buffalo roll, by the way, is now unsuccessfully bid at an even \$1000!

DIMES: With an impressive bid of \$8100, the 1946-64 BU roll set of Roosevelts continues to soar! The four "key" rolls are all setting price records with the following bids: 1949-P \$875, 1949-S \$2275, 1950-S \$1150 and 1951-S \$660. Numerous other individual issues are also still on the move--see page three. Choice MS-65 Barber dimes are particularly difficult to find at the current bid of \$275--and strictly graded specimens now usually bring in excess of \$300 at current auctions.

QUARTERS: Even though bid levels for the 1932-40 Washington singles are more or less unchanged for a second week in a row, demand for properly graded specimens continues unabated--with only scattered sales of the more easily obtainable dates noted. (The 1932-D & S and 1936-D continue to elude the most persistent bidders.) Mild profit-taking has affected a few of the "short set" rolls this week--along with a number of further advances. Bids of \$390 for MS-65 Barber quarters are almost totally ineffective.

HALVES: Several of the pre-1941 Walking Liberty singles continue to forge ahead--with few if any pieces being offered to the frequent bidders. Interest in the 1941-47 rolls at current levels is quite evident--see "The Market in Depth". More and more attention is also being directed toward the Franklin series; gains are widespread and sellers are as elusive as the rolls themselves! Numerous dealers are in the market for strictly MS-65 Barber halves--and it appears that they are going to have to offer more than the current \$750 to get them!

DOLLARS: The usual "phenomenal" number of plus signs is apparently the rule rather than the exception! Hopeful teletype bidders continue to top each other's still largely unsuccessful bids on an almost daily basis. The MS-65 column, of course, is again the recipient of the greatest number of plus signs--and, naturally, sellers of top quality dollars are now all but nonexistent. Many of the BU rolls have also advanced again this week--topped by the following impressive bids: 1880-P \$650 (up \$75), 1884-P \$1000 (up \$225) and 1889-P \$475 (up \$75).

PROOF SETS and MINT SETS: Strong gains have been registered for the 1940-42 sets (see comments in "The Market in Depth"). In addition, the 1956, 1958, 1959 and 1960 sets seem to be of particular interest to several quantity buyers. It should be mentioned that the earlier mint sets (1946-58) are all receiving bids that are still a bit below the pro-rated roll prices of the coins involved--thus it is not surprising that sellers cannot be found.

COMMEMORATIVES: Quite a number of the silver commems continue to edge forward as bidders try to find quantities of selected issues in the XF/AU, MS-60 as well as the MS-65 categories. Commem selling lists are now very seldom encountered on the teletype circuits.

U.S. GOLD: (Prices are for the most common date of each type.) Bullion related gold coins in this issue are figured on a basis of gold at \$239.60 per ounce.

**GEORGE ASHLEY
IS LOOKING FOR
WONDER COINS**

If you are a knowledgeable dealer or
collector who can recognize truly
superior coins, I think we can do
business. I am a strong buyer of coins
in any U.S. series in "Ne plus ultra"
condition. Preferred price range is
\$50.00 to \$500.00 per coin. Copper,
nickel, silver, or gold coins in "MS-67
or better" condition are of definite
interest to me. Just ship with your
best price or give me a call. Also
interested in superb U.S. airmail
stamps. Price is secondary to
condition.

MARKET SLOW AS DEALERS PREPARE FOR CENTRAL STATES SHOW Prooflike Dollars Overlooked In Recent Morgan Run-up

The Market in Depth

DAVID HALL (Guest Columnist)

Teletype activity was slow this week as many of the usually active bidders were busy preparing for one of the most important coin shows of the year. Most of this week's bidding was for BU rolls, proof sets and Ike dollars. It will be interesting to see if the past few month's buying frenzy in the choice gold, silver dollar and type coin market continues when everyone returns from the Central States coin show next week.

Whenever type coins get "hot", scarce dates within the Seated and Barber series have a tendency to "lag" in their price movement. Common Barber dimes can move from \$150 to \$250 while the scarcer date Barber dimes only increase 10 to 20 per cent, if at all. Correspondingly, when the common type examples reach a price plateau, the scarcer dates usually begin an upward price adjustment. Now that a prooflike Morgan dollar bid range has been included in the weekly CDN, we can examine a very similar situation in the silver dollar market. The past 2 months has seen dramatic increases in MS-65 Morgan (and Peace) dollar prices. However, many prooflike Morgan dollar prices have been virtually stagnant. For example, last week the MS-65 bid for the ultra-rare 1889-CC was \$8000. But the prooflike bid was only \$8500. The only prooflike premium of less than 10% in the entire chart!!! And for one of the rarest coins in the series. Understandably this situation has a tendency to eventually correct itself. This week when bid for MS-65 1889-CC dollars went to \$8500 someone finally "woke up" and bid \$10,000 for a prooflike. It will be interesting to watch prooflike prices after the tremendous surge of MS-65 price increases subsides.

The chart below lists both the MS-65 and prooflike Morgan dollar bids for March 2 and April 27 (this week). Note that prooflike prices on page six are actually bid ranges and not Bid-Ask prices. The chart below uses the low end of the bid range. While reading the chart remember that even if both bids increase exactly the same amount, the percent of increase for the prooflike bids is still smaller than the increase percentage of the MS-65 bid. For example, the MS-65 and prooflike bids for 1885-S dollars both increased \$100 since March 2nd. This represents a price increase of 63% for the MS-65 bid and 33% for the prooflike bid. In other words, the lack of proportionate increases in the prooflike bids is even more substantial than it appears at first glance!

This Week's Market

BU ROLLS: Last week's "breather" in the Lincoln roll market has turned into this week's "lull". The 1939-S roll is still leading the Jefferson market. This elusive roll was up another \$25 this week and bid is now \$800. Check page three for the important gains in the Roosevelt series. All of the more expensive key date rolls are up again this week. The entire Washington quarter market is still showing good demand and a few more price increases were noted this week. The Walking Liberty half dollar market looks slow but don't be deceived. There is an extremely strong buyer demand at current levels. The Franklin half dollar market is the strongest area of the BU roll market with numerous lengthy buy lists, most of which are at higher levels (check page three).

TYPE COINS: The Choice BU type coin market is still very active though the charts show only a few gains. Up again this week were Barber quarters and half dollars, Type One and Type Three gold dollars and \$2½, \$5 and \$10 Liberties.

DOLLARS: Even though most of the major buyers were already on their way to the Central States show, there was still a rash of price advances for MS-65 Morgan singles. Check page six for this week's gains. Also notice the small but numerous gains for Ike dollars.

PROOF SETS and MINT SETS: The 1936 thru 1942 proof sets have taken off again. Every issue except the 1942t2 is up this week. The 1973 mint set is now very strong at a higher \$30 bid.

COMMEMORATIVES: Both gold and silver commems were very quiet this week though there were several buy lists at current levels. Page two does show gains for a few MS-65 silver issues.

U.S. GOLD: (Prices are for the most common date of each type.) Bullion related gold coins in this issue are figured on a basis of gold at \$243.00 per ounce.

THE COIN DEALER NEWSLETTER

reports the national coin market on a weekly basis. Under the present system, it is impossible to monitor all transactions of offers to buy and sell, but the broad information sources of the Newsletter make it a very accurate reflection of the market.

INVESTORS NOTE: The prices in the Newsletter are from dealer to dealer transactions. As an investor, you may place your buy and sell orders through a dealer for a fee, as you would buy stock through a broker.

ADVERTISING RATES

\$12.00 per column inch; four consecutive ads (no changes) - 10% discount.

**GEORGE ASHLEY
IS LOOKING FOR
WONDER COINS**
If you are a knowledgeable dealer or
collector who can recognize truly
superior coins, I think we can do
business. I am a strong buyer of coins
in any U.S. series in "Ne plus ultra"
condition. Preferred price range is
\$50.00 to \$500.00 per coin. Copper,
nickel, silver, or gold coins in "MS-67
or better" condition are of definite
interest to me. Just ship with your
best price or give me a call. Also
interested in superb U.S. airmail
stamps. Price is secondary to
condition.

MORGAN DOLLARS ADVANCE AGAIN Commems, Washingtons, Walkers, Type And Ikes Also Hot!!

The Market in Depth

DAVID HALL (Guest Columnist)

Buying lists for MS-60, MS-65 and Prooflike Morgan dollars crowded the teletype circuits again this week. Virtually every date in the series is wanted in quantity by numerous dealers at or above current bid levels. Even the long dormant 1890-S, 1891-S and 1897-S (the three dates which more than any others are thought of as "Redfield" dollars) have shown substantial demand and higher bids. It is interesting to note that several dealers are interested in purchasing MS-60 Carson City dollars. Perhaps the pending disposal of the remaining G.S.A. CC dollars is creating a greater interest in these coins. Every dealer knows that the G.S.A. still has monumental quantities of 1883-CC and 1884-CC dollars. And the latest unconfirmed reports suggest that these two dates will be offered to the public at \$30.00 per coin. Strangely, several dealers want quantities of MS-60 1883-CC and 1884-CC dollars at \$39.00 per coin. Though there are numerous gains in both the MS-60 and prooflike charts, the main thrust of dealer demand is for strictly graded Mint State 65 singles. About a year ago the CDN commented that MS-65 prices for many of the "semi-common" dates were preparing the "break away" from average uncirculated roll prices. This is exactly what has happened during the past year. (The dramatic examples are the 1888-O and 1890-P). The only Morgans still priced close to roll prices are the 1878-P, 1882 S-mints, 1883-O, 1884-O, 1885-O, 1885-P, 1886-P, 1887-P, 1898-O, 1899-O, 1902-O, 1904-O and 1921-P. Compare this with situation 3 to 4 years ago when dates such as 1921-D and S, 1922-D and S and 1923-D and S were actively traded by the roll and their MS-65 prices were very close to roll bids. (5 years ago, even such currently expensive dates as 1886-S, 1892-CC, 1898-S, etc. were traded by the roll.) One final note of interest on the Morgan dollar market: at last week's Central States coin show a bag (1000 coins!!) of 1887-O dollars was broken up and sold by rolls and singles. The coins graded between fairly clean (mark-free) MS-60 to nicely struck MS-65. The average grade was probably decently struck MS-60 plus. Even though MS-65 bid of this date has nearly tripled during the past 12 months, demand was sufficient enough that all but a few rolls (the worst of the bag quality-wise) were sold at the show. The coins were sold for between \$175 and \$300 each. Now that should tell you something about the strength of the Morgan dollar market.

Once again this week early date Washington quarters, 1934-1938 Walking Liberty half dollars, silver Commemoratives and Ike dollars posted numerous gains. The 1941-47 "short set" Walking Liberty half dollars appear to be "sleeping". However, there are several dealers running frequent buy lists for all of the 1941-47 issues at current bid levels. Based on the number of "serious" quantity buyers, the 1941-47 Walking Liberty half dollar series currently is in as great a demand as any area of the coin market. It will be interesting to see how long it will take for buyers to start raising their bids.

After a rash of bid increases early this year, teletype activity in the type coin market has slacked off considerably. This is not to say the choice type is not in demand. One dealer recently stated, "after running long buy lists all week long, only 5 coins were shipped to me and 3 of those were obviously overgraded". Naturally this response tends to discourage type coin buyers from using the teletype to buy coins. At coin shows properly graded copper, nickel, silver, and gold type coins recently have been trading between dealers at 10% to 25% over current bid/ask levels.

This Week's Market

CENTS: Once again the BU Lincoln roll market seemed non-existent. There were a few bidders seeking quantities of very late date (post 1965) rolls and bags. Good to Fine half cents and large cents were also wanted in quantity.

NICKELS: A couple of dealers are still trying to buy a few of their "favorite" dates. Other than these few rolls, there is little demand for Jefferson rolls. One dealer had quantities of 4 or 5 dates for sale at 20% below bid!!!

DIMES: Many of the Mercury and Roosevelt rolls are in demand at current levels. Single coin bid for the scarcer 1934-D, 1935-D, 1935-S and 1936-D edged slightly higher. The 1950-S and 1951-S Roosevelt rolls were also higher again this week.

QUARTERS: 1932-1940 Washingtons are now wanted in quantities in both MS-60 and MS-65. Check the virtually across the board increases on page 2!!

HALF DOLLARS: Once again the 1934-37 mint mark issues all posted higher bids. As mentioned in The Market in Depth, the 1941-47 issues are being actively sought at current levels. Several of the Franklin rolls also moved higher this including the 1934-D (sgl.) up \$15, 1934-S (sgl.) up \$25, 1935-D (sgl.) up \$15, 1935-S (sgl.) up \$25, 1936-D (sgl.) up \$15, 1937-D (sgl.) up \$15, 1937-S (sgl.) up \$15, 1938-D (sgl.) up \$50. In short, the entire half dollar market is very strong.

DOLLARS: Check page 6 for this week's Morgan dollars price increases and "see for yourself". Peace dollars also showed gains this week as all issues are wanted at or above current bid levels. Although Ike dollars only show a few small gains bidding is very active for all issues.

COMMEMORATIVES: Several dealers are in the mood to purchase quantities of all of the silver issues. Many of the "type" issues posted small gains. Gold commemoratives are also actively sought, especially in XF and MS-60 condition.

PROOF SETS and MINT SETS: Bidders seemed content to stay at last week's levels. But they were bidding. One dealer was looking for the ultra rare 1975 no S proof set. He wanted a set priced in the "\$19,000 range"!!!!

U.S. GOLD: (Prices are for the most common date of each type.) Bullion related gold coins in this issue are figured on a basis of gold at \$248.50 per ounce.

THE COIN DEALER NEWSLETTER

reports the national coin market on a weekly basis. Under the present system, it is impossible to monitor all transactions of offers to buy and sell, but the broad information sources of the Newsletter make it a very accurate reflection of the market.

INVESTORS NOTE: the prices in the Newsletter are from dealer-to-dealer transactions. As an investor, you may place your buy and sell orders through a dealer for a fee, as you would buy stock through a broker.

ADVERTISING RATES:

\$12.00 per column inch; four consecutive ads (no changes) - 10% discount.
Advertising space is limited; ads will be placed in first possible edition.

COMMEMORATIVES

MS-60 coins are "average UNC"—they may have bag marks or handling marks (but no wear) and may not have full luster. MS-65 coins are choice fully struck specimens without detracting marks—they may be brilliant or have original toning.

Gem MS-65+ singles are worth more than the MS-65 prices below. NOTE that only a "bid range" is reported for MS-65 Prooflike Singles. Specimens of lower quality usually bring less; gems usually bring substantially more.

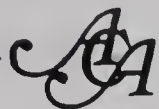

Spotted or otherwise inferior sets bring 10%-25% less according to quality.

* 1946 & 1950 sets are not government issue; they are "put together" sets.

1946-58 are Treasury issued double sets (2 of each coin as issued),
1959 to date are single sets of government issue.

1950 to date are single sets of government issue.

GEORGE ASHLEY IS LOOKING FOR WONDER COINS

If you are a knowledgeable dealer or collector who can recognize truly superior coins, I think we can do business. I am a strong buyer of coins in any U.S. series in "Ne plus ultra" condition. Preferred price range is \$50.00 to \$500.00 per coin. Copper, nickel, silver, or gold coins in "MS-67 or better" condition are of definite interest to me. Just ship with your best price or give me a call. Also interested in superb U.S. airmail stamps. Price is secondary to condition.

DOLLARS CONTINUE TO PACE EXTREMELY ACTIVE MARKET Bidders Dominate Teletype Circuits As Prices Advance In All Areas

The Market in Depth

ALLEN HARRIMAN

Still paced by the ever-soaring silver dollars, the entire market continues to break price record after price record—day after day! The number of plus signs across the dollar charts is almost certainly greater this week than in any other previous week as dealers continue to jump bid levels in multiples of \$25, \$50 or \$100 in hopes of locating just a few coins. Sellers are all but non-existent. Those collectors and investors (and dealers) who bought carefully years, months—or even weeks—ago are mostly just sitting back and enjoying the show!

Possibly anticipating the July 1st release of the circulation strike Anthony dollar, several major buyers are in the market for large quantities of the Eisenhower issues. It is not only the “blue” and “brown” Ikes (40% silver BU and proof) that are forging ahead; these have been joined this week by the low mintage “mint set only” 1973-P & D’s (at \$300 per roll) and the various other 1973-78 clad proof issues. Teletype bidders currently want “up to five” complete 1971-78 roll sets and they have edged bid up to \$5000 this week. (Separate bids for the thirty-two rolls in this now ended series presently total an almost equal \$5034.)

Type coins have once again assumed a major share of the week’s spotlight. Bidders for choice proofs have kept most of their offering prices at recently established levels with the exception of the now highly sought after wartime Jefferson, Mercury dime and Walking Liberty half—all three of which continue to advance week after week. However, the MS-65 BU column exhibits an almost complete run of gains this week! But these new higher bids have resulted in very few transactions. Potential buyers report that as many as 75%-85% of the coins sent to them as strictly MS-65 are overgraded and must be returned! This, of course, discourages many dealers from bidding in the first place—and they must then rely on other sources such as conventions, auctions and private investors to obtain the material that they need. These sources do not offer enough coins to satisfy more than a small portion of the current demand.

An interesting note: one dealer who specializes in Mercury dimes has offered to pay \$1000 for a single 1945-P in gem MS-65+ condition with fully rounded split bands! (So far, none have been offered.)

This Week's Market

CENTS: Scattered bidders are once again in the market for varying quantities of numerous 1934 to date Lincoln rolls—but they seem content with present bid

levels. The somewhat elusive 1970-S “small date” roll has advanced to \$150 bid this week. And, by the way, “up to five bags each” of circ 1943-D & S cents are wanted at \$6.50 and \$6.00 respectively per roll.

NICKELS: Both the 1935-S and 1936-S Buffalo rolls are now receiving record-setting bids of \$1080—with none in sight! Several advances have been noted for the 1938-43 Jeffersons—along with several profit-taking inspired losses in the 1946-55 group. Among the gainers is the 1938-S roll at \$240, the still very tough 1939-S at \$875 (up \$75), the 1939-P, 40-P and 41-P at \$34 each (large quantities needed) and the scarce 1942-D at \$525. The complete 1938-64 BU roll set is now wanted at a higher \$7600—while bid for the seventy-one individual totals a substantially higher \$8818!

DIMES: Except for the small advances recorded for the 1934-D, 36-D and 38-D singles, activity in the Mercury series remains limited to an occasional sale within current bid-ask ranges. In the Roosevelt series, gains have been registered by the 1949-D roll (up a strong \$75 at \$450 bid), the 1951-D (wanted in quantity at \$95), the 1953-S and 1954-S (also needed in large lots at \$64 and \$68 respectively) and the often popular 1955-P at \$80. It might also be mentioned that bid for the forty-two separate rolls now totals \$9196—while bid for the already assembled BU roll set remains steady at \$8400!

QUARTERS: The very elusive key 1932-D Washington has now reached the \$2000 bid mark—followed by the scarce 1932-S at an impressive \$675! (The complete 1932-64 single set is unsuccessfully bid at \$5500.) In the pre-1941 rolls, the 1939-P is suddenly bid at an impressive \$750 (up \$135) and the 1940-P at \$650 (up \$40). Gains and losses are about evenly divided in the still active 1941-64 BU roll group—check page three.

HALVES: Bid has finally edged forward for a number of the 1941-47 Walking Liberty rolls as the numerous bidders have obviously tired of trying to buy at levels established some months ago. However, this week’s small increases have not encouraged many sales. The 1934-39 mintmarked singles are still on the minds of several dealers along with “superb fully struck gem” 1934-P thru 1940-P and later singles—for which premiums of a bit over ask are being offered. The Franklin series continues to enjoy a considerable amount of attention—with a majority of the issues again sporting plus signs and with few sellers to be found! By the way, the 1979-P Kennedy has hit the teletype circuits in the \$12-\$13 ranges.

DOLLARS: If you think the number of gains for the Morgan and Peace dollars has been impressive in the past, “you ain’t seen nothing yet”! Take a look at the page six chart (along with the page five circ dollar listings)! From 1878 thru 1935 plus signs are virtually complete as anxious bidders attempt to outbid one another for the few pieces which might be for sale. Many of the BU dollar rolls, too, have advanced considerably—led by the 1881-O and 1882-O at \$465 each (up \$105 and \$70 respectively), 1888-O at \$615 (up \$50), 1897-P at \$850 (up \$75) and 1901-O at \$650 (up \$50).

The Eisenhower series is also strong—and getting stronger; bidders far outnumber sellers and sales are only moderate and scattered.

PROOF SETS and MINT SETS: The 1955-64 issues are in particular demand—with quantities of each wanted at higher levels. Interest, however, is not confined to these issues as the 1936-54 along with the later “variety” sets come in for their share of the attention. In the mint set area, prices have moved forward for all issues in line with advancing silver bullion and BU roll prices. The 1970 issue has registered sales at a higher \$29 and the now leading 1973 traded hands for as much as \$33 this week.

COMMEMORATIVES: All of the eleven gold commems are up substantially in both MS-60 and MS-65 condition—with the individual bids now totalling \$12,425. And don’t let the small number of plus signs on the silver commem chart fool you! More and more bidders want to buy in this area—with one dealer stating that he needs “two rolls of each issue priced at under \$500”! The fifty piece type set is now bid at \$11,600 and the complete 144-piece set at an even \$22,000.

U.S. GOLD: (Prices are for the most common date of each type.) Bullion related gold coins in this issue are figured on a basis of gold at \$250.70 per ounce.

**GEORGE ASHLEY
IS LOOKING FOR
WONDER COINS**

If you are a knowledgeable dealer or collector who can recognize truly superior coins, I think we can do business. I am a strong buyer of coins in any U.S. series in "Ne plus ultra" condition. Preferred price range is \$50.00 to \$500.00 per coin. Copper, nickel, silver, or gold coins in "MS-67 or better" condition are of definite interest to me. Just ship with your best price or give me a call. Also interested in superb U.S. airmail stamps. Price is secondary to condition.

ALLEN HARRIMAN

More and more teletype buying interest is being expressed for the really tough date Morgan dollars in MS-60 condition. Bid levels for these Morgan issues which range from very scarce to rare in choice and gem grades (MS-65/MS-65+) have escalated wildly during the past year or so---and even at today's prices transactions are very few and far between. These dates are simply not around in any quantity in fully struck, full luster and minimal mark condition. However, while bid prices for top quality pieces have soared---setting record after record---the MS-60 examples of these dates have registered only comparatively nominal advances. This fact isn't particularly surprising in view of the current "search for quality" mood which pervades the entire market. However, those Morgan dollars which often border on the "impossible" in the MS-65/MS-65+ range (and which are very expensive when located) obviously have more appeal in MS-60 condition to collectors and investors than do the more plentiful and common dates in the same less than top quality condition.

The following chart gives both the MS-60 and MS-65 bid levels for selected dates as they were recorded one year ago and as they stand today---along with the comparative percentage gains:

Date	MS-60			MS-65		
	Bid May 19, '78	Current Bid	% Gain	Bid May 19, '78	Current Bid	% Gain
1879-CC	\$ 475	\$ 575	21%	\$1250	\$2500	100%
1884-S	500	725	45%	4000	8200	105%
1886-O	110	210	91%	650	2550	292%
1889-CC	2350	3450	47%	5200	9600	85%
1892-P	80	90	13%	205	420	105%
1892-O	80	110	38%	400	850	113%
1893-O	465	700	51%	1500	3650	143%
1893-CC	475	610	28%	1250	2500	100%
1894-P	500	750	50%	1300	3500	169%
1894-O	250	500	100%	1300	5000	285%
1895-O	1200	1275	6%	3200	9500	197%
1896-O	180	320	78%	1175	3150	168%
1897-O	165	265	61%	525	2750	424%
1901-P	575	650	13%	2950	5750	95%
1903-S	910	1100	29%	2250	3850	71%

Among the "standouts" in this chart are the 1895-O and 1901-P---both having recorded particularly small gains in MS-60 condition while, during the same time, registering very strong advances in MS-65. Still, neither coin is seen more than rarely on the teletype circuits in either grade. Comparisons between the other dates in this selected group should also prove enlightening to those who are interested in these issues and the Morgans in general.

Grading, of course, is extremely important when buying any coin---but, in the case of these and other tough Morgan and Peace dollars, grading is nothing less than crucial! Consider the possibility of a rare date Morgan in the MS-60 grade changing hands between dealers within the proper bid-ask range and then finding its way onto a bourse table---into a retail ad---or into a major auction---now graded as MS-60+ or even MS-65! To repeat, knowing the difference between MS-60, MS-60+ and MS-65 (along with MS-65+) before buying is crucial if the buyer isn't to "learn the hard way". The MS-60 or MS-60+ specimen of any of the scarce and rare Morgans is certainly a desirable coin---but knowing the grade is equally as desirable.

This Week's Market

CENTS: Both the 1934-58 and 1941-58 BU roll sets of Lincolns seem unavailable to current bidders at respective bid prices of \$2500 and \$825. (The individual roll bids in these two sets now total a somewhat higher \$2905 and \$903.) A problem often encountered when buying already completed BU roll sets is that a few inferior rolls usually "creep in"---making the purchase less of a "find"! Gem early Lincolns are appearing on several "want lists"---most often accompanied by requests for quotes rather than specific buy prices.

NICKELS: Several Jefferson rolls continue to appear on one or two teletype buyer lists at higher prices---but it seems that current buyers and sellers often "fail to get together". In addition, several "investor lots" of issues which previously registered very substantial advances are now available at "bargain levels". The 1939-S roll, by the way, continues to elude all bidders at a higher \$915. The MS-65/better wartime Jefferson proof (1942) is now receiving quantity bids of \$115.

DIMES: A few more Mercury dime rolls are finding their way onto selling lists---mostly within current bid-ask ranges (except for the 1939-D, 1940-D and 1943-S which are all three a bit lower). The proof MS-65/better Mercury dime is again bid higher---now at \$145. In the Roosevelt series, only the 1953-S, 1954-S and 1955-P have shown minor gains---while the 1952-S and 1955-S have been offered for sale at slightly lower prices.

QUARTERS: Strong interest is still evident across the tapes for the early Washingtons---with gains noted for the 1932-P (\$45) and the 1938-P (\$130). Changes for the 1941 to date rolls include:

- 1942D - Often quite elusive---but now in a slightly lower \$700-\$750 range
- 1945P - Again on one frequent "want list"---at \$325
- 1946D - A few rolls are available at around \$700
- 1955D - Transactions recorded during the week a higher \$145
- 1958P - Wanted in quantity---at \$92 this week

HALVES: Advances for the earlier Walking Liberty singles include \$330 bid for the 1937-D, \$280 for the 1937-S and an impressive \$800 for the tough low mintage 1938-D (up another \$50)---all in strict MS-65 condition, of course. Several bidders still want quantities of the 1941-47 rolls---but, except for an occasional small advance, bid levels remain undisturbed. The W.L. proof (MS-65/better) is higher at \$280 bid. Common date Franklin rolls, by the way, are now bid at a minimum of \$76.50---with bag quantities wanted.

DOLLARS: BU rolls are topping numerous dollar buying lists---with advances noted for a majority of the dates still traded by the original roll. In addition---and not surprisingly---both the MS-60 and MS-65 singles columns are again peppered with plus signs. Circulated rolls and bags are in strong demand---along with the Carson City singles in all grades. The Eisenhower series is also very strong---with most issues gaining again this week. See pages five and six!

PROOF SETS and MINT SETS: The 1961-63 sets are bid now at \$7.50; quantities are wanted. Most of the other later dates are following along proportionately. In addition, the scarce 1939-52 issues have also recorded further price hikes.

COMMEMORATIVES: A majority of the silver issues have edged higher this week. Bidders want from "one to five" pieces---to a "couple of rolls"; sellers occasionally offer a few singles! The XF/AU gold issues are all substantially higher---again with very few pieces available on any of the teletype circuits.

U.S. GOLD: (Prices are for the most common date of each type.) Bullion related gold coins in this issue are figured on a basis of gold at \$257.60 per ounce.

BU SILVER DOLLAR ROLLS ENTER SPOTLIGHT Silver Commems Score Further Gains ; Type Coins Continue To Elude Bidders

The Market in Depth

ALLEN HARRIMAN

Demand for BU rolls of silver dollars has increased dramatically within recent days---with bid levels moving strongly ahead for all of the thirty-nine issues which still generally trade by the roll (as reflected in the page six chart). Probably spurred on by the fact that silver and gold bullion have been setting new price records every day or two, several major teletype bidders have stepped up their attempts to buy BU rolls and/or BU bags of "any date" in either the Morgan or Peace series. Minimum bid for any pre-1921 Morgan roll is now \$350 ---and the only three dates still left in this category are 1883-O, 84-O and 85-O; the 1885-P, 86-P and 87-P rolls have now moved a bit further ahead---into the \$365-\$375 range. The most plentiful S-mint rolls (1880-S, 81-S and 82-S) are now pegged at \$525 bid---with few if any sellers around at this new level. The 1878/84 P-mint rolls are also enjoying considerable attention at higher levels of \$25-\$40 or so per roll---again with the same scarcity of sellers.

Circulated VG/better dollars are also in great demand at \$7750/\$7800 per bag---or about \$155/\$157 per roll. (One or two bidders were offering to pay as much as \$7925 for a bag or two of "well mixed" strictly VG/better pieces to fill specific orders.) Obviously responding to the price of silver bullion, this latest surge in the bid level for circ dollar bags seems to have produced at least limited results. Several sellers of bags have been evident across the tapes---but, true to form, many still manage to keep price tags just slightly ahead of even this advancing market.

For some months now, frequent attempts to locate Barber coinage in Fine condition have been monitored across the teletype circuits. Several buyers are regularly in the market for large quantities of "strictly Fine" dimes and quarters as well as the halves. Offers to pay "bid" (\$1.35 for the dimes, \$4.75 for the quarters and \$9.50 for the halves) have thus far netted only scattered results as witnessed by the continued running of the same or similar buying lists week after week. Naturally, at these minimal price levels for Fine specimens, only common dates are expected---but it appears that even these "plentiful" issues are not to be enticed out of hiding in any quantity by current bid prices. (It might be added that buyers do not want VG+ coins---but only pieces which are properly graded). There are also quantity bidders for strictly VF specimens of all three denominations. These higher grade examples are, of course, even more difficult to stockpile---especially when a dealer asks for "up to one hundred" and receives only, say, a few to perhaps a dozen coins from time to time widely scattered time! Along with this demand for "condition" Barber type coins, two or three regular bidders are always asking for quantities of the better dates in all three series in "Good or better"---and occasionally smaller numbers in Fine or Very Fine. Usually these buyers edge "bid" just slightly higher every month or so. Again, teletype confirmation of sales are noted only infrequently.

During the past few months there has been very little mention of Canadian prooflike sets on the teletype circuits---with a complete absence of comprehensive buying lists. However, gathering from various smaller lists and other sources, we come up with the following conservative buying prices for the 1957/78 sets:

1957/58	\$32.50	1968/69	\$1.75	1974	\$3.50
1959	\$12.50	1970	\$6.75	1975	\$4.00
1960/61	\$10.00	1971	\$3.50	1976/77	\$8.50
1962/66	\$ 9.00	1972	\$2.50	1978	\$4.00
1967	\$ 8.50	1973	\$4.00		

The case proof Canadian dollars are bid:

1971	\$8.00	1974	\$4.10	1977	\$6.00
1972	\$8.00	1975	\$3.50	1978	\$4.50
1973	\$5.75	1976	\$6.10	1979	\$4.50

This Week's Market

CENTS: In addition to the regular demand for key and semi-key Indians in Good condition, interest in quantities of "middle grade" specimens (Fine thru XF) is evident across the tapes; actual sales at "bid" or thereabouts are rather limited. A few bidders remain in the market for scattered BU Lincoln rolls; price changes, however, are minimal and trading is light.

NICKELS: The 1939-S and 1942-D Jefferson rolls---along with several wartime issues---are a bit higher. Profit-taking, on the otherhand, has again affected numerous issues from 1938 thru 1955 as two or three sellers continue to offer "bargain lots". (In contrast, bid for the complete 1938-64 BU roll set has moved to an even \$800 this week.) Choice wartime nickel proofs have now reached \$125 bid. Gains are widespread for "type" nickels and half-dimes---see page four.

DIMES: Both the Mercury and Roosevelt series remain rather quiet. A few buyers want Merc rolls (mostly the late P-mints), but they are sticking with current bid levels. Choice Merc proofs continue to move ahead---bit is now \$155! Again, the only dates in the Roosevelt group which are receiving much attention are: 1953-S (bid now \$67), 1954-S (bid \$71) and 1955-P (bid \$83)---quantities of each are wanted. "Type" dimes have also registered further gains---again, check the page four chart.

QUARTERS: Another comprehensive and substantial round of gains has been recorded by the early Washingtons! Still led, of course, by the soaring 1932-D at this week's \$2100, virtually the entire 1932-40 group has moved strongly ahead. The 1932-S is bid now at an impressive \$750, the 1934-D at \$300, the 1936-D at \$600---and so on (see page two). By the way, the complete 1932-64 single set is now wanted at \$6000 in strictly MS-65/better condition! Later BU roll prices are lightly mixed in light trading.

HALVES: Bidding for the 1934-40 Walking Liberty rolls and singles is still strong---potential buyers, however, apparently do not want to disturb present bid levels (after all, raising "bid" in today's market doesn't necessarily mean a seller will appear). The 1941-47 BU roll set is now bid at a record \$20,000---with none yet offered for sale. (Bid for the twenty rolls totals only \$18,805). Several individual rolls in both the W.L. and Franklin series are higher---see page three. The proof Walking Liberty, it should be noted, has advanced to \$300 bid!

DOLLARS: Demand for BU dollar rolls has almost overshadowed that for the singles this week---but not quite! Gains for the rolls are total (see "The Market in Depth"). In the "singles" area, plus signs are again rampant from VG/better circ rolls thru the better circ pieces---from MS-60 thru MS-65 prooflikes. It cannot be stressed too thoroughly or too often that strict grading applies to the MS-60 and MS-65 prices---"super-sliders" are not MS-60 and nice MS-60+ coins are not MS-65!

PROOF SETS and MINT SETS: The now rather elusive 1940-42 proof sets have taken a major jump this week---with the minimum bid now \$460 (for the '41 and '42 sets). Comprehensive buying lists cover all the remaining issues from 1950 to date---with bid levels edging slightly higher here and there. The 1970 mint is still advancing---bid is now \$31; the 1973 set is now bid at \$34.

COMMEMORATIVES: About half of the silver issues have gained a bit this week; quantity bidding for MS-65 specimens is producing very few results as nearly all holders of top grade commems continue to enjoy the action from the sidelines. Gold commems remain on several regular "want lists"---where are they?

U.S. GDLD- (Prices are for the most common date of each type.) Bullion related gold coins in this issue are figured on a basis of gold at \$264.00 per ounce.

SILVER DOLLAR AND TYPE STRONG AGAIN MS-65 Type Coins Show Dramatic Price Increases During Last 5 Months

The Market in Depth

ALLEN HARRIMAN

During 1977 and 1978 choice BU type coins were relatively inactive. Market attention seemed focused on modern (1934 to date) BU rolls and Morgan and Peace dollars. Many dollars and modern rolls increased in price 200% to 300% during that time. The start of 1979, however, saw a shift in buyer focus. Choice BU type coins apparently began to look "cheap" compared to modern issues and dollars. Dealers began to aggressively buy choice BU type. The chart below shows the price increases which were a result of the "awakened" type coin demand.

	MS-65 Bid Jan. 6 1979	MS-65 Bid June 1 1979	Change
Copper-nickel cents	\$ 125.00	\$ 175.00	+40%
Indian head cents	42.50	60.00	+41%
Three cent nickels	140.00	230.00	+64%
Three cent silvers	350.00	550.00	+57%
Shield nickels	175.00	260.00	+48%
Liberty nickels	125.00	200.00	+60%
Bust half dimes	600.00	800.00	+33%
Seated half dimes - Stars obverse	450.00	650.00	+44%
Seated half dimes - Legend obverse	325.00	450.00	+38%
Bust dimes	1100.00	1500.00	+36%
Seated dimes - Stars obverse	665.00	1000.00	+50%
Seated dimes Legend obverse	300.00	410.00	+37%
Barber dimes	235.00	310.00	+32%
Twenty cent pieces	1100.00	1450.00	+32%
Bust quarters	1600.00	2250.00	+41%
Seated quarters - No motto	690.00	1050.00	+52%
Seated quarters - With motto	475.00	650.00	+37%
Barber quarters	325.00	460.00	+42%
Bust half dollars	975.00	1250.00	+28%
Bust halves-reeded edge	1650.00	2100.00	+27%
Seated halves - No motto	750.00	1000.00	+33%
Seated halves - With motto	575.00	775.00	+35%
Barber halves	600.00	900.00	+50%

The chart lists the more noticeable increases in the type coin market. Most of the large increases are for the "major" type coins. "Minor" types, such as the "No Drapery" and "with Arrows" Liberty Seated issues, have not shown bid increases. Most buyers feel these coins are so scarce that teletype buy tapes are virtually a waste of time and energy. Once again this week the major types have shown price increases. It should be noted that while the scarcer minor "type" issues appear to be inactive, there is great demand for all the issues and the few actual transactions that do occur usually are at price levels well in advance of the current bid/ask range.

Morgan dollar varieties have been relatively ignored in the recent frantic activity in the BU silver dollar market. The demand for varieties has in fact, decreased substantially. The following are bid ranges for the few Morgan dollar varieties that are trading frequently:

	MS-65.	Prooflike
1878 7tf Round Breast	\$ 80 - \$ 90	\$ 200 - \$ 250
1879-S Rev. of 1878	\$ 40 - \$ 50	\$ 60 - \$ 80
1880/9-S	\$ 35 - \$ 40	\$ 60 - \$ 75
1887/6-P	\$125 - \$150	\$ 150 - \$ 200
1900-O/CC	\$100 - \$120	\$1000 plus???

The 1880-CC varieties all trade for a very small premium over 1880-CC prices. The 1880/7-O and 1887/6-O also trade frequently but at a small premium over regular prices for the issue.

This Week's Market

CENTS: A few scattered sell lists were the only activity in the BU Lincoln roll market. After almost five years! of inactivity, choice MS-65 Flying Eagle cents are now wanted at this week's higher bid of \$525. Choice MS-65 copper-nickel and Indian cents are also bid higher again this week.

NICKELS: Buy lists for BU Jefferson rolls have disappeared to be replaced by, of course, sell lists! While only a few issues actually slipped in price, it is apparent that nearly every issue is now available at or near bid. The scarce 1935-S and 1936-S Buffalo rolls are both bid at a higher \$1120. Meanwhile, the two "common" Buffalo rolls (1937-P and 1938-D) have both edged lower, perhaps in a bit of profit-taking.

DIMES: The Mercury roll market has shown signs of coming to life. Many of the earlier (1934-1939) issues were higher this week (see page two). The Roosevelt market was relatively quiet this week. A few scattered sell lists were noted along with one quantity buyer of 1949-D rolls at a higher \$450.

QUARTERS: The 1932-1940 early issues are very strong and in demand in quantity at current bid levels. The 1932-S is now bid at a record \$815 in the elusive choice MS-65 condition. In direct contrast, the 1941-1955 BU rolls are now apparently quite soft. Several issues drifted lower this week. Suprisingly, the 1946-D roll, which was desperately needed last week at \$675 is now going "begging" at \$650.

HALF DOLLARS: Looks can be deceiving. There weren't any higher bids for Walking Liberty rolls this week but there sure were a lot of bids. 1939-P singles were up this week along with the 1937-P roll. The earlier (1934-1938) single issues were also quite strong at current levles.

DOLLARS: The BU dollar market exploded this week. MS-60 singles, MS-65 singles, prooflike singles and rolls all showed numerous gains. Among the notable increases were:

- 1889-CC - MS-65 bid up to the \$10,000 level
- 1891-O and 1892-O - Prooflikes now bid at \$3000 each
- 1895-O - Prooflikes wanted at \$15,000!!!
- 1896-O - One of the very rarest coins in the entire series---now bid \$3500 in MS-65

PROOF SETS and MINT SETS: All the early issues were higher and demand was widespread. A few of the later issues also edged forward. It should be noted that buyers of the early issues are all very quality conscious and demand strictly choice spot-free sets. The 1973 Mint set rolled on again this week (bid is now \$35.)

COMMEMORATIVES: There were extensive buy lists for silver commemoratives this week but, with the exception of a few scattered issues, buyers remain at current levels. Activity in the gold commemorative market was virtually non-existent this week.

U.S. GOLD: (Prices are for the most common date of each type.) Bullion related gold coins in this issue are figured on a basis of gold at \$271.00 per ounce.

DOLLARS AND HALVES ON THE MOVE Silver Coins Are On Most Dealer's Buy Lists

The Market in Depth

ALLEN HARRIMAN

Silver coins appear to be in most dealer's minds. BU silver rolls, silver commemoratives, silver type and, of course, silver dollars were the center of buyer attention once again this week. Walking Liberty and Franklin half dollars received the most action in the BU roll market but Buffalo nickels, Mercury dimes, and even a few Roosevelt dimes and Washington quarters were also in demand at higher levels. There were a few scattered gains for silver commemoratives but there is strong "across-the-board" demand for all issues at current bid levels. A similar situation exists in the type coin market where a few issues gained this week while there were bidders for all the issues at the currently established price levels. Once again, Morgan and Peace dollars advanced in nearly all grades, VG thru choice prooflike! In the Morgan dollar series, buyer attention this week has appeared to shift toward the rarer issues.

Last week's major coin show in Long Beach, California provided some interesting examples of "unbelievable" prices for "unbelievable" quality. The following were all dealer-to-dealer transactions:

1901-S quarter - A superb Mint State 65 plus example was sold for over \$20,000!!! This is one of the rarest, perhaps the rarest, 20th century U.S. silver coins. While many coins in this price range (i.e. 1921-S half, 1892-S dollar) often appear several times a year, it is usually 2 or 3 years between appearances of MS-60 or better 1901-S quarters.

1941-S half dollar - A Mint State 65 plus, full strike sold for \$450. Not a major rarity, but certainly hard to find in this condition. At over 2 times bid a good example of both the strength of the Walking Liberty market and the great demand for any high quality rare coin.

1881-P Morgan dollar - Two MS-65 plus, gorgeously toned non-prooflikes traded at \$300 each. An example of the tremendous premium commanded by superb coins with spectacular color. Similar to the eight 1878-S dollars that traded at the Central States Show for between \$150 and \$200.

1892-O Morgan dollar - A superb MS-65 plus, "full, full" strike was sold at \$2800. This is not one rarer coins in gem condition (certainly nowhere near the rarity of the 1896-O) and it usually trades in superb condition for a modest premium over MS-65 bid. But, the market is "hot" and pricing structures are changing.

1896-O Morgan dollar - A full strike MS-65 plus, non-prooflike traded between dealers at \$10,000 and then retraded, once again between dealers, at \$12,000. For "old-time" dollar dealers this was the event of the show. Two of the more experienced dollar dealers remarked that this was the first 1896-O dollar that either of them had seen that they consider to be a strict Mint State 65!!! In fact, when one of the above dealers first saw this coin he let out a bloodcurdling scream.

1921-P Peace dollar - A superb Mint State 65 plus with stunning toning but not fully struck was sold at \$2200. While many of the "newer" dollar "experts" concentrate on the strike of this usually weak issue, somebody apparently recognized that superior color, surfaces, and luster are still worth a premium.

1973-P & D lkes - Not a "unbelievable" quality example, but one very large

group (over 500 coins) traded between dealers at \$16.50 per coin. The Ike dollar market is a very strong market, yet the coins are trading within very narrow ranges. Nearly every issue is very saleable at bid and very available at ask. Most dealers anticipate a significant move (one way or the other) in this market when the new Anthony dollars are released next month.

1910-D \$5 Indian - A strict MS-65 traded at \$5500 (\$2000 over bid!) even though a hoard has recently hit the market. Many "dated" 20th century gold coins are so scarce and trade so seldomly that price is a secondary consideration.

High Reliefs - A pair of superb MS-65 plus 1907 High Relief St. Gaudens traded between dealers at over \$30,000. This example of a "semi-common" coin in "semi-uncommon" condition trading hands at "semi-unbelievable" prices points to the strength of the gold market and, once again, the tremendous demand for high-quality rare coins.

This Week's Market

CENTS: Flying Eagle cents and Copper-Nickel Indians were higher again this week. The Lincoln market slumbers on, though one dealer did have higher buy prices but did not want any rolls in "plastic tubes" !?!

NICKELS: Like Lincolns, Jeffersons snored again this week. The only action at all was one buyer of war nickel rolls. Buffalo rolls, on the other hand, are very much in demand. Check the gains on page two.

DIMES: More advances this week in the newly active Mercury market. Buyer attention appears to be centered on the earlier (1934-39) rolls. The Roosevelt market posted a few scattered gains this week.

QUARTERS: Early Washingtons are still smoking. Last year you could have bought a complete 1932 to date BU set for less than you now can't buy a MS-65 1932-D for (bid \$2250 and none offered).

HALF DOLLARS: All Walkers and Franklins are in demand. A few bids have edged forward though rolls in both series frequently trade for ask for more!!!

DOLLARS: The rare Morgan issues were in the spotlight this week. Common BU rolls jumped higher and nearly all MS-65 Peace dollars gained this week. Check the action on page six!

PROOF SETS and MINT SETS: All of the 1936-42 proof sets are wanted at current bid levels. The "mid-series" 1950-55 issues are somewhat dormant. The late silver sets (1956-1964) are strong with minor gains. The late clad sets (1968 to date) are basically firm at current levels.

COMMEMORATIVES: Once again this week the extensive buy lists remain at current established levels. A few issues did edge forward. The gold issues are also strong at current levels.

U.S. GOLD: (Prices are for the most common date of each type.) Bullion related gold coins in this issue are figured on a basis of gold at \$280.00 per ounce.

SILVER DOLLARS AND WALKERS EXPLODE! Full Band Mercury Dimes Are On The Move

The Market in Depth

ALLEN HARRIMAN

Buy lists for BU Morgan dollars, Peace dollars and Walking Liberty half dollars are crowding the teletype circuit. One day this week several dealers raised their buy prices for choice BU Walking half rolls two and three times per day. In the silver dollar market virtually every BU (MS-60, MS-65 and Prooflike) Morgan and Peace dollar is wanted at higher levels. The silver dollar market is somewhat a "same old story" situation as dealers once again raise bids to try and pry loose material they apparently need in large quantities. In the Walker market, the story is brand new. After weeks of numerous bidders and bids at current levels, a few bidders starting raising bids. To call the resulting effect a chain reaction would be an understatement. This week, bids for BU Walking Liberty half dollars were rising daily!!

Choice full band Mercury dimes increased in price dramatically this month. Many of the 1934-45 issues have "broken-away" from BU roll prices. Listed below are some of the more significant increases:

	Single coin Bid Pro-rated from roll price	MAY Summary Bid	This week's Teletype Bid
1935-P	\$ 25.00	\$ 29.00	\$ 35.00
1936-P	17.00	20.00	25.00
1936-D	110.00	140.00	165.00
1937-P	16.50	18.00	25.00
1937-D	75.00	80.00	100.00
1938-P	16.50	21.00	27.00
1938-D	65.00	50.00	75.00
1938-S	34.50	45.00	60.00
1939-P	13.00	41.00	50.00
1940-P	9.20	13.00	20.00
1940-S	13.60	22.50	30.00
1941-P	5.20	10.00	15.00
1941-S	11.20	16.00	20.00
1942-P	5.20	25.00	30.00
1943-P	5.20	10.00	15.00
1943-D	8.60	12.00	20.00
1944-P	5.20	40.00	50.00
1944-D	9.00	11.00	20.00
1944-S	15.50	20.00	25.00
1945-D	10.50	18.00	25.00
1945-S	9.50	25.00	35.00

SPECIAL NOTE: There seems to be quite a bit of controversy surrounding the insert which appeared with last week's CDN. The CDN reports transactions that occur over the nationwide teletype system. The CDN does not predict future coin prices, recommend buying or selling any issue, or offer opinions as to which issues are "too low" and which issues are "too high". The weekly inserts are paid advertisements. Any predictions, recommendations, or opinions expressed in the inserts are those of the advertiser and do not necessarily reflect the views of the Coin Dealer Newsletter, its staff or its editor.

This Week's Market

CENTS: Flying Eagle cents, 1859 Indian cents, Copper-nickel Indians and common Indian cents are all bid higher again this week in MS-65 condition. The BU Lincoln cent market is quiet again this week. There is still one dealer bidding for rolls that aren't in "plastic tubes" at slightly higher than current levels. The late date proof Lincoln rolls are drifting lower.

NICKELS: Several Buffalo nickel rolls are higher this week while the 1937-P roll was offered at slightly under last week's bid. Many Jeffersons drifted lower again this week. Bucking the trend were the 1939-S, 1942-P (wartime), 1943-D, 1944-D, 1945-P, 1950-D, 1958-P rolls. Late date proof Jeffersons were also lower.

DIMES: Many of the earlier (1934-1938) rolls and singles were higher this week. There were also bids (at current levels) for later Mercury rolls. There was substantial demand for full band Mercuries (See Market In Depth). Roosevelt rolls were mixed in light trading.

QUARTERS: Early (1932-1940) BU Washingtons were firm while several of the post 1940 rolls drifted lower.

HALF DOLLARS: See page three for the incredible gains in the BU Walking Liberty market and see the Market In Depth for further comments. The Franklin and Kennedy series are also in demand with numerous bids registered at or above current levels.

DOLLARS: Words cannot describe the frantic activity in the BU silver dollar market. You must check the action on page six!!!

PROOF SETS and MINT SETS: There seems to be very little to report in the proof set market this week. There were several bidders anxious to buy all of the 1936-42 issues at current levels. The early issue mint sets edged higher this week. The 1973 mint set is now bid at \$37.

COMMEMORATIVES: Again this week extensive buy lists were run at current levels. Both gold and silver issues were needed in quantity at last week's bid.

SPECIAL NOTE ON \$20 GOLD PIECE PRICES:

During the past several months the premium (over bullion) for \$20 Libs and Saints has increased dramatically (but gradually). Last week the premium drifted ¼% to 1% lower per day. This week the bottom fell out of \$20 market. The premium over bullion decreased over 40%!!! This is obviously a volatile market so check around before making commitments.

U.S. GOLD: (Prices are for the most common date of each type.) Bullion related gold coins in this issue are figured on a basis of gold at \$279.50 per ounce.

SILVER COMMEMS AND MERCURY DIMES ARE ON THE MOVE AGAIN

Analysis Shows Demand For All BU Coins Strong

The Market in Depth

ALLEN HARRIMAN

Choice BU Mercury dimes and choice BU silver commemoratives paced further market advances again this week. Both of these areas have been relatively quiet until this week.

Bidders for MS-65 silver commemoratives have been running lengthy buy lists at "current" CDN bid for over a month. This week, in an apparent attempt to loosen up some additional material, several bidders finally increased their bids setting off a "mini-bidding war". The result is the forty-eight increases seen on page two of this issue.

In the Mercury dime market bidding had been the 10% to 20% off bid "bargain hunting" until the past few weeks. The few large bargain lots that entered the market after last year's incredible gains seem to have been absorbed as several bidders are now in the market for quantities of nearly every issue at or above the bid level.

Actually all BU coins are experiencing strong demand at or above current levels. What the weekly plus and minus signs can't show is the numerous lengthy buy lists at the current bid price. The chart below reflects this week's activity in terms of price increases, decreases and unchangeds. Keep in mind that most increases (or decreases) are usually in the 5% to 10% range. This is a relatively significant movement for just one week's time. If one area shows only two to five increases this usually indicates a fairly strong demand. Where one out of two or three issues is increasing the demand must be super strong. For the major areas listed below, slightly less than two out of five issues have increased this week. The obvious conclusion is a strong broadly-based demand for coins in these areas:

	Increases	Unchanged	Decreases

This Week's Market

CENTS: The BU Lincoln roll market showed signs of stirring this week. The 1934-P, 1935-P and 1935-D rolls were higher this week. Two dealers are currently running lengthy buy lists. The Flying Eagle cent increased \$25 again this week (bid is now \$600) in choice MS-65 condition.

NICKELS: Once again several of the Buffalo rolls are higher this week. A few of the Jefferson rolls drifted lower while the 1943-D roll edged up slightly. The Jefferson market does appear to be firmer as several dealers are running extensive buy lists. The scarce (in MS-65 condition) Shield nickel was up \$25 to \$300 bid.

DIMES: The 1934-39 BU Mercury rolls are red hot!!! Even with weekly bid increases, transactions are very scattered. For the later Mercury rolls the "bargain hunters" are decreasing the spread between their buy offers and current bid. Offerings of these issues are few and far between. The common P-mints edged up five bucks a roll to \$265. The BU Roosevelt market is one of the few areas where demand is thin.

QUARTERS: Once again the early (1932-40) Washingtons showed significant gains while demand for the 1941-64 issues remained virtually non-existent. Both "no motto" and "with motto" Liberty Seated quarters were bid higher in MS-65 condition along with Barber quarters and full head Type II Standing Liberties.

HALF DOLLARS: Walking Liberty halves are still smoking!!! Bids for the earlier 1934-39 issues were pushed higher again this week. Bidders for the later 1940-47 issues have resorted to the "pay bid or quote" tactic. Actual sales at above current ask are becoming numerous. Franklins received another substantial push again this week. Check the gains on page three!!

DOLLARS: Another rash of plus sign cover the BU dollar charts! Again attention seems focused on the scarcer dates in MS-65 condition:

1879CC and 1893CC - Both wanted at \$2900

1884S - None around at the new bid of \$8750

1886O - A few offered but sellers want a lot more than the new bid of \$3000

1889CC - It's been months since this highly desirable date has been offered. New MS-65 bid is \$11,000

1893O - Bid now \$5000 and offers as high as \$6500 were noted

1894P - Up again this week. Now bid \$4500

1895O - MS-65 bid is \$12,000 and one dealer is currently offering \$20,000 for a MS-65 plus "Wonder Gem"

1896O and 1897O - These scarce O-mints remain unavailable even though bid moved to \$5000 and \$3500 respectively

1901P - Bid now \$6500. One dealer had a superb gem for sale at a recent coin show, the price—\$20,000!!!

PROOF SETS and MINT SETS: All of the 1936 to 1964 silver issues are in strong demand with numerous increases (see page six). The 1973 mint set is bid higher again this week (now \$38). The 1970 mint set has apparently leveled off at the current bid of \$31.

U.S. GOLD (Prices are for the most common date of each type.) Bullion related gold coins in this issue are figured on a basis of gold at \$281.70 per ounce.

COMMEMS, WALKING LIBERTIES & DOLLAR ROLLS EXPLODE! All Three Areas Soar As Bidders Crowd Teletype Circuits

The Market in Depth

ALLEN HARRIMAN

Bid levels for BU Morgan rolls continue to advance impressively as numerous quantity bidders tumble over one another in their attempts to buy! Single rolls--lots--or bags are wanted as bidders outnumber sellers by ten to one or so. "Solid date original bags" of 1883-O, 84-O or 85-O are bid as much as \$21,750 (\$435 per roll)--with single rolls or small lots now receiving bids of \$425 per roll. The most often available pre-1921 P-mints (1885/86/87) are bid as high as \$22,500 per original bag (\$450)--again with single rolls or smaller quantities wanted at \$440 per.

The "common date" San Francisco issues have fared at least equally as well. Several bidders will take "any" S-mint roll in the \$620/\$630 range (with one dealer offering as much as \$645 for a few rolls)--and again bag quantities are needed. The "plentiful" 1921-P Morgan roll has moved to \$310 bid and at least one major buyer is now willing to pay \$17,000 for bags (\$340 per roll)--again, "original", not "put together" bags.

It should also be pointed out that there are bidders for "strictly choice" dollar rolls--and they are willing to pay well over even this week's advanced levels to get them! Examples of current bids for rolls which fit this description (probably an average of MS-60+ or so); 1879-P \$950, 1880-P \$875, 1881/82-O \$675, 1881-P, 1882-P, 1883-P and 1889-P \$725, 1884-P \$1400, 1890-P \$1225, 1897-P \$1250, 1900-P & O \$650 and 1901-O \$1150! Such "choice" rolls, by the way, are not as easy to locate as they once were. A large portion of the rolls now traded usually grade in the MS-60/60+ range--having changed hands numerous times during recent years and the nicer examples having been removed for single sales or to make up a few "handpicked" rolls. This applies particularly to the early P-mints (1878-84) and to those issues which are not generally top quality strikes (1881/82-O, 1888-P & O, 1890-P, etc.)

The remainder of the BU roll market is being dominated to a great extent by the half dollars. Demand for all of the 1934-47 Walking Liberty rolls and singles is extremely high--with what may well be a record twenty-nine plus signs this week! It is important to mention that (as noted at the top of the page two chart) fully struck and choice S-mint W.L. rolls are worth more than the recorded bids for typical rolls. For example, a couple of serious bidders will pay at least the following for well struck rolls: 1941-S \$3600, 1942-S \$2250, 1943-S \$1400, 1944-S \$1300, and 1945/46-S \$1200! (Gem singles will bring even more than these prices prorated.)

The late Franklins (1957-63)--along with many of the Kennedy rolls--have strongly joined the action in earlier halves with substantial gains this week. Again, quantities are wanted and sellers are very few and far between (those few which are encountered usually keep price tags at levels well ahead of the market). Check page three!

And take a look at the silver and gold commem charts! Virtually every issue is enjoying a substantial gain this week and two or three major buyers are now in the market for "quantities of all issues in MS-65 condition". It is interesting to note how few top quality commemoratives have been listed for sale during recent months. A common dealer complaint is that the vast majority of pieces now offered for sale over the teletype circuits or at conventions are MS-60 or MS-60+ at best (regardless of the accompanying description). Properly graded choice (not to mention gem) specimens seem to have all but disappeared!

PLEASE NOTE that one of those unavoidable typographical errors crept into last week's June MONTHLY SUMMARY. The "full head" 1918-S quarter is bid at \$1300 (not \$3000); it will be corrected in the July issue.

This Week's Market

CENTS: One or two dealers are in the market for a few specific dates in the Lincoln group--raising bids slightly for scattered issues and requesting, of course, choice rolls only. ("Choice" rolls, by the way, in the Lincoln series can be quite elusive--as many have toning, spots or fingerprints. Buyers in this area--as in all others--should be quality-conscious.)

NICKELS: Four of the tougher Buffalo rolls in the 1934-38 "short set" are up again: 1934-D \$2450, 1935-D \$1800 (this one is almost invariable weak or "average" at best--fully struck MS-65 singles are bid at \$115), 1935-S \$1350 and 1936-D \$950. Again, one or two bidders have raised bid levels for several Jeffersons--asking for "one to ten" rolls with "confirmation first". Several other "out of favor" dates are being offered in quantity at lower prices. The vast majority of dealers, however, are concentrating on other areas of the market.

DIMES: Plus signs are numerous for the 1934-39 Mercury rolls and singles; these new higher bids are for strictly MS-65 coins--but not for "full bands" specimens. Quantities are wanted. A few small losses have been registered by the Roosevelts--with one dealer offering "investment lots" of one hundred or so rolls of 1953/54/55-S at slightly lower prices (the 55-S's sold immediately at \$47).

QUARTERS: A few Washington rolls are a bit higher--and a few are a bit lower this week. Only a couple of dealers are currently running an occasional buying list in this area--and, in fact, there are also very few sellers. The recently "hot" 1946-D roll seems to be around now--with at least one ten roll lot and several individual rolls available. The pre-1941 singles are still in demand--with the elusive (in MS-65) 1932-S moving to \$1050 bid!

HALVES: And the Walking Liberties continue to soar! Bid for the "common date" P-mint rolls (1941-45) has jumped to a very strong \$825 (up \$125 this week) with anxious bidders offering even greater advances for a number of the tougher rolls in the 1941-47 "short set" group. Larger quantities of all dates--including the following earlier issues: 1934-P thru 1937-P, 1939-PDS and 1940-PS are wanted. It should be noted that the twenty 1941-47 rolls are bid individually at a total of \$22,825 this week--while one or two optimistic potential buyers are now offering to pay \$21,500 for an already assembled roll set.

The later Franklins and the Kennedy rolls are also getting in on the action--see "The Market in Depth" as well as page three!

DOLLARS: Every Morgan dollar roll included on the page six chart has registered another gain this week--many quite substantial! Up to bag quantities of most issues are needed by several dealers (see "The Market in Depth"). Advances are also numerous once again across the MS-60 and MS-65 singles columns--and the minimum bid for VG circ singles is now a strong \$9.40 (with one dealer offering as much as \$9600 for one VG/better bag)!

PROOF SETS and MINT SETS: Except for minor advances for the 1940-42 sets (along with continued regular requests for the 1936-39 issues at "bid"), levels for the remainder of the proof set lineup are nearly unchanged this week. A few later dates are slightly lower in a bit of profit-taking. Trading is light to moderate--with most dates available in quantity at around "ask". The occasional bargain-hunter usually goes empty-handed (unless someone ships a lot of less-than-choice sets). The 1965-67 "special mint sets" are slightly higher again; quantities are wanted.

COMMEMORATIVES: Choice BU (MS-65) sets are now bid as follows: fifty piece silver "type" set - \$13,000; complete 144-pc. silver set - \$25,000 and the eleven piece gold set at \$13,500. Further details in "The Market in Depth".

U.S. GOLD: (Prices are for the most common date of each type.) Bullion related gold coins in this issue are figured on a basis of gold at \$277.40 per ounce.

PRICES UP ANOTHER NOTCH; BIDDERS DOMINATE MARKET Proper Grading Is "Crucial" When Buying Silver Dollars—See Comments!

The Market in Depth

ALLEN HARRIMAN

As bid levels for "strictly MS-65" silver dollars soar higher and higher---and as the spread between price ranges for MS-60 and MS-65 grows ever greater---GRADING becomes more and more CRUCIAL. Many of the very scarce and rare dates which are receiving today's extremely impressive bids seldom (if not rarely) trade in true MS-65 or better condition. This is so in spite of the numerous retail ads, wholesale price lists (and teletype messages) which often include "MS-65" examples! And now, in addition, strict grading is being more carefully applied to most of those dates which used to be "roll dates" and for which the various standards for uncirculated were seldom considered.

Examples of these two categories are, first, the 1925-S---and, second, the 1890-P. Frankly, it takes quite a 1925-S to command this week's higher bid of \$650---with the vast majority of extant pieces ranging at the MS-60/63 end of the scale. It should be obvious, therefore, that one should be very careful indeed when buying a coin for which the "spread" is so great. Accepting an MS-63 coin is not "close enough" when it comes time to sell! The 1890-P was a "common date" roll (or just a bit better) not too long ago. Today, properly graded MS-65 specimens are bid at \$100 each with the prorated roll price at only \$35. This reflects the fact that few if any strictly graded MS-65's are to be found in the rolls which now change hands---and, thus, that one cannot necessarily pull out the two or three nicest coins in a roll and expect to sell them for \$100 or so (because this has already been done)!

What all of the above boils down to, simply stated, is that anyone who is buying silver dollars should know how to grade them! Those dealers who are paying current bid prices (and more) grade very carefully and conservatively; they do not pay MS-65 prices for MS-63 coins. And neither does the astute collector or investor!

Those bidders who are interested in locating "a few" choice or gem proof "stars obverse" half dimes and dimes are finding that buying even a single properly graded specimen at or near current bid levels can be quite a task. Even though bids are already substantially higher than for the later "legend obverse" varieties, the total number of available "common date" pieces of each is estimated to be less than two hundred---in all grades! The phrase "common date" refers to the 1856-59 proofs---which are the years for which proof mintages increased from just a few to possibly as many fifty or seventy-five coins. (It was in 1858 that the Mint began to sell proof sets to the general public.) Actual mintage figures are apparently not available; only estimates for the pre-1860 proofs are given by Walter Breen in his "Encyclopedia of U.S. and Colonial Proof Coins". The surviving number of choice (not to mention gem) specimens is obviously far fewer than two hundred---considering all the problems that these coins have experienced during the past one hundred and twenty years! Therefore, it should not be at all surprising that today's bids of \$600 and \$800 respectively for "stars obverse" proof half dimes and dimes are ineffective to say the least!

By the way, the "no motto" quarters and half dollars are far more plentiful in relation to the "with motto" varieties than are the two comparable varieties of the smaller denominations. The change in design for the quarters and halves occurred in 1866---giving the Mint a chance to produce a substantially larger number of the earlier varieties. Still, of course, these "no motto" pieces are tougher to locate than the "with motto"---particularly specimens which do not exhibit "handling" and other kinds of defects.

This Week's Market

CENTS: Except for an occasional and abbreviated "want list", the Lincoln series remains very quiet. Again one bidder has edged bid levels just slightly higher for scattered dates; recorded transactions are few and far between.

NICKELS: The scarcer Buffalo rolls in the 1934-38 "short set" are still in demand---but bid levels are undisturbed this week. However, several issues in the Jefferson series are eluding the few buyers who are currently interested---among them: 1938-S (\$265), the really tough 1939-S (\$1150), 1942-D (\$565) and 1943-P & S, 1944-S and 1945-P in the wartime group (see page three).

Current (and still almost totally unsuccessful) bids for the scarce circ 1879-89 three-cent nickels are as follow:

	Good	VG	Fine	VF	XF
1879	\$ 26	\$ 29	\$ 34	\$ 40	\$ 50
1880	33	36	41	51	61
1882	27	30	38	50	60
1883	50	60	70	80	90
1884	60	70	80	90	110
1885	77	87	105	125	137
1886	77	87	105	113	150
1887	75	83	90	100	115
1888	27	30	33	35	38
1889	33	37	42	48	54

DIMES: The Mercury dime series seems to be on the move once again! Nearly every date in the 1934-40 group is higher again this week and even the later "common dates" have edged up to \$275 bid. (As mentioned last week, these bids are for choice MS-65 coins---but not for "full bands" specimens.) Again this week a few Roosevelt rolls have been offered at lower prices by one dealer: 1948-P (\$185-\$200), 1951-S (\$720-\$770), 1953-S (\$66-\$70), 1954-S (\$68-\$72) and 1955-P (\$78-\$83). Choice MS-65 Barber dimes have moved to \$335 bid.

QUARTERS: The key 1932-D Washington is still eluding potential buyers---even at this week's impressive higher bid of \$2300! Among the rolls, interest remains high for all of the pre-1941 issues---with prices lightly mixed for the "short set" dates. By the way, the complete 1932-64 single set cannot be located at current bid of \$6750---at least, not without a sprinkling of "sliders".

HALVES: All of the 1934-39 P-mint Walkers are higher once again---along with a number of the 1941-47 rolls. However, this week's plus signs do not adequately reflect current demand; many buyers prefer not to raise bids levels---while trying to buy over the telephone and through other connections. The very elusive 1949-S Franklin roll has moved to \$2200 bid; the later rolls (1955-63) continue to enjoy strong demand. Choice MS-65 Barber halves are now bid at an even \$1000!

DOLLARS: Several of the more elusive circ dates are bid at higher levels this week; circ bags seem to have levelled for a change at around \$9400. As usual, a substantial number of gains are peppered across the MS-60, MS-65 and BU roll charts. Please note the comments re grading in "The Market in Depth" column. The Eisenhower series is strong---with the "blues" and "browns" still moving ahead---check page six!

PROOF SETS and MINT SETS: The minimum bid for the early sets is now \$500---with even this bid producing very few 1941 or 1942 sets. A few gains are noted in the 1954-59 group and a few small losses for the 1961-74 issues. (Even though one bidder seems to be selling the 1961-63 sets at \$7.70, strong bidding is nonetheless registered at \$7.85.)

COMMEMORATIVES: Even though advances are only moderate this week, virtually all dealers are "out of stock" on commems---and buying MS-65 specimens is very difficult. (As with the "hot" Walking Liberty halves, many dealers are trying to locate commems as quietly as possible---with questionable success.)

U.S. GOLD: (Prices are for the most common date of each type.) Bullion related gold coins in this issue are figured on a basis of gold at \$283.50 per ounce.

THE COIN DEALER NEWSLETTER

reports the national coin market on a weekly basis. Under the present system, it is impossible to monitor all transactions of offers to buy and sell, but the broad information sources of the Newsletter make it a very accurate reflection of the market.

INVESTORS NOTE: the prices in the Newsletter are from dealer-to-dealer transactions. As an investor, you may place your buy and sell orders through a dealer for a fee, as you would buy stock through a broker.

ADVERTISING RATES:

\$12.00 per column inch; four consecutive ads (no changes) - 10% discount.

Advertising space is limited; ads will be placed in first possible edition.

SILVER COMMEMS SCORE MAJOR GAINS 1979-S Proof Sets & Anthony Dollars Hit Teletype Circuits

The Market in Depth

ALLEN HARRIMAN

From all indications, dealers' stocks of silver commemoratives are now at an all-time low. Teletype buying lists abound—while selling lists (of MS-65 specimens) are now all but nonexistent! Reflecting most dealer's scant inventory—and serious need of resupply—bid levels have advanced impressively this week for a vast majority of the issues. (Still lagging behind are some of the more expensive PDS sets along with the BTW and W-C sets. It should be pointed out, however, that there is definitely quantity buying interest in these also.)

Among this week's major "gainers" are: Alabama 2x2 (up \$45 at \$515 bid), Alabama (up \$40—bid now \$350), Antietam (bid \$315—up \$35), Cincinnati PDS set (up \$75 at \$900 bid), Delaware and Gettysburg (both up \$25 at \$215 and \$255 respectively), Hudson (bid now \$625—up \$50), both Missouri issues (up \$75 each at \$900 and \$875), Norfolk (up \$40 at \$310 bid), Spanish Trail (bid now \$725—up \$75) and so on—and on! (Check page two carefully.)

Figuring each coin individually, bid for the fifty-piece type set of commems has moved from last week's \$13,697 to this week's \$14,589—an overall increase of about 7% in a single week! It is interesting to note, by the way, that very few bidders are currently in the market for MS-60 examples—and just how substantial the "spreads" between the MS-60 and MS-65 bid levels are becoming. Remember when the differences in price for the two grades were as little as 5%-10% to not much more than 25% for most issues? In today's quality-conscious market—with virtually all dealers, collectors and investors concentrating on "choice" and/or "gem" specimens—the spreads are now more or less in line with other areas of the market.

The 1979-S "Anthony" proof set has now hit the teletype circuits—along with the scheduled release of circulation strike dollars from all three mints. During the initial day or so of trading, the proof sets were offered at prices ranging as high as \$20. As we go to press, quantities are appearing on the various circuits in the \$13 area. (Bids are as yet too sporadic to pinpoint; these should level out by next week.) The PDS circulation strikes are being listed for sale in the \$11.50-\$12.50 range—with many dealers "trading" lots from the three mints to equalize their stock. (New charts will be ready for next week's issue.)

Steady increases in the Eisenhower series have been recorded for some weeks now—and this week is no exception. Topping "want lists," of course, are the 40% silver BU and proof specimens (often referred to as "blues" and "browns")—along with the low mintage "mint set only" clad 1973-P & D's. Bid for the already assembled roll set has now moved to \$5500—with sellers keeping price tags somewhat ahead of the increasing bid level. (Bids for the thirty-two rolls separately total \$5762.)

general, remains very light and scattered. Flying Eagle cents have moved to \$650, copper-nickel cents to \$195, Indians to \$68 and two-cent pieces to \$300—all in strict MS-65 condition, of course!

NICKELS: Further increases have been registered by the elusive 1934-PD, 1935-DS and 1936-D Buffalo rolls. Only the 1937-PDS and 1938-D rolls seem available at this time. Action in the Jefferson series is being led by strong demand (from several bidders) for the scarce 1939-S roll—with bid now \$1400 (up \$250). The wartime issues are also still popular—with seven of the eleven sporting plus signs this week. (Bid for the complete 1942-45 "silver" roll set has moved to \$1815—still well under the \$1936 being offered for the rolls individually.)

DIMES: Advances are once again scattered across the 1934-45 Mercury issues; "common date" P-mint rolls are now difficult to locate at a steady \$275 bid. Prices are lightly mixed in the Roosevelt group—with more dates now being listed for sale within current bid-ask ranges.

QUARTERS: A few really tough early Washington rolls have appeared on the teletype circuits this week: 1936-S at about \$10,000, 1938-S at \$7400, 1939-S at \$7000 and 1940-D at \$7000. The key 1932-D remains almost totally unavailable at the current bid of \$2300 and both the 1932-S and 1936-D are extremely hard to corner at \$1050 and \$725 respectively. A number of the 1941-53 Washington rolls are now being listed for sale—a few at slightly lower levels.

HALVES: Bid for "common date" P-mint Walking Liberty rolls is now a strong \$900(!) and a number of the other issues in the 1934-47 group have also moved higher. (This \$900 figure puts several mintmarked issues very near the common date level—with most bidders obviously not wishing to disturb bid levels; they simply ask for "quotes".) Along with all of the 1955-63 Franklins, the key 1949-S roll and the 1949-D have advanced again this week; minimum bid for "any" Franklin roll is now \$91—with bag quantities wanted. The Kennedy series, by the way, is also enjoying a share of attention—see page three.

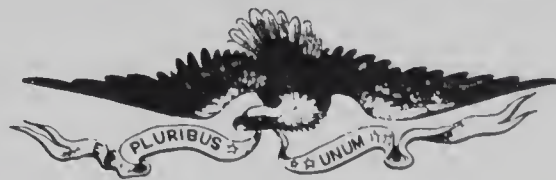

DOLLARS: Bid levels continue to soar across the silver dollar charts—with the usual emphasis on strict MS-65 specimens. Please refer to the comments about grading in last week's "The Market in Depth" column—they are **IMPORTANT** to everyone who is involved in this area of the market!

PROOF SETS and MINT SETS: A majority of the 1936-55 issues are on the plus side of the ledger this week—with quantity buyers locating only a few sets here and there. Many of the 1961-77 sets, on the other hand, are slightly lower in quantity offerings. A number of the 1946-58 "double" mint sets—along with the three "special" sets (1965-67)—have registered further gains this week.

COMMEMORATIVES: The complete eleven-piece gold commem set is now receiving bids of an even \$15,000—up \$1500 in a single week! All of the individual issues have advanced also—but they still total only \$13,620 bid when figured separately. See comments in "The Market in Depth" about the silver issues.

This Week's Market

CENTS: A few Lincoln rolls are being plucked from the occasional selling lists—and one bidder has edged prices higher for a few issues. Trading, in

U.S. GOLD: (Prices are for the most common date of each type.) Bullion related gold coins in this issue are figured on a basis of gold at \$291.50 per ounce.

GOLD & SILVER REACH RECORD HIGHS; MARKET SOARS

Proof Type Coins Score Major Gains During Past Six Months

The Market in Depth

ALLEN HARRIMAN

During the first half of 1979, silver dollar and BU roll activity has more or less over-shadowed several other nonetheless active areas of the market. Among them, proof type coins. However, bid levels for most proofs have been advancing steadily during the past six months--and the gains recorded in numerous instances may well be far more substantial than generally thought. The following chart lists the early January bids and those currently in effect--with the percentage gains for each type in strict MS-65 condition:

	BID JAN '79	CURRENT BID	% GAIN
Flying Eagle Cents	\$ 2300	\$ 2300	0%

In addition to the obvious "lagers" in the copper group, the other types which have registered the smallest advances are those issues which are usually the toughest to locate. These include the type II and III Three-cent silver pieces, the "stars obverse" Seated Liberty half dimes and dimes along with all three of the 1873-74 "arrows" versions. Bidders who are interested in these scarce issues often ask for "quotes" rather than disturb bid levels--and the occasional selling lists rarely includes these more elusive proofs.

These bids, as mentioned, are for strictly MS-65 specimens. According to the Official A.N.A. Grading Standards, the Proof-65 coin "may show some very fine hairlines, usually from friction-type cleaning or friction-type drying or rubbing after dipping. To the unaided eye, a Proof-65 will appear to be virtually perfect. However, 5x magnification will reveal some minute hairlines." Bidders at current levels definitely adhere to these standards!

Please note that, as we go to press, several last minute gains have been registered which do not appear in the enclosed July MONTHLY SUMMARY (which was printed one day earlier). This is especially true for the later date Mercury

dimes; it is recommended that both issues be checked on this and other material which is covered in both publications.

This Week's Market

CENTS: Minor changes in both directions have been recorded for a few dates in the Lincoln series; only one or two bidders continue to ask for more than an occasional roll or two. Mild interest in two-cent pieces has moved bid to \$310 for strict MS-65 specimens.

NICKELS: Once again the 1939-S Jefferson roll has dominated moderate activity in the Jefferson series--this week with an impressive bid of \$1650 (advancing to this level from a January bid of only \$500!) The wartime rolls are also perking along nicely--with ten of the eleven dates carrying plus signs this week and with the already assembled BU roll set now bid at \$1850 (the individual roll bids total \$2009).

DIMES: Another very strong round of gains is in force for the 1934-40 Mercury dimes. These higher bids (for both rolls and singles) are for MS-65/better coins, but not for "full bands" pieces. (The FB's are covered in each MONTHLY SUMMARY issue.) By the way, the "impossible" 1934-45 BU roll set is now bid at \$70,000! The Roosevelt series continues to receive a moderate amount of attention--with the 1946-P, 1953-D & S, 1954-S, 1956-D and 1957-D all wanted in quantity.

QUARTERS: The 1934-P Washington roll has advanced to \$1100 bid--and the 1935-36-37 and 39-P rolls are each bid now at an even \$1000. None of these five early P-mint rolls are being listed for sale. Prices are mixed among the 1941-55 issues--with some dates rather elusive and others experiencing a bit of profit-taking. In "type", the MS-60 Seated Liberty and Barber issues have all registered increases this week (check page four for the changes in all denominations).

HALVES: The 1934-40 Walking Liberty rolls and singles continue to elude virtually all bidders. (It might be mentioned that a frequently heard buyer complaint is that today's higher bids seem "to have brought out an awful lot of super-sliders".) The 1941-47 mintmarked rolls have all moved ahead this week as at least one bidder has tired of trying to locate these rolls without disturbing bid levels. The "short" BU roll set, it should be added, is now bid at \$25,000. Again, the later Franklins have almost all edged higher--with common date bags bid in quantity at \$9200.

DOLLARS: Several of the real "stoppers" have again received higher (and as yet totally ineffective) bids in very strict MS-65 condition: 1893-O \$6250, 1894-O \$5500, 1895-O \$14,000, 1897-O \$4000 and 1934-S \$5750. Numerous bidders also want quantities of "properly graded" MS-60 specimens in both series--and they have raised many bid levels in their attempts to get them--see page six.

PROOF SETS and MINT SETS: Interest in the 1936-55 proof sets remains quite strong (particularly for the now advancing 1950-55 issues); the 1956-60 sets are firm at current levels and the 1961-78 group is rather easily located in quantity within present bid-ask ranges. The newly released 1979-S "Anthony" set has more or less settled into a fairly narrow \$12-\$13 trading range this week (although some bidders offer only \$10 or so and a few sellers want as much as \$15).

Most of the "silver" mint sets (1946-64) are higher this week--several considerably higher. It is interesting to note that, for many dates, bid levels remain somewhat below the prorated bids for the coins involved (and that for one--the 1953--bid is well over).

COMMEMORATIVES: Virtually all of the silver "type" issues have once again shown substantial increases in all but futile quantity bidding. Quality, of course, is all important as bid levels advance; current bidders will not accept MS-60/60+ examples at today's record prices. The eleven gold commems, by the way, remain strong in spite of the fact that bid levels are unchanged this week; the complete set is still eluding frequent bids of \$15,000!

U.S. GOLD: (Prices are for the most common data of each type.) Bullion related gold coins in this issue are figured on a basis of gold at \$300.60 per ounce.

THE COIN DEALER NEWSLETTER

reports the national coin market on a weekly basis. Under the present system, it is impossible to monitor all transactions of offers to buy and sell, but the broad information sources of the Newsletter make it a very accurate reflection of the market.

INVESTORS NOTE: the prices in the Newsletter are from dealer-to-dealer transactions. As an investor, you may place your buy and sell orders through a dealer for a fee, as you would buy stock through a broker.

ADVERTISING RATES:

\$12.00 per column inch; four consecutive ads (no changes) - 10% discount.

Advertising space is limited; ads will be placed in first possible edition.

TYPE COINS SCORE MAJOR GAINS AS A.N.A. CONVENTION BEGINS Morgan Varieties Added To Silver Dollar Chart; Other Additions Inaugurated

The Market in Depth

ALLEN HARRIMAN

Type coins have enjoyed a major share of bidder attention during this pre-convention week. While preparing for the 1979 A.N.A. Convention in St. Louis, several dealers have had time to run lengthy buying lists covering both BU and proof "type"—in both the MS-60 and MS-65 categories. Transactions, however, have been disappointingly few and far between. Those dealers who have such material in stock are saving it for the "big show"—or, if they are not planning to attend, they usually find that over-the-counter or other retail sales keep their stocks at a minimum level. By the way, several major auctions have been and will be conducted between July 20th and August 1st. An amazing array of choice and rare coins are being offered at these auctions and most dealers consider that the prices realized will be a "bellwether" for the coming months. Preliminary reports from the earlier auction sessions continue to reflect extremely impressive prices for outstanding coins!

This demand for type coins has not diminished bidder interest in other areas of the market. From the very strong interest in "dated" (as well as "type") gold coins thru the usual strong demand for silver dollars, market activity remains at an all-time high. Both the silver and gold commem charts are once again peppered with plus signs—with, again, an almost complete absence of sellers. The BU roll market continues to be dominated by demand for Buffalo, Mercury and Walking Liberty rolls—along with strong interest for virtually all of the earlier Washingtons. And better date circ dollars are cornering a noticeable share of teletype bidding time as investors attempt to locate quantities of their favorite issues. In fact, the only area which currently reflects a minimum of demand is circulated type coins. It has been quite a while now since regular bidding has been recorded for circ type. However, it might be added that bid-ask prices across the page four chart have remained surprisingly firm during this more or less "out of favor" period—with an occasional small advance noted from time to time. A new awakening in this area would not be entirely unexpected—particularly for the still reasonably priced (and quite scarce) early material.

Readers will note that several additions have been incorporated into this week's CDN. Most important among them is the inclusion of eight of the most popular and frequently traded Morgan dollar varieties. The page six dollar chart will now regularly carry bid-ask prices for the 1878-7f coin with the "reverse of 1879" (round breast), both the 1879-S and 1880-CC with the reverse of 1878 (flat breast), the 1880-O (8/7) and the 1880/9-S—along with both the P-mint and O-mint versions of the 1887/6 overdate and, finally, the scarce 1900-O/CC. Actual trading levels have been rather difficult to pinpoint—but bid and ask levels will almost certainly adjust quickly with the addition of these coins to our regular weekly coverage. Several dates which are now edging out of the strictly "common date" category have been added to the page five circulated dollar chart—and, of course, an entirely new section for the newly released Anthony dollars will now be found on page six. (By the way, prices reported for SBA dollars are for \$20 rolls; there has been some confusion at this early stage as rolls of \$20, \$25 and even \$40 face value have been listed at various times.)

This Week's Market

CENTS: Copper type coins have registered almost across-the-board advances this week in both MS-60 and MS-65 condition. Properly graded defect-free MS-65 examples are particularly elusive in today's quality-conscious market—and

it should be added that superb "full red" (MS-65/70) specimens now often bring "runaway" prices when offered at major auctions! Trading in Lincoln rolls remains very light and price movements are minimal.

NICKELS: Activity in nickel rolls continues to center mainly around the eleven wartime issues (with the complete BU roll set now bid at an even \$2000) and the still soaring 1939-S roll (bid now at \$1900—with one dealer willing to pay "at least \$2000" for choice rolls). Several additional gains have been noted for the Buffalos and pre-wartime Jeffersons—along with scattered losses for a few of the later dates.

In "type", proof three-cent and five-cent pieces are enjoying strong bidder attention and higher bid levels.

DIMES: The 1934-40 Mercuries continue to set record price levels in quantity bidding—with practically every issue in this group once again carrying a plus sign. In addition, the late P-mint rolls are now all bid at a higher \$300; up to "bag quantities" are wanted! In the Roosevelt series, a bit of profit-taking has slightly lowered the 1949-S roll (now \$2150-\$2300); quantity buyers remain interested in 1946-P, 1953-D & S, 1954-S, 1955-P, 1956D and 1957-D—with the remainder of the series relatively quiet at present levels.

Seated Liberty and Barber material in proof condition is in demand—at higher prices—check page four!

QUARTERS: At mostly unchanged bid levels the pre-1941 Washington rolls continue to elude virtually all bidders. The "key" singles (such as 1932-D & S, 1934-D and 1936-D) are seldom available—especially in strictly graded MS-65/better condition; small gains have been recorded for 1932-P, 1936-D, 1938-P and 1939-D. Changes are minor among the 1941-64 rolls—with numerous dates now available within current bid-ask ranges.

Several advances have been noted this week for both BU and proof type quarters—in both MS-60 and MS-65; again, see page four for these and other important changes in the very strong type coin market!

HALVES: The "Walkers" are now completely dominating this area of the market! From the tough rolls and singles in the 1934-40 group thru the various 1941-47 "short set" rolls, prices are moving strongly ahead—and sellers, for the most part, are enjoying the action from the sidelines. In the Franklin series, attention continues to be directed mostly toward the later dates (although gains have also been noted this week for 1948-P, 1949-S, 1951-P and 1953-P).

DOLLARS: Another strong round of gains has been registered by both the Morgan and Peace dollar rolls this week. It should be mentioned that, although bidders do not expect full MS-65 rolls, they also do not want "put together" rolls of super-sliders and barely MS-60 coins. (Note that prices reported are for "typical rolls" of the dates involved—which means, for instance, that the early S-mint rolls will tend to be superior to such rolls as 1888-O or 1890.) The usual substantial number of advances has been recorded by the MS-60 and MS-65 singles—see page six! The Eisenhowers, by the way, are perking along nicely—with the 1972-74 "blues" (40% silver BU) now bid in quantity at \$12.50 each and the "browns" from the same years bid at \$25, \$83 and \$32 respectively.

PROOF SETS and MINT SETS: Interest from several sources has moved bid levels ahead for the 1950-55 sets; quantities are needed. Prices are lightly mixed for the later issues—with the 1979-S set now in a higher \$13-\$14 range.

COMMEMORATIVES: Orderly bidding has once again advanced bid prices forward for a majority of the MS-65 silver issues—and for all eleven gold issues in both MS-60 and MS-65 condition. (It should be noted that there are also buyers of the silver commems in XF/AU and MS-60—but still basically at current bid levels.)

U.S. GOLD: (Prices are for the most common date of each type.) Bullion related gold coins in this issue are figured on a basis of gold at \$304.60 per ounce.

1979 A.N.A. CONVENTION "HIGHLY SUCCESSFUL" Premiums For MS-65 Silver Commems Widen As Strong Demand Continues

The Market in Depth

ALLEN HARRIMAN

Reports from the still-in-progress 1979 A.N.A. Convention in St. Louis indicate that this show of shows is "the most fabulous ever". The scramble for outstanding coins, according to one major dealer, "is something to behold"! A few examples of auction results give credence to this statement. First, of course, is the famed 1787 Brasher Gold "Doubloon" which realized \$430,000 during the third session of "Auction '79" (one of the numismatic world's most impressive-ever auctions conducted jointly by Paramount, Stack's, Rarcoa and Superior Coin Companies). It is truly impossible to give an idea of the scope of this--and the A.N.A. Auction itself (which was conducted by New England Rare Coin Auctions)--but a few more examples are (from "Auction '79"): Morgan dollars - 1879-O branch mint proof - \$14,500, 1892-S fully prooflike superb gem - \$31,000, 1893-CC another branch mint proof - \$39,000, 1894 superb gem proof - \$9500; Peace dollars - 1924-S another superb gem - \$1250 and 1925-S also a superb gem - \$1550!

Several "original rolls" were also offered--with the following results: 1907 Indian cents - \$4250 (\$85 per coin), 1914-P Barber dimes - \$25,000 (\$500 per coin), 1916-D Barber quarters - \$32,000 (\$800 per coin) and 1919-P Standing Liberty quarters "mostly full heads" - \$34,000 (\$850 per coin)!!

In the New England auction, an 1807 Draped Bust quarter in MS-65 condition fetched \$17,000 and a "wonder coin" 1899-P BU Morgan dollar in "MS-69, full strike, cameo-prooflike" condition sold for \$3150! This list of phenomenal prices realized by choice and gem coins in all series goes on and on--and, from all reports, the bourse "floor action" is proving to be equally as amazing.

In spite of the fact that many of the major commem buyers are attending the '79 A.N.A. Convention--and thus far fewer teletype "want lists" are being monitored this week--plus signs are nonetheless liberally scattered across the page two chart. Those who have been keeping an eye on this area of the market are well aware that it is in the MS-65 category that bid levels have setting record after record during this current upswing--nearly to the exclusion of XF/AU and MS-60 specimens. (It should be noted here that there are a few dealers who do want these lower grade commems--but, in general, they are sticking with present price levels or they are simply asking for "quotes".)

There was a time--not very long ago--when the premium for MS-65 over MS-60 commems was very minor indeed. In fact, the impressive premiums for strictly MS-65 examples is really quite recent as the following chart will show (the "bids" quoted are the totals of the individual bids for the 144 coins in the complete set):

July, 1977	MS-60	BID	\$10,364	18% premium
	MS-65	BID	\$12,257

Of course, the premiums being offered for specific "tough" issues is far greater than those for the more readily available ones. Such issues as the Lafayette dollar, the two Alabamas, California, Grant with star, Panama-Pacific--to name just a few--now command from 100% to 150% premium in

the truly elusive full MS-65 condition! (By the way, it might be mentioned that a limited number of CDN back issues are available at two dollars each for those who are doing price research in this or other areas.)

This Week's Market

CENTS: This week's scattered and minor changes (in both directions) are mainly the result of one dealer's interest--otherwise, Lincoln rolls remain more or less in the background of current teletype trading.

NICKELS: Buffalo rolls are unchanged this week--with the following higher bids registered by the earlier Jeffersons: 1938-S - \$290, the tough 1939-S - \$1975, 1941-D & S - \$90 and \$110 respectively, 1942-D \$610 and the mid-series 1951-S - \$190 (several sales noted at \$200); a few losses have also been recorded in the 1946-52 group.

DIMES: The total absence of changes in the Mercury series--along with the virtually unchanged Roosevelts--is due, of course, to the fact that most of the regular bidders in this and other areas are away from the teletype circuits during this A.N.A. week (most of this week's TT messages are mostly "reruns" of those previously recorded). It should be mentioned that the 1946-64 Roosevelt roll set has moved to \$8600 bid.

QUARTERS: A few Washington rolls are a bit lower this week--1942-P, 1945-P, 1946-S, 1948-P, 1950-D and 1953-S; in contrast, three issues are wanted in quantity at higher prices--1946-D (back up to \$565 bid), 1951-P and 1952-D.

HALVES: The Walking Liberty rolls have fared rather well in spite of this week's understandably slow teletype trading--with the late "common" P-mint rolls moving to \$925 bid and the various "short set" mintmarked issues advancing commensurately. The complete 1941-47 BU roll set, by the way, has advanced strongly to \$28,000 bid--single sets have changed hands for as much as \$1450!

DOLLARS: For a quiet teletype week, silver dollars have registered a fairly substantial number of increases--with particular emphasis upon the reasonably priced MS-60 Peace dollars ("super-sliders" will not pass the buyers' scrutiny). Full MS-65 "no question" examples of the scarce and rare issues in both series, of course, always find a ready buyer.

PROOF SETS and MINT SETS: Very little change has been noted for the proof sets--the '79 Anthony set is a bit higher in the \$13.50-\$14.50 range. All of the pre-1959 "double" mint sets are also higher in quantity bidding--only "original sets in original holders" are wanted at these prices.

COMMEMORATIVES: Numerous gains are scattered across the silver commem MS-65 column--see comments in "The Market in Depth".

U.S. GOLD: (Prices are for the most common date of each type.) Bullion related gold coins in this issue are figured on a basis of gold at \$291.10 per ounce.

SILVER COMMEMS SCORE MAJOR GAINS Profit-Taking Lowers Prices For Jeffersons, Roosevelts & Washingtons

The Market in Depth

ALLEN HARRIMAN

Teletype activity has perked up considerably this week as many dealers again scatter to the various parts of the country after a highly successful A.N.A. Convention in St. Louis. Still others are enjoying a well earned vacation after weeks of preparation for and a full grueling during the convention. August, of course, is the traditional month of vacation in the coin market as elsewhere.

Perhaps topping this week's demand are the soaring silver commemoratives. Several dealers are running frequent and extensive buying lists with specific higher bid levels while several others are stating that they will pay "strong" prices for all strictly graded MS-65 specimens--and asking possible sellers to "name their price". For many issues, this week's gains are major--and still very few pieces have changed hands. This week's new (and totally ineffective) bid for the fifty-piece type set is \$15,750 and bidders are now willing to pay \$28,000 for the complete 144-piece! (Bid for the individual coins is now well over \$30,000!) By the way, to exemplify the current quest for quality, the "premium" for MS-65 over MS-60 commems is 90% this week. Readers will recall that an examination in last week's issue showed this advancing spread between the two grades was 72% only a week ago! (Those bidders who want MS-60 specimens continue to ask for quotes--obviously preferring to leave the bid levels in this column undisturbed.)

The BU roll market has not fared nearly as well as the commems--at least, not the Jeffersons, Roosevelts and post-1940 Washingtons. Several dealers (or their clients) have obviously decided to take some profit at this time--and selling lists across the three series have been extensive throughout the week. Only widely scattered dates in these series are not represented on current selling lists and thus far, at least, only occasional rolls have been picked off by those dealers who need to fill in inventory or perhaps locate a few specific rolls for their customers. Noticeably absent from selling lists, it should be pointed out, are half dollar rolls. Neither the firm Franklins nor the still-in-demand Walking Liberties are being offered--and, of course, it is in this area that the major share of bidding is being registered.

Some of this roll selling has also extended into the Morgan dollar series. The difference here is that the rather substantial number of dollar rolls being offered this week are virtually all priced at current levels--or they are described as "choice", "hand-picked" or "exceptional" rolls and tagged with commensurately higher prices. Transactions, too, in this area have been somewhat more frequent--although certainly not overly enthusiastic.

all in strict MS-65 condition, of course! A few more minor changes have been noted for the Lincoln rolls; trading is very light.

NICKELS: An extensive run of minus signs has been recorded for the non-wartime Jeffersons as sellers are now running comprehensive selling lists to a largely disinterested teletype audience. The wartime issues (except for a lower 1942-P), however, are again "want lists" at higher prices--with the complete BU roll set now being asked for at \$2040. (Also bucking the trend are 1938-S, 1941-D & S and 1942-D.)

DIMES: The Mercury series is unchanged this week--with an occasional teletype offering noted within current rather firm bid-ask levels. Common date P-mint rolls are not easy to locate at the continued \$300 bid. As with the Jeffersons, some obvious profit-taking has affected virtually all of the Roosevelt issues (exceptions are: 1946-S, 1954-D and 1956-D). It should be mentioned, on the otherhand, that two or three bidders still need complete 1946-64 BU roll sets--and that the current bid of \$8600 still seems ineffective.

QUARTERS: Following along with the Jefferson and Roosevelt pattern this week (and with several of the same sellers), a major run of minus signs has plagued the 1941 to date Washingtons. With the exception of 1952-D and 1955-D, nearly all of the "short set" rolls are now appearing on selling lists--and, as with the smaller denominations, these lists have so far failed to intrigue potential buyers.

HALVES: The lower prices noted across the nickel, dime and quarter charts have definitely not been extended into the half dollar market! Even though this week's Walking Liberty gains are light and scattered (mostly higher \$950 bids for common P-mints), several bidders seriously need all of the 1941-47 rolls as well as most of the pre-1941 rolls and singles. However, rather than disturb bid levels (which often has the wrong results anyway) most bidders are just asking for quotes. Bid for the BU Franklin roll set has moved to an even \$11,000--apparently with few if any available. The key 1949-S roll, it might be noted, has moved to an impressive \$2500 bid!

DOLLARS: This post-A.N.A. Convention week has seen far more than usual common date (and "slightly better" date) dollar rolls and singles offered for sale across the teletype circuits. These offerings are tagged at current levels--and scattered rolls have been picked from selling lists by dealers needing specific issues. A bit of profit-taking--after so many months of soaring prices--certainly cannot be unexpected. The tough dates, by the way, are still not available to any extent--and the really elusive dates in MS-65 condition (1883-S, 1884-S, 1891-O, 1895-O to name a few) just aren't around "at any price".

The Eisenhowers are on the move!--with the 1972/74 "blues" (40% silver BU) all bid at a record \$15 each and with the silver proofs being led by a \$5 jump (to \$37) for the low mintage 1974.

PROOF SETS and MINT SETS: The 1936-55 proof sets continue to enjoy strong demand (and numerous higher bid prices this week) while most of the 1956 to date issues are easily located in quantity at lower levels. Lower silver bullion prices have affected the later silver mint sets along with profit-taking on the 1965-67, 1970 and 1973 issues.

COMMEMORATIVES: With the exception of only the BTW and W-C sets, every silver commem half dollar is sporting another plus sign this week! Sellers of MS-65 commems are all but non-existent across the teletype circuits--and anxious buyers are having very little success. Many of this week's advances are quite substantial--check page two carefully!

This Week's Market

CENTS: Flying Eagle cents have moved to \$725 bid this week, copper-nickel cents to \$230, common date Indian cents to \$72 and two-cent pieces to \$340--

U.S. GOLD: (Prices are for the most common date of each type.) Bullion related gold coins in this issue are figured on a basis of gold at \$293.80 per ounce.

PROOF TYPE COINS SKYROCKET! Silver Commemoratives Score Further Major Gains

The Market in Depth

ALLEN HARRIMAN

Proof type coins are now enjoying unprecedented demand! The increasing interest in this area of the market during recent weeks has been far surpassed by this week's sudden rash of teletype buying messages and soaring bid levels. More and more bidders are now trying to locate quantities of both MS-60 and MS-65 specimens (with the usual strong emphasis on MS-65, of course) ---and they are tumbling over one another in their attempts to be the highest bidder on the tapes. Actually, there are dealers who will "pay bid", dealers who will "pay ask" and dealers who will pay "top dollar---please quote"---all trying desperately to pry loose whatever may be in stock across the nation!

Determining this week's bid levels for proof type has been no easy task---and it is a virtual certainty that bid levels will continue to increase as we go to press. Reports of sales of gem and superb proofs at the just concluded A.N.A. Convention give a strong impetus to current bidders---numerous specimens bringing "double ask" or more in dealer-to-dealer trading! As a matter of fact, a "wonder" 1892 Morgan dollar proof changed hands at a price in excess of \$8000! And although this sale was an exceptional one, the truly top quality proof in any series was very difficult to buy without paying a very substantial premium.

Nor have the soaring prices for proof type detracted from the also-soaring silver commem market! Bid has again advanced quite strongly for all one hundred forty-four issues---with many gains of from 10% to 25% recorded! Sales, however, have been extremely limited. Bid for the fifty-piece type set is now a record-breaking \$18,000 and the complete 144-piece set is impossible to locate (in strict MS-65 condition) at a very impressive \$31,000! It should again be noted that there are dealers who are in the market for MS-60 commems as well as XF/AU---but, with the current emphasis on gem quality, they seem content to stick with current bid levels for the lesser quality examples.

By the way, as an example of the prices that top quality will bring, one serious bidder is now offering to pay \$1000 for a single 1945-P Mercury dime in "MS-65 + condition with true 100% fully split and rounded bands"---and \$500 for a 1944-S Walking Liberty half dollar in "MS-65+ condition with a truly full strike obverse and reverse"! Neither coin has been offered---at least, not one that fits these descriptions.

PLEASE NOTE that the August MONTHLY SUMMARY issue will accompany next week's regular issue---featuring an important update on the "hot" silver and gold commemoratives.

This Week's Market

CENTS: Except for one recent bidder's attempt to locate most of the 1934-55 rolls at below-market levels, the Lincolns remain quiet in decidedly lackluster

trading. (At mid-week, bid prices were raised for 1934-P, 1935-P, 1939-D plus just a bit for 1965, 1966, 1970-S and 1971-S.)

NICKELS: Another jump by the very scarce 1939-S roll places this week's bid at a record \$2050. In addition, the wartime issues (again with the exception of 1942-P) have registered strong gains; bid for the BU roll set is now \$2070---with bid for the eleven rolls individually totalling \$2225! A number of the regular Jefferson issues are lower---check pages two and three.

DIMES: Further profit-taking has again lowered the price tags of a majority of the 1946-54 Roosevelts---with most potential buyers remaining on the sidelines. It should be added that one buyer is interested in several of these dates and that just a bit more of a discount could result in quantity sales.

QUARTERS: Along with the Roosevelts, mild profit-taking continues to be felt among most of the Washington "short set" rolls. Actually, there are only two or three sellers in both series---but, after so many months of increasing prices, buyers tend to stand back and "wait a while." Contrary to this trend are 1951-P, 1952-P & D and 1955-D.

HALVES: Continued efforts to find Walking Liberty rolls are meeting with little success. Yet, except for scattered gains (1940-P, 1943-S, 1944-D and 1945-S), dealers obviously prefer to leave current bid levels intact. The few rolls being offered, however, carry price tags that are well ahead of the present market. Franklin gainers this week are: 1948-D, 1952-D, 1953-P & D, 1954-S and 1959-D.

DOLLARS: Several of the more elusive circulated Morgans continue to receive bidder attention---with quantities of VG thru AU specimens wanted at higher prices this week. The dates which seem to elude most buyers include: 1878-8/7tf, 1879-CC thru 1893-CC, 1893-O & S, 1894-P, 1895-S and, of course, 1903-O. Small advances have been recorded for scattered BU dates in both series---basically for issues which are usually seen in less-than-strict MS-65 condition. It is very important to remember that bidders want only full MS-65 coins and that "close is not good enough" to command these prices! Minor losses have been noted among the BU rolls---see page six.

The Eisenhower series has had its ups and downs this week. Early in the week, all of the 40% silver BU and proof issues were offered in quantity at lower levels---but they seem to have been absorbed and prices are now unchanged to a bit higher.

PROOF SETS and MINT SETS: More or less a repeat of last week---with the 1936-55 issues strong and wanted in quantity and the later sets easily available from several dealers at slightly lower levels. Again bucking this trend is the surprisingly tough 1975-S set (bid for in quantity this week at \$23) and the 1979-S Anthony set (sales noted as high as \$14.75).

COMMEMORATIVES: Watch 'em go! Advances of as much as \$100 per coin have been registered this week as the entire silver series continues to soar! There are virtually no sellers on any of the teletype circuits to satisfy the needs of the many anxious potential buyers. Some bidders raise their offering prices and others continue to state that they "will pay the highest prices"---still, the effect remains the same---practically no transactions!

U.S. GOLD: (Prices are for the most common date of each type.) Bullion related gold coins in this issue are figured on a basis of gold at \$300.60 per ounce.

THE COIN DEALER NEWSLETTER

reports the national coin market on a weekly basis. Under the present system, it is impossible to monitor all transactions of offers to buy and sell, but the broad information sources of the Newsletter make it a very accurate reflection of the market.

INVESTORS NOTE: the prices in the Newsletter are from dealer-to-dealer transactions. As an investor, you may place your buy and sell orders through a dealer for a fee, as you would buy stock through a broker.

ADVERTISING RATES:

\$12.00 per column inch; four consecutive ads (no changes) - 10% discount.

Advertising space is limited; ads will be placed in first possible edition.

COMMEMS & PROOF "TYPE" STILL PACE MARKET BU Roll Market (Except Halves) Relatively Quiet; Late Proof Sets Edge Lower

The Market in Depth

ALLEN HARRIMAN

Commemorative half dollars and type coins continue to pace a very active market. Again this week plus signs cover virtually every silver commem issue as quantity bidders vie with one another in their attempts to offer the highest prices. Possible sellers, however, do not yet seem to be particularly impressed with the escalating bid levels--and actual transactions remain very few and far between. Even the frequent requests for "quotes" are receiving very little attention. The fact appears to be that the vast majority of teletype dealers are simply out of stock on MS-65 or better commems--and that their clients who have commems in investment portfolios just aren't interested in selling. After all, what better available material could be purchased with the monies realized from a sale at this time!

Bids for already assembled sets of silver commems continue to move ahead as the singles advance. However, it has been a long while now since even a single complete set has been listed for sale on any of the teletype circuits. Complete sets, of course, are rarely MS-65 throughout--and, further, it is usually the toughest dates which need improvement. Bids this week, by the way, are \$18,500 for the fifty-piece "type" set and \$32,000 for the now very seldom seen 144-piece set!

Again the MS-65 proof type coins have registered impressive advances. As with the silver commems, frequent bidding--and higher bid levels--has done little toward locating the quantities of strictly choice and gem proofs needed by several major bidders. Among this week's substantial--but still ineffective bids--are the following:

"Stars obverse" Seated Liberty half dimes and dimes - \$850 and \$1050 respectively (These two are especially elusive in MS-65 condition--often being absent from even major auctions.)

"Legend obverse" Seated Liberty and Barber dimes - \$600 each (Previously thought to be rather plentiful--but now surprisingly difficult to find.)

Twenty-cent pieces - \$2600 (Never easy in MS-65--but now nearly "impossible" at still advancing levels.)

"No motto" Seated Liberty quarters and halves - \$1050 and \$1450 respectively (Not as elusive as the "stars obverse" types--but still eluding virtually all current bidders.)

"With motto" Seated Liberty and Barber halves - \$1350 each (They used to be around--but where are the nice ones now?)

Seated Liberty dollars (both types) and Morgan dollars - \$2750 each (Perhaps the most sought proofs at the moment--and among the most difficult to find without problems.)

Trade dollars - \$2900 (Equally as in demand as the above group--with several strong buyers trying to find quantities of problem-free specimens.)

It should be noted that at least some of those dealers who are asking for quotes indicate that they will pay "above prevailing prices" for strictly graded MS-65 proofs--and, of course, superb examples in the MS-65+ area command even higher prices!

This Week's Market

CENTS: The usual small number of adjustments have been noted this week in the still very quiet Lincoln series; one bidder continues his efforts to locate choice rolls at below market levels.

NICKELS: A few of the pre-1942 Jeffersons--plus nine of the eleven wartime issues--have registered further gains. The 1938-S roll is now bid at \$300, the tough 1939-S has changed hands at \$2100 and the scarce 1942-D remains elusive at \$620 bid. The 1942-45 wartime roll set is wanted at a record-setting \$2300--with the eleven rolls bid separately at a total of \$2386. (It is interesting to note that the low mintage 1943-D is now the lowest priced date in the wartime group!)

DIMES: Prices are virtually unchanged across both the Mercury and Roosevelt series; trading is minimal. In "type", strictly MS-65 Barber dimes are now bid at a very impressive \$400--with proofs in the same condition now wanted in quantity at \$600 each! (Check page four for other important changes in bid levels for BU and proof type coins.)

QUARTERS: After two weeks of minor profit-taking, prices seem to have levelled for a majority of the 1941-64 Washington rolls; exceptions are the slightly lower 1945-P, 1947-S, 1950-P, 1952-S and 1953-S rolls. In the pre-1941 group, the 1934-P roll has moved to a still unsuccessful \$1150 bid (none of the 1934-40 P-mint rolls are available at present bid levels).

HALVES: Impatient bidders have edged bids higher for a number of the pre-1941 Walking Liberty rolls and singles; sales, however, remain widely scattered. In the "short set" group, all issues except the 1941-45 P-mints have registered advances (several quite substantial). Among the major winners are: 1941-S, 1942-S, and 1944-D (up \$50 each), 1943-D, 1945-S and 1947-D (up \$40 each) and the scarce 1947-P (up \$100).

Bids of "\$11,000 or so" for the Franklin BU roll set are not producing any results--with higher bid prices noted for eighteen of the thirty-five individual issues.

DOLLARS: Again prices have drifted just a bid lower for several of the lower priced Morgan and Peace dollar rolls. (It is important to note that the bid-ask levels in the page six chart are for "typical rolls" of the dates involved. There are bidders for many issues who are willing to pay higher prices for "strictly choice" rolls.) Scattered singles in both series have recorded light gains--generally those dates which are quite elusive in MS-65 condition.

PROOF SETS and MINT SETS: Again with the exception of the 1975-S and 1979-S sets (now bid at \$24.50 and \$14.75 respectively), another virtually complete run of minus signs has plagued the 1956-to-date proof sets. Several quantity sellers are regularly seen on the various teletype circuits--and most of the bidding noted is in the bargain-hunting category. A number of small losses have also been registered for the later mint sets--see page six.

COMMEMORATIVES: Sellers remain all but non-existent as bid prices for the silver commems forge strongly ahead. Even those anxious potential buyers who are asking for "any reasonable quote" are being almost totally ignored. It should also be mentioned that nearly all of the "type" issues in MS-60 condition have finally scored a run of plus signs. (These gains seem long overdue when considering the ever-widening spread between MS-60 and MS-65 bid levels.)

U.S. GOLD: (Prices are for the most common date of each type.) Bullion related gold coins in this issue are figured on a basis of gold at \$310.50 per ounce.

BUSY MARKET STARS PROOF AND BU TYPE Early Proof Sets, Commems And Half Dollars Also Enjoy Strong Attention

The Market in Depth

ALLEN HARRIMAN

As indicated by last week's action, bid levels for proof silver type coins have soared again this week! Virtually all bidders are going empty-handed in spite of further substantially higher bids--coupled with regular requests to "name your price". (Topped by a new bid of \$3200 for proof trade dollars, a quick check of page four will reveal that every issue from half-dimes thru trade dollars is sporting a plus sign this week in the MS-65 column!) Today's buyers, of course, are very strict graders--and MS-60+ specimens will definitely not fetch the prices registered for MS-65 examples. It might be added that there is also considerable interest in MS-60/60+ proofs--at commensurate prices--with several advances noted for this category this week.

Nor are BU type coins being ignored! Gains are also liberally scattered across the appropriate page four chart--with transactions about as few and far between as they are for the proofs. Advances are about evenly divided between MS-60 and MS-65--with the necessary stipulation that "only true MS-60" coins are wanted. The number of "sliders" that are shipped to bidders as full MS-60 is often discouraging and, as one dealer recently stated, he "feels lucky if one out of ten coins received as MS-60 is actually uncirculated".

And finally a few plus signs have been noted across the circulated type coin chart! It has been quite a while now since more than an occasional adjustment has been made in this area. This week, however, one major bidder has posted a rather lengthy list of VF to AU types that are needed in quantity. Many of these bids are at current levels--but several others are somewhat higher. As prices for MS-60 and MS-65 BU and proof type coins advance, it is only logical that present prices for nice properly graded and defect-free circ examples become more and more attractive--and the actual scarcity of many issues in the higher grades is becoming more evident.

Where are the 1979-D Kennedy half dollars? For the first time, one dealer indicated this week that he could supply these coins at \$5 each!--with no other sell offers at any level monitored on the teletype circuits. (This same dealer, by the way, is offering to pay \$40 per roll.) The Bureau of the Mint's official order form for 1979 mint sets lists twelve coins--Lincoln cent thru Anthony dollar from both Philadelphia and Denver; each Denver coin will carry the "D" mintmark and the dollar coin from Philadelphia will bear a "P" mintmark. The San Francisco version of the Anthony dollar apparently will not be included. Face value will be \$3.82--the Mint's selling price is \$8. If the 1979-D half dollar is, indeed, now available, this will preclude another "mint set only" coin.

unavailable at this week's higher bid of \$350--all in strict MS-65 condition, of course. Lincoln rolls remain virtually unchanged in extremely light trading.

NICKELS: Most of the wartime Jeffersons have scored further major advances this week--with the already assembled BU roll set now wanted at \$2525 (check page three for the individual gains). Other winners in the series include 1938-S and 1942-D (both up \$5 in a slow but steady advance).

DIMES: The 1934-45 Mercuries are again unchanged in light trading; common date P-mint rolls are not easy to locate at current bid of \$300. A few minus signs will be seen across the Roosevelt chart as a result of a little profit-taking. In "type", MS-65 "legend obverse" half-dimes have moved to \$550 and the dimes to \$475; Barber dimes in the same top quality are now bid at \$425!

QUARTERS: As with the Roosevelts, a bit of profit-taking has lowered prices for scattered dates--in continued light trading. Strictly MS-65 "type" quarter advances include: Seated Liberty - \$850, Barber - \$600 and both type one and type two Standing Liberties with "full heads" - \$500 each.

HALVES: All of the 1934-40 mintmarked issues have registered higher bid prices this week--with the P-mints from the same years experiencing the same strong demand at present levels; only an occasional coin or two has changed hands. In the 1941-47 "short set" group, common date P-mint rolls are now wanted at an even \$1000--with additional gains noted for 1945-S (\$1400), 1946-S (\$1250) and the tough 1947-P (\$1700).

The Franklin series, too, is enjoying more and more attention--with advances recorded for nineteen issues (see page three). The complete 1948-63 BU roll set is up a full \$1000 this week at \$12,000 bit (one transaction was noted at \$12,500). "Type" advances are numerous, by the way--check page four!

DOLLARS: Several gains are scattered across the MS-60, MS-65 and MS-65 prooflike columns--mostly for the more elusive issues. It cannot be stressed too often that very strict grading is essential and that specimens will "almost make it" will not command these recorded bid prices! The BU dollar rolls are a bit stronger--with the minimum bid for pre-1921 Morgans again pegged at \$425.

PROOF SETS and MINT SETS: Considerably higher bid prices for the 1936-42 proof sets are still proving to be largely ineffective: 1936 - \$4200, 1937 - \$2350, 1938 - \$1000, 1939 - \$900 and 1940/42 - \$600 each. The 1950/55 sets are also higher--and prices are lightly mixed for the later dates. The 1979-S Anthony set changed hands during the week for as much as \$15.50.

COMMEMORATIVES: Although plus signs are not extensive as in recent weeks, demand for commems is strong and widespread. Some bidders may have tired of raising bid levels week after week without buying the quantities needed--more and more buying lists are requesting "quotes" rather than listing specific buying prices. A few issues, on the otherhand, have registered very strong advances this week: California - \$400 (up \$85), Panama-Pacific - \$1600 (up \$200--and now priced with the Hawaiian), Pan-Pac \$1 - \$1100 (up \$200) and Pan-Pac \$2½ - \$3200 (up \$400)!!!

This Week's Market

CENTS: Copper-nickel cents remain very elusive at \$230 bid, common date Indians are very tough at \$72 and two-cent pieces are almost completely

U.S. GOLD: (Prices are for the most common date of each type.) Bullion related gold coins in this issue are figured on a basis of gold at \$315.30 per ounce.

Silver And Gold Bullion Post Record Levels; Bidders Crowd Teletype Circuits

The Market in Depth

ALLEN HARRIMAN

From both silver and gold commemoratives thru proof sets and mint sets---from the Buffalo, Mercury and Walking Liberty thru Morgan and Peace dollar BU rolls---and from higher grade circ thru choice proof type coins the market has "gone wild" this week! Frankly, it would be difficult to pinpoint which area is the "hottest"---but the honors most likely go to the silver commems.

A record-setting number of plus signs has been registered by the commems this week. In fact, no greater number of advances could possibly be recorded---since every silver issue in each of the three columns is bid at higher levels! Sellers are practically non-existent as numerous dealers attempt to be the highest bidder and thus possibly pry loose at least a few specimens. They are having very, very little success for two reasons. First, the vast majority of dealers are simply out-of-stock. Second, those few who have some commems (particularly MS-65) have ready and waiting retail customers---so why ship to teletype bidders when it is so easy to sell at "next week's" (or next month's) price over-the-counter? It must be stressed once again that proper grading is a MUST when paying today's prices!! As mentioned several times before, "close is not good enough when it comes time to sell".

Copper and nickel proof type coins have now joined the upward surge in this area. Substantial gains have been registered for virtually all of the proof issues from Flying Eagle cents thru the wartime Jeffersons---again with the usual minimal response from potential sellers. As one investor recently remarked, "Why sell my choice and gem coins even at a tremendous profit when it is nearly impossible to buy anything else of comparable quality?" Silver proof type coins have also scored several further gains although a number of major bidders are sticking with last week's unsuccessful levels since raising bids "doesn't greatly increase the chances of buying coins in today's market anyway".

Topping this week's number of gains in the proof area are the advances recorded by both MS-60 and MS-65 BU type coins. Sales of properly graded uncirculated material are easily as few and far between as for any other segment of the market---as the lucky holders just sit back and enjoy the action! No wonder that anxious and frustrated buyers often "go overboard" when choice and gem material is offered at auction.

PLEASE NOTE: Silver and gold bullion are trading at record levels as we go to press; last minute checks are strongly advised before making commitments in bullion-related areas (particularly gold coins, circ silver dollars and common date silver rolls).

This Week's Market

CENTS: A virtually complete run of plus signs has been registered this week for type half-cents, cents, two-cent pieces and three-cent pieces in both MS-60 and MS-65 proof as well as BU condition. These advances---coupled with several

for the higher grade circ specimens---constitute the most comprehensive one-week gains ever recorded for this area of the market! See page four.

NICKELS: Several of the "short set" Buffalo nickel rolls have edged forward; the only dates still rather frequently available are 1937-P and 1938-D (now bid at \$560 each)---the others are seldom encountered on today's teletype circuits. In the Jefferson series, most of the wartime issues are still on the move---accompanied by 1938-S, 1942-D, 1949-D and 1952-D. "Type" gains are far too numerous to list here---again check page four!

DIMES: Common date P-mint Mercury rolls have also edged forward this week---bid now at \$310 (with one dealer offering \$320 "for a few rolls"). The 1946-64 Roosevelt BU roll set has moved back to \$8450 after a short-lived dip---with minor gains recorded for a few individual dates (the forty-eight rolls separately are bid at In "type", common date Seated Liberty dimes (legend) are now bid at an even \$500 and Barbers at \$450---in strict MS-65 condition, of course. The tougher types have advanced commensurately---once again a thorough examination of page four is in order!

QUARTERS: Numerous minor adjustments---in both directions---have been recorded for the moderately traded Washington rolls. The pre-1941 singles remain steady---with a considerable amount of interest noted "at bid" for all grades of circ 1932-D & S's. Common date Seated Liberty quarters (with motto) are now bid at \$875, Barbers at \$625 and type two "full head" specimens at \$550---again in "no question" MS-65. Other gains in type run from the "large size" Bust version at \$3700 to the tough 1873/74 "arrows" at \$1500. Advances in this and other areas, by the way, are prying loose very few properly graded coins.

HALVES: In the earlier Walking Liberty group, 1934/37-P, 1939-D & S and 1940-P are higher again this week. In the "short set" group (1941-47), common date P-mint rolls are now bid at an almost totally ineffective \$1025---with several of the mintmarked rolls advancing substantially. (Single choice "short sets" are now bid at \$1450.) Nearly all of the pre-1953 Franklin rolls are also higher---and the 1948-63 BU roll set seems "impossible" at bid of \$12,000. Several major advances have again been registered for various types---with common date Seated Liberties (with motto) at \$1100 and Barbers at \$1400!

DOLLARS: Emphasis in this area is once again centered on BU rolls---with up to multi-bag quantities of most "common dates" wanted by numerous anxious bidders; advances have been registered by thirty-one of the thirty-nine dates listed on page six! Plus signs---and an occasional minus---are scattered across the singles charts.

PROOF SETS and MINT SETS: Interest is high for all of the 1950-64 silver proof sets---with plus signs recorded for all but the 1956 issue this week. The common 1960/64 sets, by the way, are all bid at \$8.25 in view of rapidly advancing silver prices. The mint sets are lightly mixed.

COMMEMORATIVES: For the first time ever, a complete run of plus signs has been recorded for the XF/AU, MS-60 and MS-65 silver commems! See "The Market in Depth".

U.S. GOLD: (Prices are for the most common date of each type.) Bullion related gold coins in this issue are figured on a basis of gold at \$331.70 per ounce.

COMMEMS AND TYPE COINS CONTINUE TO SKYROCKET BU Dollar Rolls Score Major Gains; Walkers & Franklins Strong

The Market in Depth

ALLEN HARRIMAN

Type coins have scored yet another major round of advances--particularly uncirculated specimens of both MS-60 and MS-65 quality. From the Flying Eagle cents thru Trade dollars, plus signs were "flying thick and fast" throughout the week as several strong bidders topped each other's bids on an almost daily basis. Sales, however, have remained extremely limited. It is obvious that the vast majority of the many teletype members simply do not have even enough stock to satisfy their own clients' needs--much less to fill the needs of the bidders who often state that they will take "any quantity" of properly graded material. (At the risk of being even more repetitious, it again must be stressed that proper grading is a MUST if these new prices are to be realized. "Super sliders"--no matter how nice--are not MS-60; MS-60++ coins are not MS-65. Today's bidders are conservative in their grading for the most part--at least when it comes to buying.)

Nor have proof type coins been ignored in favor of their BU counterparts. Among this week's major gains in this area are: "type III" three-cent silver-\$800, "no cents" Liberty nickels-\$500 and the "stars obverse" half-dimes and dimes at \$1100 and \$1350 respectively! The four dollar "types" have also continued their phenomenal advance: Seated Liberty "no motto" - \$3400, the "with motto" variety - \$3300, Morgans - \$3200 and Trade dollars - \$3600--all in very strict MS-65 condition. (Check page five for further gains in the proof category as well as the practically across-the-board advances for uncirculated!)

Regular attempts (by several dealers) to locate the 1941-47 Walking Liberty "short set" issues continue to result in continued very minimal results--in spite of escalating bid levels coupled with requests for "any reasonable quotes". Bid this week for the already assembled BU roll set (choice, of course--but not expecting fully struck S-mints) is an even \$30,000! (The twenty rolls individually are bid at \$31,025.) The occasional seller of a roll or two is keeping the attached price tags well ahead of this rapidly advancing market--with the thus far correct assumption that bid levels will be up another notch within a week or two.

The following is a comparison between current bid levels and those which were in effect eight months ago at the beginning of the year:

	BID JAN. 5, '79	CURRENT BID	% GAIN
1941-P	\$ 650	\$1100	69%
1941-D	1325	2200	66%
1941-S	2150	3000	40%
1942-P	665	1100	65%
1942-D	905	1400	55%
1942-S	1695	2400	42%
1943-P	660	1100	67%
1943-D	1010	2000	98%
1943-S	850	1800	112%
1944-P	660	1100	67%
1944-D	715	1425	99%
1944-S	825	1350	64%
1945-P	660	1100	67%
1945-D	830	1250	51%
1945-S	825	1450	76%
1946-P	760	1400	84%
1946-D	810	1325	64%
1946-S	800	1400	75%
1947-P	875	1850	112%
1947-D	790	1400	77%

As mentioned above, the San Francisco rolls are very seldom fully struck and knowledgeable bidders will accept "nice" original rolls of moderately well struck

coins. Substantial premiums are frequently offered for outstanding S-mint rolls--and true gem MS-65+ "full head, hand, skirtlines and breast feathers" specimens can command surprising prices. (A recent bid of \$500 was monitored for a single 1944-S which fits this description!)

This Week's Market

CENTS: One dealer has raised bid levels for a few of the tougher earlier dates--and another for bag quantities of some of the later issues; the Lincoln series, however, remains generally quiet and infrequently traded. Circulated rolls of Indian cents in Good/better are wanted at a slightly higher \$21--again in quantity.

NICKELS: In the Buffalo series, the scarce 1934-P roll is now bid at \$1600 and the often very choice 1938-D is slightly higher at \$575. In the Jefferson group, both the 1938-S and 1942-D continue to edge higher with respective bids of \$315 and \$635--and five more plus signs are scattered across the wartime issues (1943-PDS, 1944-S and 1945-S); bid for the complete 1942-45 BU roll set is now \$2550 (the eleven rolls separately are bid at a somewhat higher \$2670).

DIMES: The "common date" late P-mint Mercury rolls don't seem to be so common--this week's higher bid of \$360 (up a strong \$50) is still mostly unsuccessful as bidders ask for "quantities". Scattered gains have been recorded for the Roosevelt series and the 1946-64 BU roll set is slightly higher at an even \$8500 bid. A virtually complete run of plus signs has been recorded for both MS-60 and MS-65 uncirculated type. material--check page four thoroughly!

QUARTERS: Plus signs are rather liberally peppered across the Washington chart--with a strong emphasis on the P-mint rolls. Among the many winners this week in MS-65 "type" are the "with motto" Seated Liberty quarters at \$1000 bid, Barbers at \$650, "type one" Standing Liberties (full head) at \$550 and the "type two" variety (also full head) at a very impressive \$650--with a few sales noted as high as \$725!

HALVES: In the pre-1941 Walking Liberty group, higher bids have been registered for 1934/347-P, 1936-D and 1939-P & D; see "The Market in Depth" for comments on the very sought after 1941-47 issues. The Franklin series, too, is definitely on the move--with gains noted for most of the thirty-five issues. The key 1949-S is "impossible" at \$2950 bid and price tags on the few earlier rolls available remain well ahead of advancing bid levels.

DOLLARS: Every Morgan and Peace dollar roll is higher this week! Numerous dealers are in the market for these rolls--asking for "a few" or "a few bags"--with each trying to be the top bidder. Common pre-1921 Morgans have reached \$480 and S-mints are now a minimum of \$730; 1921-22-23-P mint rolls are all bid at \$340. A number of increases are also scattered across the page six singles charts.

PROOF SETS and MINT SETS: All of the 1950-64 proof sets have registered advances--with several bidders emphasizing the tougher 1950-55 issues. As in most other areas, potential buyers want quantities and yet are having to be content with only minimal bidding success.

COMMEMORATIVES: Prices continue to soar for the MS-65 silver issues and for both the MS-60 and MS-65 gold issues. New and much higher bids for complete silver sets are: 50-pc. type set - \$22,000 and the complete 144-pc. set - \$40,000! There are virtually no sellers in sight on any of the teletype circuits.

U.S. GOLD: (Prices are for the most common data of each type.) Bullion related gold coins in this issue are figured on a basis of gold at \$335.00 per ounce.

THE COIN DEALER NEWSLETTER

reports the national coin market on a weekly basis. Under the present system, it is impossible to monitor all transactions of offers to buy and sell, but the broad information sources of the Newsletter make it a very accurate reflection of the market.

INVESTORS NOTE: the prices in the Newsletter are from dealer-to-dealer transactions. As an investor, you may place your buy and sell orders through a dealer for a fee, as you would buy stock through a broker.

ADVERTISING RATES:

\$12.00 per column inch; four consecutive ads (no changes) - 10% discount.
Advertising space is limited; ads will be placed in first possible edition.

COMMEMORATIVES

MS-60 coins are "average UNC"—they may have bag marks or handling marks (but no wear) and may not have full luster;
MS-65 coins are choice fully struck specimens without detracting marks—they may be brilliant or have original toning.

MARKET WILD AS GOLD & SILVER BULLION SOAR Bidders Crowd Teletype Circuits In Mostly Unsuccessful Attempts To Buy

The Market in Depth

ALLEN HARRIMAN

"Wanted to buy" is by far the most frequently encountered phrase on today's teletype circuits--followed closely by "will pay bid", "will pay ask" and/or "please quote"! Buyers outnumber sellers by perhaps twenty to one--with the occasional seller either selling the few items not on most current "want lists" or pricing their more desirable material at as much as fifty percent over each week's bid levels!

Unheard of advances in the prices of gold and silver bullion, of course, are responsible for this week's rush (and record prices) for bullion related material--circ gold, late silver rolls, circ dollars, proof sets and mint sets. However, the other recently booming areas continue to boom--better circ and BU gold, gold and silver commems, BU and proof type, earlier proof sets and mint sets--and, now, circ type as well! There have probably been more plus signs registered this week than in any other trading week in history--although we have not taken time out to count them!

PLEASE NOTE that we strongly advise last minute checks before making buy or sell commitments in any of the bullion related areas. Prices have been so volatile during the past few days that even many teletype dealers have hesitated to state specific buying or selling prices--preferring to, as one major buyer stated, "wait until the dust settles". Prices in this issue are up-to-the-minute as we go to press; they are, however, changing almost hourly--and final checks before trading in these volatile areas are very important!

Readers will note that AU type coins have also registered a very comprehensive run of plus signs this week--along with gains for most of the tough earlier types in all grades. Naturally, as bid levels for MS-60 specimens forge strongly ahead, prices for AU pieces look more and more attractive. And now at least a few dealers have taken a look at this category and are trying to locate quantities of AU's. The results of recent bidding, however, has been less than impressive. Very few people are in a "selling mood" in any area of the current active (or should we say "wild") market. In addition, many types are not quite as easy to find in AU condition "as they used to be"--especially since today's buyers often indicate that they will take fifty or a hundred pieces at a time.

There are few categories in which overgrading is more of a problem than for AU coins (second perhaps only to MS-60/MS-65). The term AU, of course, means about uncirculated--indicating that the coin shows little trace of wear and exhibits at least half of the original luster (two-thirds for AU-55). A tendency, however, among many is to call any sharp XF specimen which has a bit of luster left an "AU" coin. A true AU coin almost always looks uncirculated at first glance--something which an XF coin does not. Buyers in this area should be very careful. The price spread between XF and AU is great--and becoming greater!

Two-cent pieces in AU as well as both MS-60 and MS-65 BU and proof are wanted at higher levels; very few are available.

NICKELS: "Common date" Buffalo rolls (1937-P, 1938-D) are now bid at an even \$600--with quantities needed. A few of the other "short set" issues are also a bit higher--and the complete 1934-38 BU roll set is up \$500 at an unsuccessful \$13,500 bid. A few plus signs are scattered across the Jefferson chart--mostly for the still sought after wartime issues. Several more advances in both BU and proof "type" have been noted--check page four.

DIMES: "Common date" Mercury rolls (1941/45-P) are now bid at \$375--also with quantities needed (and few if any actual transactions recorded); further gains have also been noted for the 1942-D, 1943-D and 1944-D rolls. In the Roosevelt group, the scarce 1948-D is this week's top winner at \$325 bid--with minor advances for several other issues. The late BU silver rolls are bid at \$52.50 as a result of soaring bullion prices--which makes such early dates as 1946-D & S, 1947-P & S, 1950-P & D etc. now worth less than "double melt"!

QUARTERS: Most of the 1941-51 P-mint Washington rolls are higher this week (and, again, several earlier dates are now priced at considerably less than "double melt"--1944/46-P, 1948-P, 1950/53-P). The complete 1941-64 BU roll set, by the way, is now bid at \$19,500--with the sixty-one rolls involved bid individually at a total of \$21,460. Among the notable advances in "type" is the impressive \$725 now being offered for "strictly full head" MS-65 type two Standing Liberty quarters!

HALVES: In addition to further comprehensive gains for the 1934-40 Walking Liberty issues, every one of the "short set" rolls is higher again this week--with the 1946-PDS and 1947-P & D rolls enjoying especially strong demand. The already assembled 1941-47 BU roll set is now bid at \$31,500; bids for the twenty rolls separately total \$32,650! "Common date" P-mint rolls (1941/45-P), by the way, are now receiving quantity bids at \$1150.

And every one of the thirty-five Franklin rolls are also higher--led by the now extremely elusive 1949-S at \$3250! The complete 1948-63 BU roll set is now wanted at \$13,750--see page three for the individual changes.

DOLLARS: Potential buyers are tumbling over each other in their frantic attempts to buy "common date" BU dollar rolls. Bids for 1883/85-O have been noted as high as \$575, the 1885/87-P's at \$585 and "any S-mint roll" at \$800; the 1921-P Morgan and 1922/23-P Peace rolls are each bid at \$360. Changes among the singles have been more or less limited to the dates for which the roll prices are advancing.

PROOF SETS and MINT SETS: Common silver proof sets (1961-64) are bid for in large quantities at \$9.75--which is just a bit over "melt" at the silver bullion price as we go to press. All of the 1950-60 sets are also higher in strong bidding--as are most of the mint sets on either the strength of silver or, in the case of the earlier issues, the dated coins involved. Check page six thoroughly!

COMMEMORATIVES: Up--up--and away!! Every silver and gold commem is sporting a plus sign in each of the three columns! There are virtually no sellers--and most bidders are simply asking for "quotes" or offering to pay "mid bid-ask" or "ask" in almost totally futile attempts to locate even a few properly graded specimens.

This Week's Market

CENTS: This is perhaps the only relatively quiet area of the entire market; a couple of gains have been registered for earlier Lincoln rolls (1934-P, 1939-D).

U.S. GOLD: (Prices are for the most common data of each type.) Bullion related gold coins in this issue are figured on a basis of gold at \$376.10 per ounce.

THE COIN DEALER NEWSLETTER

reports the national coin market on a weekly basis. Under the present system, it is impossible to monitor all transactions of offers to buy and sell, but the broad information sources of the Newsletter make it a very accurate reflection of the market.

INVESTORS NOTE: the prices in the Newsletter are from dealer-to-dealer transactions. As an investor, you may place your buy and sell orders through a dealer for a fee, as you would buy stock through a broker.

ADVERTISING RATES:

\$12.00 per column inch; four consecutive ads (no changes) - 10% discount.
Advertising space is limited; ads will be placed in first possible edition.

MS-60 coins are "average UNC"—they may have bag marks or handling marks (but no wear) and may not have full luster; MS-65 coins are choice fully struck specimens without detracting marks—they may be brilliant or have original toning.

SILVER DOLLARS AGAIN JOIN FRANTIC MARKET Prices Continue To Soar Across A Broad Front; Bidders Crowd Tapes

The Market in Depth

ALLEN HARRIMAN

A further comprehensive round of advances has been recorded for MS-65 BU and proof type coins this week. These new higher bid levels haven't been much more effective than those which were in force previously and from the drastically limited stock of most dealers it seems apparent that bidding results will likely remain discouraging for sometime to come. Auction "prices realized" for top quality coins continue to set record after record and bourse table price tags, as one dealer recently put it, are beginning to "look like telephone numbers"! The commem market remains very strong and active---BU rolls (mainly silver) are moving along quite well---circ type is in demand---and silver dollar singles are now once again enjoying considerable attention from several quarters. All in all, the coin market is continuing along a very active path!

Readers will note that the very active Walking Liberty halves have registered further gains this week---with the "common date" P-mint rolls now pegged in a \$1200-\$1300 range and most of the mintmarked issues following along proportionately. The one roll, however, which is lagging behind noticeably is the 1940-S. Sandwiched between the relatively expensive 1939-S and 1941-S, it would logically seem that the 1940-S would be receiving much higher bids than the presently recorded \$1300. There is a good reason for this apparent price discrepancy. In 1940, the San Francisco production of half dollars reached an all-time low from the standpoint of quality and a roll is seldom encountered which is even "average for an S-mint". Knowledgeable dealers and investors are aware of what 1940-S's that are traded by the roll look like---and knowledgeable sellers are well informed of the vast premium a fully struck (or even a "nicely" struck) specimen will bring. The September MONTHLY SUMMARY lists the 1940-S in MS-60 at \$55 bid---and in MS-65 at \$275! Very, very few full MS-65's are being located. (As a sidenote, it is rather curious that the 1940-S is such a badly struck issue---coming as it does after the almost always exceptionally well struck 1939-S. Mr. James Bennett Pryor, in his November, 1977 MONTHLY SUMMARY article on the Walking Liberty series, states that a "full head" 1940-S is occasionally encountered---but that a "full head and hand" specimen is rare indeed.)

There has been a steady demand for circulated Carson City silver dollars for many months now; this week the bid for "any" VG specimen has jumped to \$18---with the better grades advancing commensurately. Presently there are five CC dates which fall into the "common" category---1878, 1882, 1883, 1890 and 1891---and these are all wanted in large quantities. In addition, the circ 1885-CC is always in strong demand "in any grade"; this is a very, very scarce coin in circulated condition. It is apparent that only a small percentage of the low mintage (228,000) ever reached circulation. This is in direct contrast to the 1889-CC---virtually all of which were well circulated. Current bidders find that they can locate probably twenty 89-CC's in VG/F condition before they will find even one 85-CC in any circ grade! The 1889-CC, of course, is a key date due to a low mintage figure (350,000) and its true scarcity in uncirculated condition---and, as such, enjoys considerable demand in all grades. It is a ctually easier, however, to locate in the lower grades than the above mentioned 1885-CC or the much lower mintage 1881-CC, (of which, again, a large percentage of the 296,000 mintage were not circulated). The Treasury hoard contained a large quantity of both the 1881-CC and 1885-CC---and, indeed, the upcoming "public mail bid sale" still includes quite a number of each.

PLEASE NOTE that prices for bullion-related material remain volatile ("junk" circ bags of silver, for instance, are trading for considerably less than melt value as we go to press); last minute checks before making commitments are again urged!

This Week's Market

CENTS: This is still the quietest area of the market. Below market bargain-hunting for strictly choice Lincoln rolls continues. The rather elusive 1970-S "small date" has registered a gain at \$175 bid and the 1943-P wartime issue is up \$5 in quantity bidding at \$25 (top quality only is wanted).

NICKELS: The BU roll set of wartime Jeffersons is now strongly bid at \$2700 (up \$100); several of the 1938-52 individual rolls are also receiving higher quantity bids---1938-S at \$335, the tough 1942-D at \$695 (up \$45) and the low mintage 1943-D at \$155 (still the lowest priced wartime issue). This week's advances in both BU and proof "type" are far too numerous to list here---check page four thoroughly!

DIMES: "Common date" P-mint Mercury rolls have now reached \$400 bid! This higher bid is for 1941/44-P---but excludes the 1945-P (rather strangely, it does include 1944-P---a roll which is usually about as weak as the notorious 1945-P). The 1942/44-D rolls are also higher once again---with very few being located.

Plus signs are liberally scattered across the Roosevelt chart---with bid for the already completed 1946-64 "silver" BU roll set now recorded at \$8750 (bid for the forty-eight rolls separately totals \$9005).

QUARTERS: The earlier P-mint Washington issues continue to advance (obviously looking more and more attractive in relation to the late bullion-related rolls); the mint-marked gainers include 1944-D & S, 1954-S and 1955-D. In "type", plus signs cover virtually all of the issues---including: Seated Liberty (no drapery) - \$6500, (no motto) - \$1700, (arrows & rays) - \$3650, (with motto) - \$1050, Barbers - \$675 and type one Standing Liberty (full head) - \$575!

HALVES: Nearly every one of the twenty 1941-47 Walking Liberty "short set" rolls is higher once again---with the "common date" P-mints now bid at \$1200! The BU roll set is unsuccessfully bid, by the way, at an even \$32,000; choice single sets are now recorded in the \$1650-\$1800 range---with several dealers interested in locating five or ten sets.

Nor are bids of \$14,000 producing the Franklin BU roll set! This higher bid runs parallel to the almost complete run of plus signs for the individual rolls (with the common dates now pegged at \$125 bid and "original bags" wanted for as much as \$12,800)---see page three!

DOLLARS: Several major bidders are back in the market for strict MS-65 single Morgan and Peace dollars; gains literally cover both charts. (Once again the word "strict" must be emphasized---at today's levels, buyers are fussy and only full MS-65 specimens will command these prices.) The BU rolls are relatively unchanged this week---with no "bargains" noted and numerous sales recorded within present bid-ask ranges.

The "blue" and "brown" Eisenhower dollars have reversed their downward trend this week; the key 1973-S 40% silver proof is now wanted at \$87 (up a strong \$14), the 1972-S version at \$24 (up \$4)---with the others following along in quantity bidding.

PROOF SETS and MINT SETS: The minimum bid for late "silver" proof sets is now an even \$10---large quantities are wanted. Advances have also been registered by a majority of the earlier issues---from 1936 at \$4350 thru 1955 at \$48; the few sellers that are around usually want at least "ask"---so sales have been rather limited. (Sales of the 1979-S set have been noted as high as \$16 during the week.)

COMMEMORATIVES: Don't let the lack of plus signs fool you! Those issues which show gains this week are the result of specific bids and/or transactions---several strong bidders asking for "quotes" rather than raising bid levels fruitlessly. Both the silver and gold commems remain very strong---with exceptional specimens bringing exceptional prices!

U.S. GOLD: (Prices are for the most common date of each type.) Bullion related gold coins in this issue are figured on a basis of gold at \$380.00 per ounce.

VOLATILE BULLION PRICES SPUR FRANTIC MARKET

Silver & Gold Commems Score Total Run Of Gains; "Walkers" Advance Strongly

The Market in Depth

ALLEN HARRIMAN

Volatile gold and silver bullion prices continue to amaze many of even the most bullish veterans of the coin market--and, along with this frantic bullion activity, bid levels across a broad front of numismatic material also continue to make very impressive news--again to the amazement of many "old timers"! Virtually every area of the market is participating in this current and by far most phenomenal upswing and, as often stated during recent months, teletype bidders outnumber sellers by a wide, wide margin. As a result, more and more dealers are resorting to the "please quote" tactic rather than raising bid levels week after week and still going empty handed. Yet, more than enough "want lists" are offering higher and higher prices--and plus signs are rampant again this week!

Every silver and gold commemorative is bid at a substantially higher level in each grade again this week! After comparative a "lull" of only one week (only "about fifty" individual gains were noted last week), at least two major buyers are now in the market for "any quantity" of any issue in either group--proper (and moderately conservative) grading being the only prerequisite to an immediate sale. And numerous other anxious commem bidders are also noted across the various teletype circuits each day, asking for specific issues and often asking that any potential seller "name his price". This week's bid for the fifty-piece silver type set is now an even \$25,000--for the complete 144-piece silver set - \$46,000 and for the eleven issue gold set - \$18,500! These bids, of course, are for strictly MS-65/better sets--and, at today's price levels, buyers examine each coin in a set quite thoroughly--that is, if they are lucky enough to find one!

This week's lack of plus signs across the BU and proof type coin charts (page four) does not indicate a lack of buyer interest. To the contrary, dealers regularly attempt to locate quantities of MS-60's and MS-65's as well as "true gems" in the MS-65+ category. In fact, one frequent bidder now states that he will pay "current ask" for any gem BU or proof type coin--and another often asks for the same top quality material, offering to pay "50% over bid"--also for quantities. It should be noted that the terms "gem" and "choice" can be somewhat confusing unless the bidder specifies MS-65 or MS-65+. The reason for the possible confusion is that many dealers use MS-65 to denote "choice" and others consider MS-65 and "gem" as synonymous. True, there may be only a subtle difference to some, but in today's market there is usually a very substantial price difference between a choice and a gem specimen--and those buyers who omit the numerical description run the risk of having the subtlety of their teletype messages misunderstood. The reasons for the differences between "one man's MS-65 and another's MS-65+" is understandable, of course, since there is still no uniformity in major auction catalogs or selling lists. (We prefer MS-65 to denote "choice" and MS-65+ as "gem"--but industry-wide agreement and usage is the more important consideration--whatever the terminology.)

AN IMPORTANT NOTE ABOUT DELIVERY DELAYS: The CDN staff adheres to a very strict production schedule in order to deliver all Newsletters to the main distribution Post Office in Santa Ana, Ca. without fail each Thursday afternoon. During recent weeks it has become more and more apparent that unreasonable delivery delays are increasing greatly. Those subscribers who feel that their CDN is arriving later than a Thursday mailing warrants might consider writing to Mr. David Hert (Customer Service Representative), Main Post Office, 2201 No. Grand Ave., Santa Ana, CA. 92711--with a copy to the Postmaster General, Washington, D.C. 90260. We are well aware of the timeliness of the CDN and have been working with Mr. Hert to alleviate these delays; further

contacts from individual subscribers could help considerably in pinpointing specific areas of the country which are experiencing these delays!

Caution--and last minute checks--are again strongly urged before buy or sell commitments are made. As we go to press, "junk" circ silver bags and some related material are still trading at considerably less than "melt" value; it would obviously be a good idea to keep a close daily watch on the very volatile bullion market!

This Week's Market

CENTS: Bidders continue to concentrate on other areas--leaving the Lincoln series virtually unchanged for yet another week. Scattered attempts to locate quantities of circ "wheat back" (pre-1959) and S-mint bags are noted at around \$84 and \$125 respectively.

NICKELS: The 1938-64 BU roll set of Jeffersons is bid at a higher \$8400 this week (up \$300)--with single sets now pegged in a \$215-\$235 range. (These bids are quite conservative in view of the fact that the seventy-one individual rolls are bid at a much higher total of \$11,034!) Continued bids of \$2700 fail to pry loose BU roll sets of the 1942-45 wartime issues; some bidders indicate that they would pay "a bit more".

DIMES: Still advancing nicely, the "common date P-mint Mercury rolls are now bid for in quantity at \$420 (except 1945-P--which has moved to \$390); several of the more elusive issues have recorded gains--see pages two and three.

The 1946-64 BU roll set of Roosevelts has also moved higher this week--up to \$9250 (from \$8750). In addition, a majority of the individual 1946-52 rolls have registered gains.

QUARTERS: The now very elusive 1934-39 P-mint Washington rolls are receiving higher (and still unsuccessful) bids this week--advancing as much as \$100 each; several of the "short set" rolls are also higher--with one dealer paying as much as \$250 for "strictly choice" rolls of 1955-D. The complete MS-65 1932-64 single set, by the way, is now bid at \$7250--several dealers are in the market for from one or two to ten complete sets!

HALVES: A nearly complete run of plus signs has been registered this week by the 1934-47 Walking Liberty rolls and singles (excluding only the recently active 1938-P). The 1941-47 group is enjoying particularly strong demand--with the twenty issue BU roll set now wanted at a very impressive \$35,000!--single sets are in a \$1750-\$1900 bid-ask range. Several potential buyers are interested in this beautiful series--some raising bids to specific new levels and others preferring to ask for quotes. Very few Walking Libs are being listed for sale.

And perhaps even more bidders are highlighting the Franklin series--with the common dates wanted in bag quantities at \$130 and most of the earlier dates registering strong advances. The complete 1948-63 BU roll set remains "impossible" at this week's new record bid of an even \$15,000!

DOLLARS: Plus signs are again liberally scattered across the Morgan and Peace dollar charts; bidders want quantities of properly graded MS-60 specimens as well as "no question" MS-65's--"clean cheeks" is one of the requirements and most bidders at these levels admit that they are "fussy buyers". (Investors and collectors are urged to use the same approach--it pays when the time comes to sell!) Several Eisenhower issues have again forged ahead--led by the key 1973-S 40% silver proof at a record \$100 bid!

PROOF SETS and MINT SETS: The 1950-60 proof sets have received the most attention this week; quantity bidding from several sources has moved prices higher for each issue in this group. In addition, the 1979-S Anthony set is much stronger at \$18.50 bid--with several quantity sales noted as high as \$19!

COMMEMORATIVES: Up, up and away--again! Check page two and see comments in "The Market in Depth".

THE COIN DEALER NEWSLETTER

reports the national coin market on a weekly basis. Under the present system, it is impossible to monitor all transactions of offers to buy and sell, but the broad information sources of the Newsletter make it a very accurate reflection of the market.

INVESTORS NOTE: the prices in the Newsletter are from dealer-to-dealer transactions. As an investor, you may place your buy and sell orders through a dealer for a fee, as you would buy stock through a broker.

ADVERTISING RATES:

\$12.00 per column inch; four consecutive ads (no changes) - 10% discount.
Advertising space is limited; ads will be placed in first possible edition.

MS-60 coins are "average UNC"—they may have bag marks or handling marks (but no wear) and may not have full luster;
MS-65 coins are choice fully struck specimens without detracting marks—they may be brilliant or have original toning.

BU AND PROOF TYPE COINS, COMMEMS SOAR HIGHER! Walking Liberty And Franklin Rolls Score Major Gains; Roosevelts In Demand

The Market in Depth

ALLEN HARRIMAN

As readers are aware, each week during the past several we have urged "caution" when trading in silver and/or gold bullion-related areas. This week is no exception! With gold dipping into the \$360's on Monday (10/8) and zooming back to \$ as we go to press--and with silver trading as low as \$15 early in the week (at this moment it is \$), it is again, in our opinion, extremely important to make last minute checks before commitments are undertaken in such areas as bullion and bullion-related gold coins, circ "junk" silver bags, circ dollars and the like. Further major changes within the next days (or hours) are a virtual certainty!

And thus it is difficult to know where to begin comments on this week's numismatic market--but to put it simply, the market continues to "go crazy"! Both MS-65 uncirculated and proof type material has registered a complete run of substantial gains this week. The occasional choice or gem type coin which is now listed for sale on the teletype circuits almost invariably carries "next years" price tag--but even these are very few and far between. Major buyers usually do not now bother to list all of the "types" in which they are interested. Instead, the most "common variety" of teletype message merely states that "all type is desperately needed--please quote" or that the bidder will "pay ask for any and all strictly graded type coins--just ship!" Recent prices realized for outstanding coins at major auctions have been phenomenal--truly amazing many "old timers" and setting record after record! All of the larger coin firms are in dire need of stock and they are having to "out bid" or "out offer" one another in order to satisfy, at least a percentage of their clients' needs.

Following last week's very strong increases for silver and gold commems, this week's chart reflects yet another completely comprehensive run of higher bid levels in both the MS-60 and MS-65 columns--with an additional scattering of gains for the tougher XF/AU's. As with the type coins, selling lists are short and very few and far between. Again, reports from recent auctions show that bidders are tumbling over each other and that the prices being paid are well in advance of even today's wildly escalating dealer bid levels.

On top of the type coin and commemorative frenzy, we also have a very strong BU roll market--one with an emphasis, first, on Walking Liberty halves and, following closely, Franklin halves. Right behind this demand for half dollars come the Mercury dimes, Roosevelt dimes and Buffalo nickels--then the Washington quarters. Even the Jeffersons are getting into the act--leaving the Lincoln rolls still the slowest area of trading. All in all, today's market is a totally unprecedented one--certainly by far the most exciting period of history in numismatic marketplace!

This Week's Market

CENTS: An overall run of plus signs for MS-65 uncirculated type coins has been recorded this week--among them: Classic and Braided Hair half cents - \$725,

"common date" large cents - \$625, Flying Eagles - \$825 and two-cent pieces - \$435. In the proof area, advances also cover every issue on the chart--see page four!

NICKELS: The 1938-64 Jefferson BU roll set has jumped another \$600 this week--with a new bid of an even \$9000 now in force; choice single sets are in a \$225-\$245 range. In "type", as mentioned above, plus signs cover all of the MS-65 uncirculated and proof issues as anxious bidders crowd the teletype circuits--offering to "pay bid", "pay ask" or "pay whatever"! Topping this week's gainers is the 1936-37 Buffalo nickel proof at \$900 bid (up \$175).

DIMES: The common date 1941/44-P Mercury rolls continue their upward swing with quantity bids now recorded at \$435; several other Merc issues are again on the move--check pages three and four. In the Roosevelt series, the key 1949-S roll has rebounded to \$2100 bid--and the still surprisingly tough 1948-D is now bid at \$400 (with sales noted at this new level). The complete 1946-64 BU roll set, by the way, is bid this week at \$9500--over the \$9313 being offered for the forty-eight rolls individually. In this area, too, advances are total for MS-65 type--but still sales remain minimal as potential sellers remain on the sidelines.

QUARTERS: Scattered advances have been registered for some of the pre-1941 Washington singles--1932-P, 1934-D, 1935-D & S, 1936-D and 1939-D. Among this week's roll advances are: 1934-P and 1937-P (both now wanted at \$1250), 1944-D (\$425), 1944-S (\$800), 1945-P (\$310), 1952-D (\$185) and 1955-D (\$240).

In "type", Standing Liberty quarters are enjoying a considerable amount of attention. "Full head" specimens of the "type one" variety are bid this week at \$625 and of the "type two" variety at \$775 (bidders also want large quantities of the "type two" coins in "flat to average head" MS-65 condition at \$180). Circ Standing Liberties are also in demand--particularly the key issues and higher grade more common dates. See page four for the rest of the overall type coin advances!

HALVES: The Walking Liberty series continues to make news! Advances are quite substantial among the 1934-40 issues--with the low mintage 1938-D now receiving bids of an even \$1000! The 1941-47 "short set" issues have once again all registered strong advances--"common date" P-mint rolls are bid this week at \$1350 and the various mintmarked rolls have moved ahead commensurately. Bid for the already assembled (and choice) BU roll set is now \$37,500; single sets have changed hands for as much as \$2000!

Bid has advanced to \$16,000 for the BU roll set of Franklins--with most of the individual rolls sporting plus signs again this week. A few choice single sets have been pried loose at around \$800 and the not-so-common 1954-59 rolls have moved another notch above the common date price. (Nor have "type" half dollars been left out of the action--check page four thoroughly!)

DOLLARS: Several of the more elusive circ Morgans have scored additional gains--1878-7/8, 1879/81-CC, 1884/85-CC, 1893-O, 1894-P & S, 1895-S and 1903-O. In the strict MS-65 category, higher bid levels have been noted for a substantial number of dates in both series--with several regular bidders in the market for quantities. The key 1973-S "brown" Ike (40% silver proof) is now bid for (also in quantity) at a record \$125 --with several sales noted by mid-week at this new level.

PROOF SETS and MINT SETS: The 1970 and 1971-S "S-less" proof sets are higher at \$700 and \$1200 bid respectively. Prices are virtually unchanged this week for the regular issues. In the mint set lineup, the 1965/67 issues are a bit lower and the 1970 a bit higher. The 1976-S Bicentennial issue (3 pc. 40% silver BU) is in strong demand at \$9.25 (these are no longer available from the Mint since the silver value now exceeds the selling price).

COMMEMORATIVES: Again every silver and gold issue is carrying a plus sign in both the MS-60 and MS-65 columns! Several potential buyers are in the market for properly graded specimens--and most have again stated that they will "pay bid--or ask (or quote)" for quantities! The fifty-piece type set is now bid at \$27,000, the complete 144 144-piece set at a very impressive \$50,000--and the eleven piece gold set at \$19,000 (all strictly MS-65).

U.S. GOLD: (Prices are for the most common date of each type.) Bullion related gold coins in this issue are figured on a basis of gold at \$415.50 per ounce.

BID LEVELS SKYROCKET FOR COMMEMS & TYPE COINS BU Rolls, Proof Sets And Silver Dollars Also Enjoy Strong Attention

The Market in Depth

ALLEN HARRIMAN

Last week's phenomenal Long Beach (CA.) Coin Show concluded with several dealers stating that they "had the best show ever—including this year's A.N.A. Convention show"! While this may be a bit strong, suffice it to say that this most recent major show saw coins trade at prices undreamed of only a few short months (or weeks?) ago! Buyers looking for gem—or choice—or even "nice 60+" coins far, far outnumbered sellers and, of course, those who had coins for sale took full advantage of the almost frantic need to buy exhibited by many dealers. One dealer remarked that he had spent many thousands of dollars on coins which he "would have passed" only a few months ago—and most of these were sold at a substantial profit before the close of the show!

Topping this week's news is the first-time-ever complete run of plus signs for both uncirculated and proof type—in both MS-60 and MS-65 condition! It might seem that these overall substantial gains would have enticed at least a reasonable number of coins out of hiding—but, thus far, this hasn't been the case. Most of the current holders of desirable numismatic material have a "why sell" attitude—knowing full well that the price tags now found on similar quality (or often, inferior) coins make it impractical or impossible to replace any investment material sold. To put it another way, many investors and/or collectors simply ask "what will I do with the money if I sell my coins?"

Not to be outdone by the type coins, both the silver and gold commemoratives have also scored what may be the largest one week overall gain—percentage-wise—in history! Again, sales at the Long Beach show (of truly choice specimens) were generally at levels "well over ask"—and thus a number of dealers returned to their teletype machines and raised bid levels closer to what they had to pay over the bourse counters. Collector and investor demand for top quality commems—as well, of course, as top quality "type"—has recently kept most dealer inventories at an all-time low and "outpaying" others is about the only way a dealer can locate enough coins to satisfy his clients' needs.

In another area, one dealer this week offered to pay \$60 each for a few rolls of the "mystery" 1979-D Kennedy half dollars. Apparently none have reached circulation thus far and the only specimens available have been from the over-the-counter "souvenir sets" sold at the Denver mint itself (one each cent thru half—no dollar coin) and, now, the newly released 1979 mint sets. The status of the circulation strikes is still uncertain and a phone call this morning to the Federal Reserve Bank in Denver resulted in an UNOFFICIAL statement that they did not yet have any 1979-D half dollars "in stock".

PLEASE NOTE that again this week a number of bid levels were raised at the last moment—after the enclosed October MONTHLY SUMMARY went to press. It is suggested that readers check each copy for material reported in both to make certain that they are aware of any last minute increases.

advance (and most are quite substantial)! Among the "common" copper gainers are: Braided Hair large cents (1837-57) - \$650, copper-nickel cents (1860-64) - \$280, Indian cents - \$85 and two-cent pieces - \$450.

NICKELS: Moderate interest in "choice common date" Buffalo rolls at \$600 has failed to result in many transactions (the only two dates which generally fit this category are 1937-P and 1938-D). Though the individual rolls in the 1938-64 Jefferson series have recorded but few minor increases, the already assembled BU roll set is up another notch at \$9500 bid (a gain of an additional \$500); choice single sets are now in a \$240-\$260 range. See page four for the unprecedented complete run of plus signs registered by "type"!

DIMES: Another new record has been posted by the 1941/44-P Mercury rolls—once again higher bids (of \$450) are still largely ineffective; other winners in the series include: 1936-P (\$1250), 1938-P (\$1150), 1940-P & S (\$625 and \$875 respectively) and 1943-D & 1944-D (both \$560). With the exception of the 1948-D roll at \$415, this week's advances among the Roosevelt rolls have been recorded for the lower priced pre-1953 issues—all are wanted in quantity. Again, readers are urged to check page four thoroughly for the total and major type coin gains!

QUARTERS: The 1932-36 P-mint Washingtons are higher—along with a scattering of "short set" rolls (1944-D, 1952-D, 1954-S, 1955-D). Serious bidding at \$7500 has not produced any complete (and choice) 1932-64 single sets. Among this week's record number of increases for MS-65 proof "type" are: Seated Liberty (no motto) - \$1150, (with motto) - \$1375, (arrows) - \$1950 and Barber - \$1400.

HALVES: Along with the numismatic market's first complete coverage of plus signs for type material, the Walking Liberty halves continue to make history! As readers will note from the enclosed MONTHLY SUMMARY, all of the 1916-33 issues are bid at higher levels—and this week's advances for the 1934-47 issues are again virtually complete. Bids for the twenty "short set" rolls individually (1941-47) total \$40,125 this week!

"No longer fooling around", as one bidder put it, bid for the almost impossible 1949-S Franklin roll has now moved to an even (and still unsuccessful) \$5000! And further extensive gains across the series has pushed bid for the 1948-63 BU roll set to yet another high—\$16,500 is still not enough to pry any loose! (Once again, see the type coin advances on page four.)

DOLLARS: Quiet for several weeks, the BU dollar rolls have registered a few increases this week (1899-O, 1902-O, 1921 thru 1925-P). In addition, the Peace dollar singles in very strict "clean cheek" MS-65 condition have also registered an almost complete run of gains—along with a number of higher bids in all three Morgan dollar columns (see page six).

PROOF SETS and MINT SETS: All of the 1936-56 proof sets are bid at higher levels this week—with quantities of the lower priced issues wanted. In addition, quantities of the 1957-64 sets are needed (the 1961-64 "bullion-related" issues are slightly higher at \$10.25 bid). In the clad group, the 1970-S and 1979-S are also a bit higher—along with the 1970 mint set.

COMMEMORATIVES: Wow—watch 'em go! Again, every silver and gold commem in both MS-60 and strict MS-65 condition is bid at a higher level this week—most substantially higher! (The XF/AU gold pieces are also up.) Complete choice sets are bid as follows: fifty-piece type set - \$30,000, 144-piece set - \$55,000 and the eleven-piece gold set - \$21,000.

This Week's Market

CENTS: This week—beginning with half cents—every "type" issue in both MS-60 and MS-65 uncirculated as well as proof condition has registered an

TYPE AND WALKERS SCORE FURTHER GAINS "Quality Premium" For Silver Commemoratives Increases

The Market in Depth

ALLEN HARRIMAN

One of the more interesting side lights of the recent explosive price runup in the silver commemorative market has been the tremendous increase in the "quality premium". Eight months ago many issues carried MS-65 bids which were only 15% to 20% over their MS-60 bids. Now most issues have MS-65 bids which are 100% to 200% more than their MS-60 bids.

The chart below shows MS-60 and MS-65 bids for the week of March 9th, this year:

	MS-60 Bid	MS-65 Bid	Quality Premium
Albany	\$ 125	\$ 145	16%
Bridgeport	73	85	16%
Cincinnati	210	240	13%
Elgin	98	116	18%
Iowa	32	36	13%
Long Island	29	36	24%
Maryland	82	96	17%
Oregon	60	69	15%
Rhode Island	62	72	16%
Robinson	56	65	17%
1935-S San Diego	34	40	18%
Spanish Trail	380	450	18%
Vancouver	280	365	30%
York	85	90	5%

The chart below shows current bids and the percentage of difference (quality premium) between MS-60 and MS-65 levels.

	MS-60 Bid	MS-65 Bid	Quality Premium
Albany	\$ 225	\$ 480	113%
Bridgeport	120	300	150%
Cincinnati	375	675	80%
Elgin	160	385	78%
Iowa	60	145	133%
Long Island	55	115	109%
Maryland	130	365	180%
Oregon	105	215	104%
Rhode Island	120	260	117%
Robinson	95	330	247%
1935-S San Diego	55	150	173%
Spanish Trail	775	1650	113%
Vancouver	425	1125	164%
York	125	420	236%

Comparing the two charts above leads to several conclusions and possibilities. Obviously the quality premium in the silver commemorative market was much too small in March. Although commemoratives were struck especially for collectors (as opposed to regular issues struck for general circulation), they were not struck with any significant, special care. They are not proofs they are "business strikes". Most uncirculated examples grade MS-60 to MS-63. MS-65 examples are much scarcer. Clearly the 15% to 20% premiums in the March charts were much too modest. The commemorative market had been relatively dormant. As dealer/investor attention turned towards silver commemoratives, quality premiums increased dramatically. The 100% to 200% (or more) difference in MS-60 and MS-65 bid levels now seems more in line with the relative

rarity of the two grades. Whether the silver commemorative market has reached a price plateau or will continue to advance is anyone's guess. What is apparent is that the MS-60/65 quality premium will undoubtedly never again be as small as it was in March of this year.

This Week's Market

CENTS: The BU Lincoln roll market was inactive this week but prices for MS-65 copper type increased again. Both Braided and Classic half cents are now bid at a higher \$775 while Braided large cents moved up to \$675. The now elusive Flying Eagle cent, a two year type coin, is now bid \$875. The 1859 Indian cent, a one year only type coin, is now bid \$750. Choice BU MS-65 two cent pieces are bid at a record high \$475.

NICKELS: BU Buffalo nickel rolls are all in demand at current levels. Bid for the 1934-P roll is up \$100 to \$1900. BU Jefferson rolls were mostly inactive. Few rolls dropped slightly including 5 "wartime" issues (see page 3). In the MS-65 type charts Shield nickels (at \$420) and "no cents" Liberty nickels (at \$110) are both bid higher.

DIMES: BU Mercury dime rolls are still very much in demand at current levels. The 1938-P roll edged higher to a bid of \$1200. Roosevelt rolls stayed "hot". Most of the gains were in the earlier (1946-1949) part of the series.

QUARTERS: BU Washington rolls and singels were very much in demand this week at current levels. 1932-P singels are now bid \$62 in MS-65. Barber quarters are now bid \$800 in MS-65 condition. Full Head type 2 Standing Liberty quarters are also bid higher.

HALVES: BU half dollar rolls, both Franklins and Walking Libertys, are "red hot". Once again this week plus signs predominate. Many of the early Walker singels were also higher this week including the 1934-S (now bid \$725), 1936-S (bid \$380) and the popular low-mintage 1938-D (now bid \$1150). The minimum bid for any Walking Liberty half dollar roll is now \$1550. Check page two and three for other gains. Franklin half dollars scored another round of impressive gains again this week. Over half of the 1948 thru 1960 issues posted higher bids this week.

DOLLARS: Nearly every BU dollar roll edged forward this week! Common BU pre-1921 Morgans are now wanted at \$28,750 per bag (1000 coins). A significant number of MS-65 Morgan singels also increased this week. Advances were generally for the same issues which seemed to be "in favor" during the past few weeks: the 1879 thru 1884 P mints, 1881-O & 82-O, 1883-S, 1888-P & 89-P, 1892-P & 93-P, 1896-P & 98-P, 1898-O & 99-O, 1903-O and 1904-P. All of these issues have been steadily increasing during the past few weeks. Circulated 1903-O dollars are bid higher in all grades. Before the huge release by the U.S. Treasury in 1962, the 1903-O was the rarest Morgan dollar in all grades. All of the coins released by the government 17 years ago were uncirculated. The 1903-O remains very rare in circulated grades.

PROOF SETS and MINT SETS: Once again the earlier sets are bid at higher levels while late date sets remain unchanged. The 1970 mint set is wanted by several bidders at a higher \$31.50.

COMMEMORATIVES: Several lengthy buy lists at current levels appeared this week. Check page two for this week's gainers.

U.S. GOLD: (Prices are for the most common date of each type.) Bullion related gold coins in this issue are figured on a basis of gold at \$394.80 per ounce.

COMMEMS, TYPE & HALVES STILL TOP MARKET "No Drapery" And "Arrows" Seated Liberty Type Coins Score Major Gains

The Market in Depth

ALLEN HARRIMAN

Forging ahead of even the strong increases for type coins in general, several of the considerably more elusive short period of issue types have registered very substantial increases in largely unsuccessful quantity bidding. This week's usual demand for both MS-60 and MS-65 uncirculated (and strictly graded) type material has emphasized the "no drapery" as well as both the 1853/55 and 1873/74 "arrows" Seated Liberty coins--which, as one major dealer stated, are "back-logged" in the order department and are almost impossible to locate (in MS-65 or better condition) in sufficient quantities to fill clients' needs.

Topping this list of extremely elusive "two and three year of type" issues are the 1873/74 "arrows" pieces--dimes thru halves--with a particular emphasis on the quarters. The dimes have gained \$750 in this one bidding week--moving from \$2000 bid to a very impressive (but still mostly fruitless) \$2750! And the quarters are now bid at \$3000 as compared with last week's \$2200! A more moderate advance has been registered by the nonetheless equally as elusive half dollar--\$3500 this week versus \$3250 last. Never available in quantity, locating top quality specimens of the 1873/74 Seated Liberty coinage now almost invariably involves prying loose a piece or two from an astute investor who put a few aside in the "good old days".

The "no drapery" S.L. material is also eluding all bidders--with the half dimes (1838/40) moving from \$1300 to \$1500 and the dimes (also 1838/40) advancing from last week's \$1950 to \$2200! The "no drapery" quarters and halves remain steady at their respective bids of \$8500 and \$20,000 not because they are available--but simply, it seems, because current bidders are certain that raising bid levels will do little toward prying loose even a single coin! (Dealers would rather keep a sharp eye out for an MS-65 of either denomination--and then pay whatever necessary.)

The earlier "arrows" Seated Liberty coins (1853/55) are the other short period of issues which have suddenly begun to assume their rightful position nearer the top of type coin "want lists". This week's advances for the more easily located half dimes and dimes are recorded at \$200 and \$350 higher respectively (bid now at \$1300 and \$2200). Even though they are the "easiest" of the "arrows" pieces, very few are being located. It should be mentioned, too, that at \$4500 and \$7500 bid, the 1853 "arrows and rays" quarters and halves fall pretty much into the same "why disturb bid levels" category as the corresponding "no drapery" coins.

This leaves the 1854/55 "arrows" quarters and half dollars. For many years, these two types were drastically overlooked in favor of the tougher 1853 issues. During recent years, however, it was discovered that top quality specimens of both were far more elusive than previously thought. Bid now for the twodenominations has moved to \$3000 and \$3100 respectively--a gain of \$500 for the quarter and of \$300 for the half. These new bids are no more effective than last week's!

Another virtually complete run of gains has been registered by the MS-65 silver commemoratives--along with a substantial number of advances for the tougher issues in MS-60 as well as XF/AU condition. Several dealers remain in this now long-active area of the market--one or two offering to "pay ask" for all very strictly graded commems--others listing specific higher bids--with still others asking for "quotes" on the quantities they need.

bidders, by the way, know the difference between "close" and truly uncirculated specimens--and thus "super-sliders" will not suffice. Among the many advances in proof type material, the two-cent pieces (in strict MS-65) has gained a very impressive \$150--with a new record bid of \$800 now in force!

NICKELS: The 1934-38 "short" BU roll set of Buffalo nickels has moved to \$14,500 bid--with none available (even the single sets are quite elusive at \$370 bid). "Common date" Buffalo rolls (1937-P, 1938-D) are now bid at \$625. And the BU roll set of Jeffersons (1938-64) has also taken another jump--with this week's bid pegged at an even \$10,000; again even the single sets are tough to locate--at \$255 bid. Among the roll gainers are the tough 1942-D (at \$775) and 1943-S (at \$280--with one bidder willing to pay as much as \$300 to fill a specific order). "Type" gains are again both numerous and substantial (including a \$200 advance for the 1936/37 proof Buffalos--bid now \$1200); check page four thoroughly!

DIMES: Although prices are unchanged this week, this does not indicate a lack of interest in Mercury dimes--especially the more scarce pre-1941 rolls and singles. In addition, higher bid levels can be expected for circulated as well as the various uncirculated categories of the 1916-31 issues in the November 16th MONTHLY SUMMARY.

Bidding for the earlier dates in the Roosevelt series has produced plus signs for a majority of the pre-1953 rolls--with a scattering of losses noted for some of the later more "bullion-related" issues (plus 1955-P--now wanted in quantity at a higher \$102). See "The Market in Depth" for comments on the still very volatile type coin market.

QUARTERS: The recently lagging MS-60 1932-40 singles have registered a complete run of plus signs this week (most of these prices moved only moderately since their MS-65 counterparts scored gains of major proportions). This week's few roll advances are: 1944-S (\$850), 1945-P (strong at \$375), 1951-S (\$640) and 1954-S (wanted in quantity at \$165).

HALVES: The Walking Libs are still "hot"! Among the pre-1941 singles, plus signs are once again rampant--with very, very few properly graded singles available. Bid for the already assembled 1941-47 "short" BU roll set is now an even--and quite unsuccessful--\$40,000! (It should be added that the total of the individual bids for the twenty rolls in this group is \$43,000 this week.) "Common date" P-mint rolls have reached \$1600 bid!

Bid for the complete 1948-63 Franklin BU roll set has also moved ahead--recorded at \$17,000 this week; choice single sets have changed hands for as much as \$875. See page three for the gains registered by individual issues.

DOLLARS: A moderate number of advances are scattered across the three columns of both the Morgan and Peace issues--covering some of the virtually "impossible" dates (1889-CC, 1892-S, 1893-S, 1895 Pr, 1895-O) as well as some of the currently more "popular" dates. Even though roll prices are unchanged this week, it must be noted that several dealers will pay "more than bid" for above average rolls". (Please note that the bid-ask levels reported on page six are for "typical rolls" of the date involved. Naturally, hand selected or above average original rolls command a premium.)

PROOF SETS and MINT SETS: All of the 1936 thru 1955 proof sets are bid at higher levels this week--and practically all are wanted in quantity (bidders feel fortunate to locate even one or two of the really tough earlier sets in choice condition). Sales of the 1979-S Anthony set have were noted during the week as high as \$21.50. Most of the 1946-61 mint sets have advanced due to higher bids for the various single coins included--especially, of course, for the half dollars.

COMMEMORATIVES: Still a very active area of the market--see further comments in "The Market in Depth".

This Week's Market

CENTS: Another strong round of increases for the uncirculated copper type coins has been recorded--with an emphasis this week on the MS-60's. Today's

U.S. GOLD: (Prices are for the most common date of each type.) Bullion related gold coins in this issue are figured on a basis of gold at \$380.70 per ounce.

BU AND PROOF TYPE CONTINUES UPWARD SURGE "Mystery" 1979-D Halves Reach Teletype Circuits; Commems & Proof Sets Advance

The Market in Depth

ALLEN HARRIMAN

The long awaited 1979-D halves have finally hit the teletype circuits---with at least one bag (one hundred rolls) changing hands in ten and twenty roll lots at \$12.50 per roll. Previous to this week, it seemed that the only source for this coin was the five-coin "souvenir set" sold over-the-counter at the Denver mint and a few "assembled" rolls had sold for as much as \$60-\$75. Speculation, of course, had considered the possibility of another "mint set only" half dollar similar to the 1970-D. But now, apparently, the 1979-D will be "just another roll"---the next few weeks will tell for certain.

Type coins continue to soar to unprecedented heights---with teletype bidders tumbling over one another in their attempts to be the highest bidders and with auction and bourse table sales breaking price records at every major show. At last week's Paramount auction (at the 15th Annual Grand Central Convention in New York City) a "gem prooflike" 1894-P Morgan dollar brought \$36,000 to a floor bidder! Such phenomenal prices are becoming the rule rather than the exception if the coin is truly outstanding. And in line with this demand for quality, several of the anxious bidders on the teletype circuits are currently offering to pay from 25% to as much as 100% over bid for "no question gems". Today's search for both BU and proof type material in top quality condition is amazing---to say the least! This demand runs from gem Lincoln cents thru rare gold---from silver and gold commems thru proof sets.

A quick check of page four will once again reveal another practically complete run of plus signs across the MS-65 columns of both the uncirculated and proof "type". It should be stressed that virtually no coins are being located---even at bid levels which were undreamed of only a few short weeks ago. One dealer remarked to us this week that he has yet to buy the first coin from his latest buying list---a list which offers to pay "whatever necessary" for MS-65 and MS-65+ material!

Strong interest in proof Franklin halves has become evident across the teletype circuits during recent weeks. Naturally, the earlier low mintage dates are the ones which are giving bidders the greatest problem---beginning with 1950 (mintage 51,386), 1951 (57,500) and 1952 (81,980)---followed by 1953 (123,800), 1954 (233,300) and 1955 (378,200). From 1956-on, mintages are higher---with only 1956 and 1958 dipping below a million and the 1961-3 issues over three million each---thus specimens are a bit easier to find. One of the reasons, however, that locating quantities of any Franklin proof (except perhaps 1961-63) is so difficult is that few people wish to break up proof sets because there is so little current interest in the other four coins. Selling rolls of the proof Lincolns, Jeffersons, Roosevelts or Washingtons is not a simple project---even in today's market. Bid for complete (and strictly choice) 1950-63 sets of proof Franklins is now recorded in the \$600-\$625 range---with very, very few being located. Bids for the individual proof issues range from 50% to 60% of bid for the corresponding proof set. (Bids, by the way, are higher again this week for the 1950-56 proof sets.)

Lincoln rolls have edged slightly higher---with two or three bidders interested in buying quantities of defect-free rolls (most of the bidding remains at a just below current levels). Demand, by the way, is very strong for circ 1909-SVDB's; next week's November MONTHLY SUMMARY will reflect approximate 5%-10% increases over October prices.

NICKELS: All of the lower priced Buffalo rolls are higher this week---with the "common dates" (1937-P and 1938-D) now in a \$650-\$695 range. Quite a number of Jefferson rolls have been offered for sale at lower levels this week (including 100 rolls each 1950-P and 1950-D). Except for the wartime issues, most bidders in the Jefferson series fall more or less into the "bargain hunting" category. The complete 1938-64 BU roll set, however, remains elusive at \$10,000 bid (bids for the rolls individually total over \$11,000). Advances for BU and proof three-cent pieces, nickels and half dimes have been especially strong this week---check page four thoroughly!

DIMES: Several Mercury rolls have registered advances this week---with the few listed for sale carrying "next months" price tag. The surprisingly tough 1948-D Roosevelt roll has scored another impressive gain---moving from \$430 to \$475 (few if any located); also on the move are: 1946-D & S, 1947-P & D, 1949-D and 1955-PDS---along with several of the later usually "bullion-related" dates which seem to be finally edging out of this category. Two of the major winners (among the many) in "type" are the 1873/74 "arrows" dimes and quarters in strictly MS-65 proof condition---gaining \$500 and \$550 respectively during this one week!

QUARTERS: The key 1932-D & S Washington singles are still almost completely unavailable at higher respective bids of \$2400 and \$1100; other early winners are 1932-P (at \$68) and 1935-S (at \$225). The rolls are generally steady at current levels---again with some of the earlier "bullion-related" issues edging ahead of the far more plentiful dates in the 1960's.

"Type" advances are truly phenomenal in this and virtually all other categories---take a thorough look at page five!

HALVES: News continue to be made by the Walking Liberties! Nearly all of the pre-1941 issues are bid at higher levels again this week---with very little success, it should be added. In addition, the 1941-47 issues have posted further substantial advances---with a new BU roll set bid of \$46,000 now in force! ("Common date" rolls are now pegged at \$1700-\$1850.)

The BU roll set of Franklins is now bid at \$18,000---which places MS-65 single sets in the \$900-\$975 range. Numerous gains have been registered by the individual issues---see page three.

DOLLARS: Plus signs are rather lightly scattered across the Morgan and Peace dollar charts. Perhaps enjoying the most demand this week have been the "common" S-mint Morgan rolls---with at least one dealer offering to pay \$840 for quantities of "strictly choice" rolls. As mentioned last week, it is important to remember that above average BU dollar rolls command premium prices.

PROOF SETS and MINT SETS: All of the 1936-56 proof sets are higher this week---with impressive gains noted for the earlier issues: 1936 (\$5100), 1937 (\$2800), 1938 (\$1350) and 1939 (\$1200). Bid-ask levels have edged very slightly lower for all of the regular 1961-76 sets and the 1979-S Anthony set is more easy to locate (now \$19 bid). The 1946-59 mint sets are also all bid at higher levels this week.

COMMEMORATIVES: A majority of the silver issues has advanced to new record prices once again---with the plus signs very liberally scattered across both the MS-60 and MS-65 columns. All of the gold issues are higher in all three categories; very, very few are available.

This Week's Market

CENTS: Flying Eagle cents in very strict MS-65 condition have now reached \$900 bid---and the one-year-of-type 1859 Indian cent is bid at a higher \$775; neither is being located in the quantities needed. Scattered dates among the

U.S. GOLD (Prices are for the most common date of each type.) Bullion related gold coins in this issue are figured on a basis of gold at \$391.00 per ounce.

CIRC EARLY TYPE COINS ELUDE BIDDERS

Silver Commems Score Further Major Gains; "Hot" Walking Liberties Advance

The Market in Depth

ALLEN HARRIMAN

In addition to continued very strong demand for uncirculated and proof type coins, interest in circulated examples of the earlier types has suddenly rased bid levels quite substantially. Never plentiful in defect-free and evenly worn condition, circ Flowing Hair and Draped Bust material has remained more or less unchanged for some time now due basically to dealer concentration elsewhere---not due to availability. During this period of relative inactivity, at least a few astute dealers and collector/investors have been quietly squirreling away the occasional specimen that they have managed to locate. And, from all reports, this has been a slow process at best!

The qualification of "defect-free" may well be the primary "stopper". A very large percentage of the early type coins now encountered have problems of one sort or another (the vast majority of choice circ examples already reside in type sets). Added to the frequent problem of uneven wear, many of the pieces now seen tend to be bent, scratched, holed (and/or a combination) and, then perhaps, overgraded to boot! Specimens without any of these problems almost invariably have carried "premium" price tags for the past several years.

As mentioned, this week's advances for early circ type have been substantial--and they have covered all of the silver issues from half dimes thru dollars (with the exception of the now very rarely encountered 1796 quarters and 1796/97 halves--bidding being nearly pointless for these two anyway). These new bid levels have thus far fostered very few actual transactions for the simple reason that very few dealers have these coins in stock--or, if they do have a piece or too, they also have more than enough demand from their regular clients. Take a look at these new bid prices as reported on page four! It is interesting to note, by the way, that the earlier type half cents and cents (which are probably about as elusive in defect-free condition) have not yet been affected by this most recent price surge.

And, too, it should be noted that this week's fewer-than-usual number of plus signs across the uncirculated and proof type coin charts do not in any way indicate a lessening of buyer interest in this area. There are several major buyers who regularly list the types they "desperately" need (usually in quantity)---but requests for "quotes" have replaced many of the specific offering prices. And there are others who continue to state that they will pay from 25% to as much as 100% over bid for "superb gems" in virtually any series.

This week's advances across both the MS-60 and MS-65 columns of the silver commem chart have been among the greatest yet---percentage-wise---and the MS-60's have fared at least equally as well as the MS-65's! Those few dealers who now occasionally list some commemoratives for sale at prices "within reason" almost invariably find that they are sold almost immediately. Bid for the complete and strictly choice MS-65 fifty-piece type set is now an unsuccessful \$34,000; for the "non-existent" 144-piece set bid has reached \$62,000! Bid for the eleven-piece gold commem set (again, strictly MS-65) is now \$24,000 (also unsuccessful).

PLEASE NOTE that several last minute advances have been recorded for issues that are reported in both the weekly CDN and the enclosed November MONTHLY SUMMARY. Be sure to check both issues!

This Week's Market

CENTS: Scattered and minor gains have again been recorded---mostly for the earlier rolls; trading remains light. In "type", several further advances have been noted for the "coppers": half cents (Classic and Braided) - \$850, Coronet and Braided large cents - \$875 and \$725 respectively, Flying Eagles - \$925, 1859 Indians - \$800 and two-cent pieces - \$550 (all in strict MS-65, of course).

NICKELS: The very elusive 1934-P Buffalo roll has now reached \$2100 bid---with none yet offered for sale; the remainder of the 1934-38 "short set" issues are firm at current levels. Except for a considerably higher quantity bid for the 1943-S wartime roll (now \$350---up \$35), changes in the Jefferson series are all on the minus side of the ledger; potential buyers show little interest in those dates being offered. In "type" nickels this week's MS-65 gains include: Shield - \$520, Liberty (NC) - \$140 and Liberty - \$400.

DIMES: "Common date" P-mint Mercury rolls have moved forward another notch---bid is now \$475 for the 1941/44-P and \$30 for the 1945-P. The tough 1938-P is also higher at an unsuccessful \$1300 bid. In the moderately active Roosevelt series, the very elusive 1948-D has now reached an impressive \$500 bid!--and both the 1946-D and 1951-D have traded in quantity during the week at a higher \$125.

QUARTERS: The Washington quarter series has been rather quiet this week---with two early singles advancing (1932-P - \$70 and 1935-S - \$250) and two later rolls moving in opposite directions (1954-S - up at \$180 bid; 1955-D - lower in a \$215-\$232 range). "Type" MS-65 quarters have registered the following gains: Seated Liberty (with motto) - \$1800, Barber - \$875 and Standing Liberty (type two - "full head") - \$950.

HALVES: There certainly is no stopping those "red hot" Walking Liberties! Once again the 1934-39 issues have registered strong gains---with the very tough 1934-S now bid at an even \$800 and the key 1938-D at a very impressive \$1350. "Common date" P-mint rolls (1941/45) have reached \$1750 and the minimum bid for any mintmarked roll is now \$2450! The 1941-47 BU roll set, by the way, is now receiving bids of \$47,500---with choice single sets in a \$2400-\$2600 range this week. (Bid for the twenty "short set" rolls individually totals \$48,600.)

DOLLARS: Only scattered advances have been reported across the dollar charts---with several of the "variety" issues now appearing on "want lists" (1878 rev. '79, 1880-O 8/7, 1887/6-O etc.) The circ 1903-O continues to forge ahead in all grades---with virtually none being located. A slowing of interest in the Eisenhower series during the past few weeks has again lowered ask levels for the "blue" and "brown" issues (40% silver BU and proof) as well as the low mintage 1973-P & D "mint set only" issues.

PROOF SETS and MINT SETS: Further strong gains are in force for the 1936-42 sets---coupled with another run of plus signs for the "wanted in quantity" 1950-55 sets. Also higher again this week are the 1970 and 1971 "S-less" sets at respective bids of \$800 and \$1325.

COMMEMORATIVES: This week's increases are very substantial---see "The Market in Depth"!

U.S. GOLD: (Prices are for the most common data of each type.) Bullion related gold coins in this issue are figured on a basis of gold at \$389.20 per ounce.

WALKING LIBERTY HALVES TOP "WANT LISTS" "Arrows & Rays" And "Arrows" Seated Liberty Material Scores Major Gains

The Market in Depth

ALLEN HARRIMAN

Some major advances have been noted for "type" this week. Topping this impressive list is the \$10,000 now being offered for the extremely elusive strict MS-65 "arrows and rays" Seated Liberty half dollar of 1853. This one-year-of-type issue has long been one of the nineteenth century "stoppers" though the mintage at Philadelphia and New Orleans together was nearly five million pieces. This week's price increase (from \$7750) has done little or nothing to pry loose even a single properly graded specimen! Following somewhat behind ---but not much more easily available---is the quarter of the same year and design. Bid for this 1853 "arrows and rays" quarter has suddenly moved from \$4750 to \$6000---again with the same disappointing results. By the way, superb examples of these two coins (in the MS-65+ category) usually bring rather phenomenal prices when offered at a major auction.

Another "big winner" this week has been the Seated Liberty "no drapery" quarter (1838/40). Again, a new bid of \$10,000 is in force---and, again, potential buyers are finding that a substantial jump in bid levels does not necessarily produce the desired results; this tough one has moved from last week's \$8750. Also strongly on the move are the 1854/55 "arrows" Seated Liberty quarters and half dollars---both issues moving to an even (and apparently unsuccessful) \$4000---along with the 1873/74 "arrows" quarter at the same bid level. (Interestingly, this now places all four of the "arrows" quarters and halves at the same exact price level.)

It should be noted here that, in line with this week's additional strong gains for "no motto" and "with motto" Seated Liberty material, bids for "any date" of the very low mintage 1879-89 quarters and the even lower mintage 1879-90 halves are now registered at \$3500. This bid level is for strictly MS-65 uncirculated specimens---not for the proofs which fall into the "common date" type coin category.

During recent weeks numerous readers have been requesting a complete listing of bid prices for Canadian prooflike sets. The fact is that "buy" tapes for these sets have been very few and far between (as well as incomplete) for quite a while now and, thus, pinpointing an accurate and comprehensive list has been nearly impossible. (During this lull, of course, some obvious---but rather misleading---"bargain hunting" was noted.) Now, however, one major buyer has begun to run a complete "want list" for all of the 1954-67 sets---along with bid prices for all 1935-67 BU (MS-65) Canadian dollars. And so---here they are:

CANADIAN PROOFLIKE SETS

1954	\$225.00	1956	\$90.00	1959	\$17.00
1955	125.00	1957	32.00	1960	16.00
1955 (NS)	250.00	1958	30.00	1961/67	15.50

CANADIAN BU DOLLARS (MS-65)

1935	\$ 60.00	1947 (Pointed)	\$500.00	1953	\$ 12.50
1936	70.00	1947 (ML)	500.00	1954	25.00
1937	65.00	1948	900.00	1955	25.00
1938	150.00	1949	30.00	1955 (Arn)	150.00
1939	20.00	1950	35.00	1956	30.00
1945	300.00	1951	25.00	1957 (1WL)	30.00
1946	125.00	1952	25.00	1958	9.00
1947 (Bl)	160.00	1952 (nWL)	45.00	1959/67	8.50

This Week's Market

CENTS: Choice common date Indian proofs have been edging higher for several weeks now---bid this week is \$240; although easily located with "problems" (spots, fingerprints, hairlines, cleaned), attractive defect-free specimens are not so easy to find. Most of last week's copper "type" gainers have advanced once again---see page four!

NICKELS: Changes among the nickel rolls have been minimal this week---with gains registered for 1934-P (still nearly impossible at \$2200) and 1942-S & 1943-S (both wanted in quantity at \$345 and \$385 respectively). Advances for both BU and proof "type" have been far more numerous and include (in MS-65):

Three-cent pieces (nickel) - BU \$420; proof \$750
Shield nickels - BU \$550; proof \$750
Liberty nickels (nc) - BU \$160; proof \$725
Liberty nickels - BU \$420; Proof \$500
Buffalo nickels (I) - BU \$95; proof (1936/37) \$1250

DIMES: Higher bid levels for a number of Mercury rolls have been gathered from several dealers' buying lists---with only widely scattered sales recorded (usually the later P-mints). Gains are extensive across the Roosevelt series---affecting most of the 1946/58 issues. The 1946-64 BU roll set is now wanted at \$9750---just slightly less than the \$9875 being offered for the forty-eight rolls separately. (Check page three for the many individual increases.)

QUARTERS: Several Washington rolls have moved forward this week---among them:
1940P & S - Both are now rather elusive---at respectively higher bids of \$800 and \$950
1941S - Always lagging behind the 1942-S and 1943-S, but moving up a bit at \$1250 bid
1951P & 1952P - Both are now bid at \$145
1953P & 1958P - Bids of \$180 and \$130 produce few results
Some very strong advances have been recorded for "type" quarters---see "The Market in Depth" (and page four).

HALVES: Every one of the 1934/40 Walking Liberty issues has registered an advance this week---with the key 1938-D moving to a still mostly unsuccessful \$1475 bid! Quantities of all are wanted. In the "short set" group (1941-47), the P-mints are all now bid at \$1800 (except 1946-P at an unchanged \$2100) and nine of the mintmarked rolls are now "bunched" at \$2600 bid (this is an unusual situation in that these nine dates are certainly not equally as scarce). The 1941-47 BU roll set, by the way, is now bid at an even \$50,000---with choice single sets now in a \$2550-\$2750 range!

Bids for the thirty-five individual rolls in the Franklin series now total \$18,440---and a few anxious bidders are stating that they will "pay top dollar for a few BU rolls sets"; none have been listed for sale. Numerous earlier dates have advanced this week---see page three. The 1950-63 set of Franklin proofs (MS-65/better) is now bid at \$650!

DOLLARS: Silver dollars have perked up considerably this week! Gains across the MS-65 Morgan and Peace columns are extensive---with even more increases noted for the MS-65 prooflike Morgans. Once again it should be stressed that strict grading is a MUST and that the several dealers who are buying dollars are "fussy" when it comes to the MS-65 category---"close" is not good enough!

PROOF SETS and MINT SETS: Again, interest in the 1936-42 and 1950-55 sets has dominated this area---with further advances noted for all issues in these groups; varying quantities---basically according to price levels---are wanted. Among the later issues, only the 1960 "small date" and the 1970 & 1971 "S-less" sets have shown gains this week---with a few losses noted for some of the 1973/79 sets.

COMMEMORATIVES: Continued interest---but still at last week's substantially increased levels---is noted for both the silver and gold issues. This week's advances have been limited to the California Jubilee (\$650), Panama-Pacific half (\$4500) and the \$2½ Pan-Pac gold version (\$5500).

U.S. GOLD: (Prices are for the most common date of each type.) Bullion related gold coins in this issue are figured on a basis of gold at \$390.50 per ounce.

THE COIN DEALER NEWSLETTER

reports the national coin market on a weekly basis. Under the present system, it is impossible to monitor all transactions of offers to buy and sell, but the broad information sources of the Newsletter make it a very accurate reflection of the market.

INVESTORS NOTE: the prices in the Newsletter are from dealer to dealer transactions. As an investor, you may place your buy and sell orders through a dealer for a fee, as you would buy stock through a broker.

ADVERTISING RATES:

\$12.00 per column inch; four consecutive ads (no changes) - 10% discount.

Advertising space is limited; ads will be placed in first possible edition.

HALF DOLLARS REMAIN "HOTTEST" AREA OF THE MARKET Soaring Bullion Prices Affect Related Material; Last Minute Updates Urged

The Market in Depth

ALLEN HARRIMAN

There are several major teletype bidders who are "always in the market" for strictly graded MS-65 gold type coins--and, looking back to the beginning of the year, it is very interesting to see just how much more they are now offering to pay than they were in January. It should be added that even these very substantial bid level increases have produced far fewer results over the past months than potential buyers would have liked. And, there is no sign that the current record-setting bids are much more effective than the relatively low ones recorded about a year ago.

The following chart compares bid levels as they stood on January 5, '79 with those now in force. (It must again be stressed that these bids are for "no question" MS-65 coins--not for MS-60++, MS-63, Ms-64 or any other such descriptive term often seen.)

	Bid Jan. 5, '79	Current Bid	% Gain
\$1.00 (I) - 1849-54	\$ 850	\$ 3000	253%
\$1.00 (II) - 1854-56	3600	10,500	192%
\$1.00 (III) - 1856-89	750	2800	273%

\$20.00 St. Gaudens - 1907-32	330	725	120%

As can be seen by the ever-increasing spreads between bid levels for MS-60 and MS-65, top quality specimens represent only a tiny percentage of the extant uncirculated pieces. And, thus, gains for MS-60's "average uncs" during the past year--though substantial--have far from kept pace with prices for the much more sought after (and much more elusive) MS-65's. As a further example of the "quest for quality", the occasionally encountered bourse table gem invariably carries a price tag well in excess of current bid-ask levels and the gem/superb pieces at major auctions now almost always bring "runaway" prices. (Unfortunately, the accompanying problems of "quality price tags" on coins which do not quite meet the appropriate quality standards as well as overly optimistic auction catalog descriptions must be recognized.)

Continued interest in nice circulated examples of early U.S. coinage has advanced bid levels for a mjaority of these elusive issues--with more potential buyers now getting into the act. Results of recent price increases have been far less than satisfactory from the bidders standpoint--but, of course, those collector/investors who have some of this material stashed away see it the other way! Thus far, bidding has begun with the half dimes and has covered all denominations thru dollars; the copper issues have not yet been included although attractive defect-free examples are certainly not at all easy to locate.

As we go to press, gold and silver bullion are soaring--and, thus, prices for bullion-related material are once again extremely volatile. A last minute check before making commitments is urged! (This includes "junk" silver bags, circ dollars, late BU rolls, late proof sets and the like--all of which may react strongly within a day or so.)

This Week's Market

CENTS: The long neglected proof copper-nickel cents have suddenly taken a major step forward--with MS-60's moving to \$350 (up \$75) and the MS-65's to \$750 (up \$200). These proofs were produced for only five years (1860-64)--a total mintage of only 3310--and strictly choice defect-free specimens are very few and far between. Flying Eagle proofs, by the way, have moved to \$3250 bid--again in strict MS-65 condition.

NICKELS: Four Jefferson rolls have been flying high this week--led by the truly scarce 1942-D (bid now \$825) and followed by three S-mint wartime rolls which are wanted in quantity: 1942-S (\$375), 1943-S (\$425) and 1944-S (\$360). The BU roll set of wartime issues is now bid at \$2850--with singles in the \$72-\$77 range. Advances for "type" three-cent and five-cent pieces are extensive--see page four!

DIMES: Numerous dates in the Roosevelt series continue to forge ahead--with quantities of all affected issues wanted. Of particular interest to some astute investors are those not-so-common dates in the 50's which are still priced at only 5%-20% over the actual silver value: 1952-P, 1953-PDS, 1954-PDS, 1955-DS, 1956-PD, 1957-P and 1958-PD. In "type", all six half dimes have again registered impressive gains in the MS-65 uncirculated column (page four)--with these higher bids producing few if any actual transactions. The vast majority of dealers are simply out-of-stock on choice "type".

QUARTERS: Several more advances have been noted this week for the Washington rolls: 1944-D (\$525), 1944-S (\$895), 1945-P (\$395), 1946-P (\$205), 1947-D (\$350), 1949-D (\$380) and 1950-S (\$425); these are also all wanted in quantity. The "average head" strictly MS-65 Standing Liberty quarter has registered another strong gain--moving from \$300 to \$375 and, as with most material, quantities are needed. The "full head" version, it might be added, is now bid (still rather unsuccessfully) at \$1025!

HALVES: The half dollar category remains the "hottest" of them all--with both the Walking Liberties and Franklins setting price records day after day! The 1934-40 W.L.'s are all enjoying very strong demand even though this week's bidders have, for the most part, stuck with last week's levels. The 1941-47 issues present another picture. Again every one of the twenty rolls in this "short set" group is sporting a plus sign--with the already assembled BU roll set now bid at \$53,000 and choice single sets now in a \$2750-\$2975 range!

The now very seldom seen BU roll set of Franklins is bid at \$18,500 and, as mentioned last week, even those anxious bidders who offer to "pay whatever" are going empty-handed! See page three for the individual roll changes. By the way, the complete set of Franklin proofs (1950/63) is now bid at \$700.

DOLLARS: The MS-65 columns in both the Morgan and Peace series are again peppered with plus signs as several major buyers vie with each other for strictly graded singles. Many of the BU dollar rolls, on the other hand, have edged lower this week--with several dealers offering to sell small quantities. (This profit-taking is most likely due to the fact that prices have been more or less unchanged for a few weeks.)

PROOF SETS and MINT SETS: Another complete run of advances for the 1936/42 and 1950/56 proof sets! With bidders in the market for any quantity they can get; sales still remain very limited. Prices are mixed for the later issues--see page six.

COMMEMORATIVES: This second week in a row without a rash of plus signs has seen a few sellers appear on the various teletype circuits. Those specimens being listed for sale range from XF/AU to gem uncirculated and they are generally priced at the higher end of the bid-ask range (and well-over for the occasional "superb" piece). There are a few gains this week--see page two.

U.S. GOLD: (Prices are for the most common date of each type.) Bullion related gold coins in this issue are figured on a basis of gold at \$410.50 per ounce.

TYPE & WALKERS SOAR AGAIN Peace Dollars Show Substantial Gains Again This Year

The Market in Depth

ALLEN HARRIMAN

Last week we examined the very impressive performance turned in during 1979 by the gold type coins. This week we are taking a look at the at least equally as impressive (and, in a few cases, more) advances chalked up since January by the twenty-four issues in the 1921-35 Peace dollar series. First, the actual bids for both MS-60 and MS-65 singles as they stood at the beginning of the year---contrasted with this week's bid levels and including the percentage increases:

	MS-60 bid Jan. 5 '79	MS-60 bid Current	% Gain	MS-65 bid Jan. 5 '79	MS-65 bid Current	% Gain
1921-P	\$ 105	\$ 250	138%	\$ 500	\$1400	180%
1922-P	9	17	89%	11	22	100%
1922-D	17	30	76%	65	210	223%
1922-S	18	52	189%	165	425	158%
1923-P	9	17	89%	11	22	100%
1923-D	20	45	125%	65	350	438%
1923-S	18	85	372%	165	475	188%
1924-P	10	18	80%	22	55	150%
1924-S	85	135	59%	300	900	200%
1925-P	10	19	90%	23	35	52%
1925-S	60	200	233%	250	800	220%
1926-P	21	32	52%	60	195	225%
1926-D	62	110	77%	185	475	157%
1926-S	21	40	90%	65	200	208%
1927-P	48	70	46%	135	385	185%
1927-D	105	240	129%	425	1400	229%
1927-S	100	300	200%	320	1000	213%
1928-P	175	295	69%	350	1000	186%
1928-S	75	200	167%	250	900	260%
1934-P	45	70	56%	130	430	231%
1934-D	75	90	20%	285	825	189%
1934-S	700	1600	129%	3000	7200	140%
1935-P	41	55	34%	110	285	159%
1935-S	90	180	100%	300	825	175%
MS-60 <u>average</u> gain -- 113%				MS-65 <u>average</u> gain -- 190%		

One immediate observation upon examining the above figures is that the MS-60's, in general, fared better during the past year than many might have anticipated. Indeed, four issues performed better---percentagewise---in MS-60 than in MS-65 (1922-S, 1923-S, 1925-P & 1925-S). Only the 1935-P and, in particular, the 1934-D have performed very poorly in contrast with the rest of the series. There seems to be no "reason" (except perhaps neglect) for this underachievement. The 1935-P may be relatively easy to locate in MS-60 condition but the 1934-D certainly doesn't appear very often---especially in quantity. (Interesting, isn't it, that yearly returns of 20% and 34% seem "poor" as an investment in today's coin market!) One advantage to having purchased MS-60's during 1979 is the fact that they were far easier to locate than the usually much more elusive strict MS-65's ("strict" is underlined, by the way, to once again emphasize that bid levels for MS-65 specimens are only for coins which fully fit the requirements for this grade.)

Led by the very tough 1923-D (at a phenomenal 438%), gains for the MS-65's have virtually all exceeded 150%---with numerous dates topping 200%! Demand for these top quality Peace dollars is strong and constant---yet few properly graded specimens are being located in spite of dealers' concerted efforts to pry them loose with record-breaking bid levels. The fact is that most of the issues in this series simply were not of MS-65 quality when they left the mint; weak and average strikes predominate and this problem, added to the bag marks which were accumulated through years of storage and improper handling,

created a scarcity which has been thoroughly appreciated only rather recently. (Our July MONTHLY SUMMARY article by Bruce Amspacher covers each date in the Peace dollar series---perhaps the most comprehensive analysis yet available. A limited number of this issue is available at \$2.50 each from the CDN office.)

PLEASE NOTE that both gold and silver bullion prices remain extremely volatile. Again we must urge those making either buy or sell commitments in any bullion-related area to avail themselves of the most up-to-the-minute quotes in order to avoid costly mistakes.

This Week's Market

CENTS: Once again this week, proof copper type coins scored impressive gains in both MS-60 and MS-65. One buyer of BU Lincoln rolls edged his bids higher this week.

NICKELS: Jefferson rolls were rather quiet. The only rolls that stirred any bidder interest were the three "hot" S-mints (1942-S, 1943-S & 1944-S). BU and proof type nickels in both MS-60 and MS-65 all gained again this week.

DIMES: Nearly every Roosevelt roll was bid higher. Once again, record silver bullion prices "forced" up prices on common and near common BU rolls. Bidder interest was also quite evident for the more expensive "non-bullion" rolls.

QUARTERS: BU Washington quarter rolls, like Roosevelt rolls, have been helped by higher bullion prices. The better dates are also in demand (see pages two and three).

HALF DOLLARS: Walking Liberty half dollars remained incredibly hot this week. Bidders were "falling all over themselves" in an effort to be "top buyer". Check the nearly across the board gains for all 1934-47 issues (page two and three).

DOLLARS: Bidding was light this week. A few dealers edged the bids on their "favorite" dates forward.

PROOF SETS and MINT SETS: Nearly every 1938-1964 proof was higher this week. With record high silver bullion prices the price of late date proof and mint sets are being forced higher. The 1964 and earlier proof sets contain 85¢ face value in 90% silver coins (worth \$10.90 today). The 1966 thru 1970 special mint sets, proof sets and mint sets all contain a 40% silver half dollar (worth \$2.55 today).

COMMEMORATIVES: Very little to report for the third week in a row. A few buyers are around at current levels. A few sell lists have appeared at or slightly above ask.

U.S. GOLD: (Prices are for the most common date of each type.) Bullion related gold coins in this issue are figured on a basis of gold at \$432.50 per ounce.

THE COIN DEALER NEWSLETTER

reports the national coin market on a weekly basis. Under the present system, it is impossible to monitor all transactions of offers to buy and sell, but the broad information sources of the Newsletter make it a very accurate reflection of the market.

INVESTORS NOTE: the prices in the Newsletter are from dealer-to-dealer transactions. As an investor, you may place your buy and sell orders through a dealer for a fee, as you would buy stock through a broker.

ADVERTISING RATES:

\$12.00 per column inch; four consecutive ads (no changes) - 10% discount.

Advertising space is limited; ads will be placed in first possible edition.

PROOF SETS SCORE MAJOR GAINS; QUANTITIES WANTED Buffalo Nickel "Short Set" Rolls In Demand -- Very Few Are Available

The Market in Depth

ALLEN HARRIMAN

Demand for the 1950-55 proof sets has been steadily increasing during recent months--and within the last few weeks the 1956-64 issues have been joining a major percentage of teletype buying lists. This interest in the "later" sets, of course, has supplemented the extremely strong interest noted for the early 1936-42 issues during most of 1979. Further bid level advances have been registered this week for all issues from 1936 thru 1960--with numerous dealers joining in the "topping each other's bids" routine in their attempts to corner quantities before prices move even higher.

In line with our usual year-end look at the year's performances turned in by various segments of the market, the following chart will pinpoint the largest proof set gainers and give an insight into which issues seem to be lagging for one reason or another (perhaps true scarcity, as for the 1936 and 1937 sets--or only more or less bullion-related interest as in the case of the 1961-64 issues):

	Bid Jan. 5, '79	Current Bid	% Gain
1936	\$3250.00	\$5900.00	82%
1937	1850.00	3350.00	81%
1938	725.00	1700.00	134%
1939	625.00	1500.00	140%
1940	320.00	925.00	189%
1941	290.00	890.00	207%
1942	290.00	890.00	207%
1942 (t2)	345.00	1030.00	199%
1950	215.00	510.00	137%
1951	150.00	375.00	150%
1952	80.00	230.00	188%
1953	55.00	130.00	136%
1954	29.00	80.00	176%
1955 (box)	21.50	68.00	216%
1955 (flat)	23.00	68.00	197%
1956	10.75	18.50	72%
1957	7.35	14.00	90%
1958	10.40	16.75	61%
1959	6.65	14.00	111%
1960	5.85	13.00	122%
1960 (sd)	27.50	23.50	- 15%
1961	5.20	11.75	126%
1962	5.20	11.75	126%
1963	5.20	11.75	126%
1964	5.35	11.75	120%

Early BU rolls continue to be of major interest to many dealers--with, not surprisingly, Walking Liberties at the top of this list. In addition, however, any pre-1941 Washington or Mercury rolls create definite stirs when the very few and far between teletype sell offers are noted. This also holds true for the Buffalo rolls--with a noticeable and strong increase in demand for this series suddenly coming to light this week. There are, too, a few optimistic bidders who regularly request "quotes" on virtually any pre-1934 rolls--often stating that they will "pay whatever it takes" to pry even one or two rolls loose! As an example, the current minimum bid for any choice (but "flat head") common date Standing Liberty quarter roll is now \$21,000--up from the \$4600 which was in force in January of this year!

This Week's Market

CENTS: The large number of changes among the Lincoln rolls might indicate more activity in the series than is truly the case. Actually, except for relatively substantial gains for the more elusive 1934-P & D and 1935-S rolls, this week's numerous plus and minus signs are basically the result of just a few dealers running widely scattered buy or sell lists; recorded transactions remain minimal. Several strong gains for "type" have been noted--see page four!

NICKELS: The "short set" Buffalo rolls (1934-38) have awakened with a bang this week! All twelve issues in this group are suddenly being asked for in quantity at higher levels--with the already assembled BU roll set now bid at an even \$15,000 (bid for the twelve rolls individually totals \$15,485). Three "hot" S-mint wartime issues continue to top activity in the otherwise rather quiet Jefferson series: 1942-S (bid now \$435), 1943-S (\$515) and 1944-S (\$405)--along with the very tough 1942-D at \$900 bid (up \$75). Advances in "type" are especially impressive across the three-cent thru half-dime lineup--again take a thorough look at the page four charts!

DIMES: Numerous Roosevelt rolls continue to make news! Plus signs once again have been registered by most of the pre-1954 issues--and higher bids of \$10,250 do not seem to be producing the 1946-64 BU roll sets needed by several teletype bidders. Strong gainers in the strictly MS-65 uncirculated category include: Seated Liberty (no stars) - \$4100; (no drapery) - \$2500; (stars obverse) - \$2100; (arrows 1853/55) - \$2350; (legend obverse) - \$1050 and Barber - \$850. The proofs have fared commensurately--check the charts!

QUARTERS: Several of the recently "warm" Washington rolls have again scored another round of advances: 1944-PDS (now bid \$200, \$600 and \$950 respectively); 1945-P, 1946-P and 1948-P (in order, bids are now \$450, \$210 and \$215); 1947-D (\$375); 1948-S (\$325); 1949-D (\$410); 1950-S (\$450); 1951-S (\$650); 1952-S (\$400); 1953-S (\$250) and 1955-D (\$230)--all are wanted in quantity. Across the pre-1941 singles chart (page two) all of the relatively bargain-priced MS-60's have edged a bit forward--along with the still-advancing 1935-S in strict MS-65 (now bid \$350) and the now difficult to locate 1939-D (now \$90). Both the uncirculated and proof type quarters have registered further gains--with the usual emphasis on MS-65 quality.

HALVES: Well, there simply seems to be no limit yet in sight as to how much the many anxious teletype bidders will pay for any and all of the 1934-47 Walking Liberties. Higher bid levels have again been posted by nearly every one of the thirty-nine dates in this group. Occasional groups of singles (and even a few rolls) are listed for sale--invariably carrying "next month's" price tag (with numerous sales often resulting even at these advanced levels). By the way, the 1941-47 BU roll set is now bid at \$65,000--even though bid for the twenty rolls separately totals only \$59,600; choice single sets are now pegged in the \$3250-\$3500 range! Interest remains high for the Franklins even though this week's gains have been somewhat limited by the bidders who hope to locate quantities of rolls within current bid-ask range!

DOLLARS: Advances are relatively plentiful across both the Morgan and Peace charts this week--affecting mostly those issues which have been receiving attention for some weeks now. Somewhat strangely, in view of the still soaring bullion prices, a number of BU dollar rolls are being listed for sale at slightly lower levels--see page six. The Eisenhower series is lightly mixed--with a few more bargain-hunters now entering this area.

PROOF SETS and MINT SETS: Every one of the 1936-42 and 1950-60 issues are sporting further plus signs again this week! There are a number of buyers interested in these sets (choice, of course) and most want "several" of the higher priced earlier issues and "large quantities" of the later ones.

COMMEMORATIVES: This area of the market is still quiet after the frantic activity of some weeks ago. Prices, however, are quite firm and selling lists are relatively brief and scattered. The few gainers this week are: the very tough Pan-Pac half - \$4650, Vermont - \$925, the Pan-Pac \$1.00 - \$2450 and the highly sought after Pan-Pac \$2 1/2 - \$5900.

U.S. GOLD: (Prices are for the most common date of each type.) Bullion related gold coins in this issue are figured on a basis of gold at \$448.40 per ounce.

THE COIN DEALER NEWSLETTER

reports the national coin market on a weekly basis. Under the present system, it is impossible to monitor all transactions of offers to buy and sell, but the broad information sources of the Newsletter make it a very accurate reflection of the market.

INVESTORS NOTE: the prices in the Newsletter are from dealer-to-dealer transactions. As an investor, you may place your buy and sell orders through a dealer for a fee, as you would buy stock through a broker.

ADVERTISING RATES:

\$12.00 per column inch; four consecutive ads (no changes) - 10% discount.
Advertising space is limited; ads will be placed in first possible edition.

PHENOMENAL MARKET CONTINUES AS YEAR ENDS

This Is The Final Issue For 1979—Happy Holidays To All!

The Market in Depth

ALLEN HARRIMAN

This issue—together with the accompanying December MONTHLY SUMMARY—is the last CDN publication of 1979. (Since, traditionally, there is never an issue between Christmas and New Year's, the next one you receive will be dated January 4, 1980—the first in a new decade!) And so what a year it has been! Propelled even more rapidly in recent weeks by skyrocketing gold and silver bullion prices, bid prices have increased more dramatically during the past twelve months than in any other similar period in numismatic history—and there is hardly an area of the market which hasn't come in for at least a share of the action. Comparing prices in this week's issue with those in effect in January, it is sometimes difficult to believe that it has only been a matter of months since bids were at "those" levels!

The very liberal scattering of plus signs across this week's charts now seems to have become the norm and, as area after area became "hot" during past months, it usually wasn't a week-after-week matter of IF a coin had gone up—but more often a matter of HOW MUCH! And along with "expected" weekly advances, 1979 also was the year that the seller all but disappeared—or, at least, the year during which he became almost lost among the crush of buyers. The sustained thrust of demand and phenomenal prices increases have exceeded the "wildest expectations" of many ol' timers and has even surprised many of the most optimistic—and, as the year draws to a close, there isn't yet even the hint of an abatement. Certainly, after "please quote", the next most frequently used phrase during 1979 might well have been "I sold too soon". How often did you hear someone say that prices "couldn't go any higher" just before they increased another ten, twenty or thirty percent?

This week (being no exception to most recent ones) has witnessed an extremely volatile market situation—one in which a strong recommendation to "make last minute checks before finalizing commitments" is again appropriate. This applies particularly, of course, to the material which is the most directly related to bullion prices. One of the several areas, for instance, which is definitely "out of wack" due to the current general volatility of market conditions is the Eisenhower 40% silver "collector" issues—several of which are currently bid at levels which are below their actual melt value! (At the moment, they "melt" at about \$8 or so.) Virtually all silver bullion-related material is receiving bids which are well below its true melt value—circ "junk" silver bags, later BU rolls, many common date circ dollars, etc. In line with such rapidly changing conditions, it is also suggested that readers check both this weekly issue and the December MONTHLY SUMMARY for material which is covered in both (example: the later Walking Liberty halves). Just one day's difference in printing schedules can now often account for rather substantially different price levels.

Again, this is the final 1979 issue. The entire CDN staff wishes all subscribers a happy holiday season and a prosperous New Year. See you in 1980!

This Week's Market

CENTS: Proof Flying Eagle cents have moved to \$2300 and \$4350 respectively in strict MS-60 and MS-65; proof copper-nickel cents are now bid at \$600 and \$1100 in the same conditions. Four relatively tough Lincoln rolls have registered strong gains: 1934-P (up \$15), 1934-D (up \$100), 1935-S (up \$15) and 1939-D (up \$10)—all are wanted in quantity. Several other slightly higher bids have been noted for the earlier issues—see pages two and three.

NICKELS: Led by a \$50 jump for the suddenly "in demand" 1935-P (recently recommended by an investment advisory publication), the majority of the "short sets" Buffalo rolls are again unsuccessfully bid at higher levels. Virtually the only dates listed for sale (on rather widely scattered occasions) these days are 1937-PDS and 1938-D. Those three "hot" S-mint wartime rolls (1942-S, 1943-S, 1944-S) are also considerably higher again this week—along with a number of other issues which have edged forward just a bit. In "type", advances are numerous as usual—check page four!

DIMES: Gains among the Mercuries include: 1936-P and 1938-P (both rolls now bid at \$1500), 1938-D (singles bid at \$115 in MS-65—but not "full bands"), 1940-D (bid at \$2250) and 1943-S (bid at \$1250).

In the Roosevelt series, advances once more cover most of the issues; several bidders want quantities—particularly of the later still bullion-related rolls as well as the earlier "under \$200" dates. Very few sellers have been located. In "type", the very elusive "stars obverse" Seated Liberty dime remains impossible at \$2150 bid, the "legend obverse" is bid now at \$1100 and the Barber at \$900 (all in very strict MS-65, of course).

QUARTERS: The single 1935-S quarter has been receiving quite a bit of attention during recent weeks—with bid moving to \$375 this week (and one quantity buyer offering to pay \$400). It should be noted that all three of the 1935-PDS quarters (yes, even the Philly issue) are often encountered with a "mushy" strike; these are definitely not the quality being accepted at today's bid levels. The other gainers in the Washington series are: 1940-S (up a very strong \$275 at \$1250 bid), 1944-PDS, 1945-P (now the highest priced 1945 issue at \$475 bid), 1946-S, 1947-D, 1948-PDS, 1949-D, 1951-P, 1952-PDS and 1953-PS. Among, the type coins, the "no question" MS-65 (but not "full head") Standing Liberty quarter continues to make news—with this week's bid pegged at a very impressive \$600!

HALVES: At the risk of being repetitious, its still "up, up and away" for the 1934-47 Walking Liberty halves (as well, of course, as for the earlier dates—see the enclosed December issue of the MONTHLY SUMMARY). The "common date" (now an interesting "description") 1941-45 P-mints remain unavailable at this week's record bid of \$2300 and a new minimum bid of \$3400 for "any" mintmarked roll is in force. The BU roll set (1941-47) cannot be bought at this week's \$70,000 bid level. (This bid, by the way, is well over the \$64,900 currently being offered for the twenty rolls individually.) The 1934-40 issues are also much higher—check pages two and three thoroughly!

The Franklins, it should be mentioned, are far from being ignored; this week's limited number of plus signs is a direct result of "please quote" teletype messages from several anxious quantity buyers. As one dealer put it earlier this week, "Why raise bid levels when it is almost certain that you won't get an answer anyway?"

DOLLARS: In view of silver bullion's phenomenal increases, it is rather surprising to note that the "common date" dollar rolls have thus far remained static; last week's below-market sellers, however, seem to have disappeared! The usual number of increases have been registered by the singles—with the greatest number, not unexpectedly, in the MS-65 columns. (The dates which are "really tough" in very strict MS-65 condition are on everybody's "want lists"—with many potential buyers simply asking for "any reasonable quote".)

PROOF SETS and MINT SETS: Every set from 1936 thru 1964 in higher again this week—with no issue now easily located. Naturally, bidders want "up to a thousand or so" of the lower priced 1956-64 sets but those "regular sellers" are now much fewer and further between. Considering percentage gains, the relatively low mintage (669,384) 1956 set is beginning to be grouped with the 1950-55 issues rather than the more or less bullion-related 1957-64 sets. The many advances in mint set prices are, of course, directly related to advances in bid level gains for the corresponding BU rolls.

COMMEMORATIVES: All eleven of the gold comms are wanted in quantity in both MS-60 and MS-65 condition—with new and considerably higher bids still not producing many actual transactions. The silver issues, however, (with the exception of the Panama-Pacific at \$4800) remain unchanged through yet another week.

U.S. GOLD: (Prices are for the most common date of each type.) Bullion related gold coins in this issue are figured on a basis of gold at \$471.00 per ounce.

THE COIN DEALER NEWSLETTER

reports the national coin market on a weekly basis. Under the present system, it is impossible to monitor all transactions of offers to buy and sell, but the broad information sources of the Newsletter make it a very accurate reflection of the market.

INVESTORS NOTE: the prices in the Newsletter are from dealer-to-dealer transactions. As an investor, you may place your buy and sell orders through a dealer for a fee, as you would buy stock through a broker.

ADVERTISING RATES:

\$12.00 per column inch; four consecutive ads (no changes) - 10% discount.

Advertising space is limited; ads will be placed in first possible edition.
